**Understanding Families** Linda McKie, Samantha Callan, 2011-12-15 I don't know how often I've wished for an introductory text on family life which encompassed critical contemporary sociological thinking alongside the basic information students need and have only found fossilised thinking on a stodgy subject But now all that has changed McKie

and Callan have achieved what I thought was almost impossible in *Understanding Families* a textbook which provides unrivalled foundations for a critical understanding of contemporary families and relationships Carol Smart The Morgan Centre University of Manchester This excellent innovative comprehensive and easy to read text should be essential reading for everyone keen to understand families across the globe It will make an outstanding contribution to family studies and is highly recommended Janet Walker Newcastle University Easy to read text which debates current thinking surrounding modern families Case studies and questions for the reader throughout the text help translate theory into practice Justine Gallagher Northumbria University Families are the core building blocks of society Our experience of them affects many aspects of our everyday lives shaping our expectations and future plans Written by experts in family studies and family policy this clear engaging book adopts a global perspective to usefully examine how modern families can be explored and understood in research policy and practice Packed with critical pedagogy including case studies think points key words and a glossary it guides students through topics such as relationships sexualities and paid and unpaid work continually returning to its central themes of process and structure The book also Applies key social theories to contemporary analysis Examines key studies on researching families and family life Explores the role of government policies and practices This comprehensive introduction to the study of families and relationships is a timely resource for students and lecturers working across the social sciences particularly students of family studies the sociology of the family family policy and social work and the family Linda McKie is Professor of Sociology Glasgow Caledonian University Samantha Callan is based at the Centre for Social Justice They are both affiliated to the Centre for Research on Families and Relationships at the University of Edinburgh

**Paying for Pleasure** Teela Sanders, 2013-05-13 Drawing on original empirical data with men who buy sex this book takes a fresh look at the relationships clients have with female sex workers The core questions that form the backbone of the research are not only the expected inquiry into why men buy sex but also into the sociological and psychological processes that men encounter in order to enter an assumed deviant sexual behaviour as part of their everyday lives These sociological processes of finding negotiating and buying sexual services are complicated by the stigma directed towards men who buy sex Exactly how do men behave with sex workers what are their relationships like what emotions are involved and can intimacy be bought Questioning the dichotomy made between commercial and non commercial relationships the data suggests that intimacy and commerce are compatible Managing secrecy stigma and the consumption of intimacy takes this book into some of the more challenging theoretical areas of masculinity and emotional consumption in contemporary society Drawing some parallels from the author's earlier book *Sex Work A Risky Business* the book offers insights into why engagement in commercial sex is prolific as sexual culture is transformed in late modernity [A Critical Reflexive Approach to Sex Research](#) Monique Huysamen, 2022-06-23 *A Critical Reflexive Approach to Sex Research* is a methodologically focused book that offers rich insights into the often secret subjectivities of men who pay for sex in South Africa The book centres on the

interview context outlining a critical reflexive approach to understanding how knowledge is co produced by both the interviewer and the participant in research about sex By attending to the complex dynamics of the research interview this book examines the historic and contemporary relationship between sex work race coloniality sexuality masculinity femininity whorephobia and discourses of disease and contagion It draws on both empirical interview data and Huysamen s entries in her research journal to offer a unique approach to building critical reflexivity into every phase of the research process The critical reflexive approach uses an assemblage of poststructuralist and psychoanalytic theories and practices which together provide tools to interrogate how interview dynamics facilitate shape and restrain the meaning that is produced within the interview This book will be a valuable resource for anyone interested in researching sex work from intersectional and feminist decolonial perspectives as it probes critical questions surrounding how men make meaning of paying for sex their motivations for doing so and how they negotiate their identities in relation to this stigmatised practice It provides a unique offering to researchers working on sexual secret and stigmatised topics providing them with a specific set of tools and resources to incorporate reflexivity into their own sex research Encouraging the reader to look widely to draw on an array of theories and frameworks across disciplines this is fascinating reading for students and researchers in critical psychology research methods and the social sciences

**Childhood and Sexuality** Allison Moore,Paul Reynolds,2017-10-25 This book explores how children engage with sex and sexuality Building on a conceptual and legal grounding in sexuality studies and the new sociology of childhood the authors debate the age of consent teenage pregnancy sexual diversity sexualisation sex education and sexual literacy paedophilia and sex in the digital age Whilst Moore and Reynolds recognise the necessity of child protection and safeguarding in the context of risk danger and harm they also argue that where these stifle children s sexual knowledge understanding expression and experience they contribute to a climate of fear ignorance and bad experiences or harms What is necessary is to balance safeguarding with enabling and encourage judicious understandings that advance from a rigid developmental model to one that recognises pleasure and excitement in children s nascent sexual lives Exploring that balance through their chosen issues they seek to encourage changed thinking in professional personal and academic contexts and speculate that children might teach adults something about the way they think about sex Childhood and Sexuality will be of interest to students scholars and professionals across a range of subjects and disciplines including sociology social work criminology and youth studies
