Smart Contracting for Local Government Services Kevin Lavery, 1999-03-30 Privatization of local government is making headlines throughout the world Scottsdale Arizona contracts for fire protection Baltimore to run nine city schools and Chicago and Philadelphia for a range of services from janitors to recreational facilities The United Kingdom New Zealand and Australia have arguably gone further than the United States But much of the debate on contracting has been high on politics philosophy and emotion with little attention to practical issues of how to do contracting well The book shifts the debate away from the politics and rhetoric to the practicalities and realities of contracting The book is concerned with four issues the role of contracting in government the appropriateness of different contracting strategies the process of contracting and who does the contracting Drawing on examples in the United States and the United Kingdom the author considers the historical and cultural context of contracting where contracting works and where it doesn't the features of smart contracting and the conditions that are conducive to smart contracting The book provides an invaluable guide to those concerned with the practicalities of contracting

Alternative Service Delivery: Readiness Check Gerald T. Gabris, Heidi O. Koenig, Kurt Thurmaier, Craig S. Maher, Kimberly L. Nelson, Katherine A. Piker, Alicia Schatteman, Dawn S. Peters, Craig Rapp, 2014-04-15 Alternative Service Delivery Readiness Check synthesizes academic and practitioner knowledge about alternative service delivery ASD systems This handbook offers information and insights that local governments can use to provide public services more effectively and efficiently It serves as a primer about alternative service delivery intended to guide investigation of new approaches to service delivery It derives from multiple conversations with local government practitioners in Illinois who were frustrated by a lack of guidance on how to think about alternative service delivery methods for public services and in what circumstances different alternatives were more or less successful This handbook is written for both appointed managers and elected officials who are looking for innovative ways to consider service delivery and want to answer the basic question Can we be doing this better Why does your local government want to consider providing public services in new alternative ways As the cases in this handbook demonstrate jurisdictions that successfully develop and implement an alternative service delivery method are driven by a desire to improve service effectiveness Local governments that move from tactical to strategic thinking about service delivery are the ones more likely to improve services using different forms of alternative service delivery The kinds of issues and types of questions examined in this handbook range from how to best handle such demand driven services as allocation of police and fire resources to how to share expensive equipment that your jurisdiction needs only some of the time The stories solutions and evidence are intended to help local government officials understand the differences between delivery alternatives and the prerequisites for developing and implementing each option
