McNamara and Kissinger were directly culpable in misleading the American public regarding the success of operations in that country Perhaps most tragic were the nonstop visits by government officials and members of Congress to Vietnam They were feted debauched and lied to Their subsequent press conferences always painted a rosy picture of progress and winning As early as 1965 the CIA was reporting the conflict as being unwinnable There were several unique properties of this conflict While only one in five GIs were assigned combat duty there were no safe or rear areas Nobody had the luxury of relaxing feeling safe GIs were rotated in and out of country on an individual basis When our tour was over we were put on an airplane and hours later we were back in the land of the BIG PX with little or no decompression time The logistics of removal of the dead was so efficient there was almost never a chance to say goodbye to pay respects to process the loss Perhaps the two most unique elements of the conflict were the fact that we never lost a battle but lost the war and the surreal intrusion of live war coverage every night into the television sets of America This latter fact gave birth to pressures on MACV to invent such news bits as body count hooches burned acres of defoliation and gallons of Agent Orange Throughout this circus the American fighting man distinguished himself as a warrior as a patriot and as resilient in the face of a determined and skilled enemy Once back in the USA there was trauma and vitriol experienced by many at airports and street demonstrations Agent Orange and PTSD have combined to result in more Vietnam vets dying by suicide than died during the conflict The nation's homeless population is even today comprised approximately 20 percent Nam vets The healing began with the Vietnam Memorial the Wall and has picked up some momentum with the Honor Flight Program Half a century later we've made a start to the healing <https://www.myvietnamjourney.com> *The Drama: American drama. Indexes. Books for reference and extra reading (p. 327-344)* ,1903 **Inland Printer, American Lithographer** ,1893 Early Relational Trauma and the Development of the Self Tomás Casado-Frankel,María Eugenia Herrero,2022-06-01 Through the attentive examination of a single case study this book weaves together the lived experiences of a clinician in training with those of their teenage patient as they collectively navigate and overcome the profound effects of early relational trauma on the development of the self By the care taken in their analysis the book's authors deepen readers' understanding of attachment disorders and their clinical presentation whilst allowing for a uniquely human view of the interactions between patient and clinician Elegantly combining poetic prose with a clinical account this book invites readers to travel with the clinician to think and feel in tandem with his subjective experiences and to explore psychoanalytic and systems theory as a means to understand clinical relationships that are seldom written about with such vulnerability It is a story of determination and growth both moving and enlightening By giving form to the resilience of both patient and clinician their mutual strength through tears of change this book expounds the behavioral consequences and treatment of psychopathologies associated with early relational trauma In this way the book will prove essential for all psychoanalysts and psychotherapists working with traumatized children and adolescents **The Gentleman's Magazine** ,1878
