Small Towns in Europe in the 20th and 21st Centuries Ludá Klusáková et al., 2017-07-01 Largely unknown small towns always in the shadow of famous cities are mostly overlooked by historical research English Spanish Portuguese Greek Czech and Russian towns are staged in this volume as examples of a typical European phenomenon They appear in diverse shapes influenced by their countries and regions in history One of possible strategies to overcome difficulties and motivate new development uses cultural heritage as a marketable value International team of urban historians sociologists and historians of arts and architects joined at the European Association for Urban History conference in Lisbon in 2014 and decided to present the issue in this volume composed of five chapters using a variety of methods and perspectives *Cities and Metropolises in France and Germany* Evelyn Gustedt, Ulrike Grabski-Kieron, Christophe Demazière, Didier Paris, 2022-11-04 In both countries France and Germany there is great pressure to change and adapt towards new forms of urbanity and to conceive new strategic approaches with limited public finance and a need for economic efficiency Not all types of urban areas are equally affected by these issues The book aims to do justice to this situation considering in both cases the context of the national urban systems As it proved impossible to address all the topics relevant to the spatial development of urban and rural areas the authors decided to concentrate on a number of important topical themes which are undoubtedly relevant in both countries albeit in different ways and which could be significant for a comparison The focus is thus on issues related to metropolises small and medium sized towns and particularly current issues of urbanity sustainability Smart Cities transport and mobility and the role of cross border urban development The structure of the chapters is conceived in these terms Besides scientific and theoretical approaches the authors also consider the practical planning perspective and methodological aspects of the topic at hand They mainly address three relevant factors the differences between the two institutional systems the development paths and historical constants and how new challenges are addressed on both sides of the border
