Gueorguiev, 2021 *Retrofitting Leninism* explains through the lens of China how open governance and modern information technology come together to sustain a tightly controlled but socially responsive system of authoritarianism When closed authoritarian regimes reform and open up they often fail most eventually breakdown The People's Republic of China stands as a notable exception How has the ruling Chinese Communist Party maintained power throughout decades of reform and rapid development Drawing inspiration from the CCP's Leninist origins Dimitar Gueorguiev offers a novel and empirically grounded explanation The key to the CCP's staying power he argues is its ability to integrate authoritarian control with social inclusion a combination that is being facilitated by modern telecommunications technology Relying on statistical data media reports and a series of original opinion polls Gueorguiev explores how public input feeds into political oversight and policy planning To

unpack how public preferences are acquired processed and prioritized he analyses bottom up representation and coordination in local Chinese legislatures Finally to evaluate the impact of inclusion he shows that public engagement contributes to both policy stability and public satisfaction Although public inclusion is instrumental to the CCP s hold on power Gueorguiev underscores that inclusive authoritarianism greatly depends on the voluntary participation of Chinese citizens which is far from guaranteed A trenchant exploration of the Leninist model today Retrofitting Leninism will reshape our understanding of the authoritarian approach to government and its prospects for the future *US Political Ritual and the Covid Pandemic* Tammy R. Vigil,2024-12-15 US Political Ritual and the Covid Pandemic The 2020 Democratic and Republican Conventions illustrates the importance of the national nominating convention both as an ongoing custom that speaks to the unique political structure of the nation and as a source of valuable information that goes well beyond the explicit purposes conceptualized by the parties In this book Tammy Vigil specifically interrogates the 2020 nominating programs of the two major U S political parties by exploring the decisions Democratic and Republican leaders made regarding the use of technology inclusion of participants and construction of messaging during a campaign season altered by the Covid 19 pandemic Each party had the opportunity to adapt to the constraints of the moment rethink established practices and present a vision of the nation that would attract and motivate voters Vigil delineates the similarities and differences between the Democratic and Republican conventions and demonstrates how the events presaged many aspects of the general election and transition of power that followed

The Five "Confucian" Classics Michael Nylan, 2008-10-01. The Five Classics associated with Confucius formed the core curriculum in the education of Chinese literati throughout most of the imperial period. In this book, Michael Nylan offers a sweeping assessment of these ancient texts and shows how their influence spread across East Asia. Nylan begins by tracing the formation of the Five Classics canon in the pre-Han and Han periods, 206 B.C. to A.D. 220, revising standard views on the topic. She assesses the impact on this canon of the invention of a rival corpus, the Four Books, in the twelfth century. She then analyzes each of the Five Classics, discussing when they were written, how they were transmitted and edited in later periods, and what political, historical, and ethical themes were associated with them through the ages. Finally, she deliberates on the intertwined fates of Confucius and the Five Classics over the course of the twentieth century and shows how the contents of the Five Classics are relevant to much newer concerns. Competitive Comrades Career Incentives and Student Strategies in China provides a nuanced analysis of the complexities within China's educational institutions and examines the evolution of student behavior in response to political pressures and career incentives Focusing on the period between 1960 and 1966 the book delves into the high stakes world of Chinese high schools where the distribution of opportunities especially under Mao's virtocratic policies produced a unique blend of ambition and moral posturing The book argues that Maoist policies which sought to fuse political virtue with academic performance created an intense atmosphere of competition that encouraged students to balance their academic and political ambitions with social strategies that would ensure their success Unlike meritocracies or traditional hierarchies this virtocratic system intensified the stakes of student relationships and loyalty while paradoxically fostering political cynicism and alienation from the state a contradiction at the heart of the Maoist vision of revolutionary successors Through detailed interviews with former students Competitive Comrades reveals how students navigated these pressures showing that rather than fostering cooperation and ideological alignment Mao's policies often drove students toward strategic adaptations aimed at self preservation and advancement This exploration of the social and behavioral implications of virtocracy provides critical insights into post revolutionary Chinese society and presents a comparative framework relevant to other regimes governed by similar principles of moral based selection Ideal for scholars of Chinese history political sociology and education studies Competitive Comrades sheds light on the unintended consequences of revolutionary moral ambitions on youth culture and social cohesion in Communist China This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1982 Contemporary Political Protest Abby Peterson, 2018-02-06 This title was first published in 2001 An investigation of the new wave of militant political activity emerging across Europe The book examines the role of emotions in militant activity the way in which the body is implicated in militant political actions and the concept of media modernity as a precondition for the contemporary politics of militancy
