The purpose of this book is to provide the director of a small college library typically defined as a facility managed by one to seven librarians with information on every important managerial function specific to their facilities. This content will be much more useful for these library specialists than that of management books covering generic library management or targeted towards large academic settings. *Managing the Small College Library* covers the key responsibilities of the small college library director: personnel planning, budgeting, and serving key constituencies. The author draws upon her in-depth knowledge of bureaucratic, political, and human resources managerial theory to explain how librarians can advance the mission of their library. It also includes an in-depth discussion of tenure and academic status for librarians and examines the effects of both public and religious affiliation.

Private Philanthropic Trends in Academic Libraries Luis Gonzalez, 2013-11-18 *Private Philanthropic Trends in Academic Libraries* is written with the senior library administrator and the development officers of academic institutions in mind. Chapters discuss which grantmaking philanthropic foundations and corporate giving programs will be more receptive to grant monies to library projects, which types of library projects they will be more likely to fund, and how to approach these agencies in order to increase the possibilities of receiving grant awards from them. The work provides starting points for library development and fundraising efforts. Covers the basics of fundraising. Presents the historical funding trends of private philanthropic foundations giving to academic libraries.

Operations Handbook for the Small Academic Library Gerard B. McCabe, 1989-09-26 Gerard McCabe's *Operations Handbook for the Small Academic Library* fills a real need.
