Smoke And Blue In The Face:

Smoke and Blue in the Face Paul Auster, 1995 Acclaimed author Paul Auster shows the reader how his short story metamorphosed into a feature film starring William Hurt Harvey Keitel Forest Whitaker and Stockard Channing The book includes the short story photos conversations with the actors and Auster and follows the process of a germ of an idea being brought to fruition

Three Films Paul Auster, 2003-12-01 From The New York Trilogy to The Book of Illusions and 4 3 2 1 Paul Auster's novels earned him a reputation as one of American's most spectacularly inventive writers Here published together for the first time are the screenplays of the three films he made in the 1990s Smoke starring Harvey Keitel William Hurt Forest Whitaker and Stockard Channing tells the story of a novelist a cigar store manager and a black teenager who unexpectedly cross paths and end up changing each other's lives in indelible ways Set in contemporary Brooklyn Smoke directly inspired Blue in the Face a largely improvised comedy shot in a total of six days A film unlike any other it stars Harvey Keitel with featured performances by Roseanne Lily Tomlin Lou Reed and Michael J Fox Lulu on the Bridge Auster's solo directorial debut again starring Harvey Keitel with Mira Sorvino Willem Dafoe and Vanessa Redgrave opens with the accidental shooting of jazz musician Izzy Maurer during a performance in a New York club Izzy is then led on a journey into the strange and sometimes frightening labyrinth of his soul Both thriller and fairy tale Lulu on the Bridge is above all a story about the redemptive powers of love

Paul Auster's Writing Machine Evija Trofimova, 2014-08-28 Paul Auster is one of the most acclaimed figures in American literature Known primarily as a novelist Auster's films and various collaborations are now gaining more recognition Evija Trofimova offers a radically different approach to the author's wider body of work unpacking the fascinating web of relationships between his texts and presenting Auster's canon as a rhizomatic fictional network produced by a set of writing tools Exploring Auster's literal and figurative use of these tools the typewriter the cigarette the doppelgänger figure the city Evija Trofimova discovers Auster's writing machine a device that works both as a means to write and as a construct that manifests the emblematic writer figure This is a book about assembling texts and textual networks the writing machines that produce them and the ways such machines invest them with meaning Embarking on a scholarly quest that takes her from between the lines of Auster's work to between the streets of his beloved New York and finally to the man himself Paul Auster's Writing Machine becomes not just a critical investigation but a critical collaboration raising important questions about the ultimate meaning of Auster's work and about the relationship between texts their authors their readers and their critics

Adaptation Theory and Criticism Gordon E. Slethaug, 2014-06-19 Traditional critics of film adaptation generally assumed a that the written text is better than the film adaptation because the plot is more intricate and the language richer when pictorial images do not intrude b that films are better when particularly faithful to the original c that authors do not make good script writers and should not sully their imagination by writing film scripts d and often that American films lack the complexity of authored texts because they are sourced out of Hollywood The faithfulness view has by and large disappeared and intertextuality is now a generally received notion but the field still lacks studies with a postmodern methodology and lens Exploring Hollywood feature films as well as

small studio productions **Adaptation Theory and Criticism** explores the intertextuality of a dozen films through a series of case studies introduced through discussions of postmodern methodology and practice Providing the reader with informative background on theories of film adaptation as well as carefully articulated postmodern methodology and issues Gordon Slethaug includes several case studies of major Hollywood productions and small studio films some of which have been discussed before *Age of Innocence* *Gangs of New York* and *Do the Right Thing* and some that have received lesser consideration *Six Degrees of Separation* *Smoke* *Smoke Signals* *Broken Flowers* and various *Snow White* narratives including *Enchanted Mirror* *Mirror* and *Snow White and the Huntsman* Useful for both film and literary studies students **Adaptation Theory and Criticism** cogently combines the existing scholarship and uses previous theories to engage readers to think about the current state of American literature and film

Paul Auster Mark Brown, 2013-07-19 Paul Auster provides the first extended analysis of Auster's essays poetry fiction films and collaborative projects It explores his key themes of identity language and writing metropolitan living and community and storytelling and illusion By tracing how Auster's representations of New York and city life have matured from a position of urban nihilism to qualified optimism the book shows how the variety of forms he works in

influences the treatment of his central concerns The chapters are organised around gradually extending spaces to reflect the way in which Auster's work broadens its focus beginning with the poet's room and finishing with the global metropolis of New York his home city and often his muse The book uses Auster's published and unpublished literary essays to explain the shifts from the dense and introspective poems of the 70s through the metropolitan fictions of the 80s and early 90s to the relatively optimistic and critically acclaimed films and his return to fiction in recent years Star Culture Mark
