Ness, 2010-08-01 In low income U S cities street fights between teenage girls are common These fights take place at school on street corners or in parks when one girl provokes another to the point that she must either step up or be labeled a punk Typically when girls engage in violence that is not strictly self defense they are labeled delinquent their actions taken as a sign of emotional pathology However in *Why Girls Fight* Cindy D Ness demonstrates that in poor urban areas this kind of street fighting is seen as a normal part of girlhood and a necessary way to earn respect among peers as well as a way for girls to attain a sense of mastery and self esteem in a social setting where legal opportunities for achievement are not otherwise easily available Ness spent almost two years in west and northeast Philadelphia to get a sense of how teenage girls experience inflicting physical harm and the meanings they assign to it While most existing work on girls violence deals exclusively with gangs Ness sheds new light on the everyday street fighting of urban girls arguing that different cultural standards associated with race and class influence the relationship that girls have to physical aggression Black

Family and HIV/AIDS Willo Pequegnat, Carl Bell, 2011-10-22. Three decades into the HIV pandemic, the goals remain clear: reduce the number of infections, improve the health outcomes of those who are infected, and eliminate disparities in care. And one observation continues to gain credence: families are a powerful resource in preventing, adapting to, and coping with HIV. Recognizing their complex role as educators, mentors, and caregivers, *Family and HIV/AIDS* assembles a wealth of findings from successful prevention and intervention strategies and provides models for translating evidence into effective real-world practice. Chapters spotlight the differing roles of mothers and fathers in prevention efforts, clarify the need for family-community collaborations, and examine core issues of culture, ethnicity, gender, and diagnosis, e.g., minority families, adolescents with psychological disorders. Throughout, risk reduction and health promotion are shown as a viable public health strategy. A reference with considerable utility across the health, mental health, and related disciplines, *Family and HIV/AIDS* will be a go-to resource for practitioners working with families, researchers studying at-risk populations, administrators seeking to create new or evaluate existing prevention and care programs, and policymakers involved in funding such programs.

Handbook for Working with Children and Youth Michael Ungar, 2005-05-11. To study resilience, one should adopt a fundamental humility about oneself and one's culture and society and simultaneously a respect for the human strength of others. The chapters in this book take these three cautions seriously and offer a convincing demonstration that resilience is indeed a many-splendored thing. James Garbarino, Cornell University. *The Handbook For Working With Children and Youth: Pathways To Resilience Across Cultures and Contexts* examines lives lived well despite adversity. Calling upon some of the most progressive thinkers in the field, it presents a groundbreaking collection of original writing on the theories, methods of study, and interventions that promote resilience. Unlike other works that have left largely unquestioned their own culture-bound interpretations of the ways children and youth survive and thrive, this volume explores the multiple paths children follow to health and well-being in diverse national and international settings. It demonstrates the connection between social and political health resources and addresses the more immediate concerns of how those who care for children create the physical, emotional, and spiritual environments in which resilience is nurtured.

Key Features: Cross-cultural. Illustrates the rich variety of culturally embedded pathways by which children navigate toward health and well-being. Multidisciplinary. Clarifies the construct of resilience from the viewpoint of resilience.
