Telling The American Story A Structural And Cultural Analysis Of Conversational Storytelling Bradfords:

Telling the American Story Livia Polanyi,1985 This book explores the complexity of story text Its thesis is that one can elicit the world view of a people from a close structural analysis of their narrative discourse It is the first methodological explanation of how stories can be used as a source of cultural data and an illustration of how to do a rhetorically close analysis of a story text A theory of narrative structure is presented which leads to a conversationally based definition of what can properly be called a story
