preguntándose por la realidad de un giro cultural en la historiografía mundial. Los numerosos colaboradores han aceptado responder a un plan de trabajo en el que partiendo de la situación historiográfica de cada país se analicen las modalidades de surgimiento y de estructuración de la historia cultural. La España del siglo XX. Fernando Sánchez Marrojo, 2003-01-01. Durante el siglo XX España experimentó una profunda transformación que afectó a todos los planos de la realidad nacional. En este volumen se analizan aquellos cambios producidos en los ámbitos económico, apertura al extranjero superando el tradicional miedo a competir demográfico, duplicación de la población, crecimiento de los índices de urbanización, social, creciente secularización, mejora del nivel de vida y cultural. Aunque con notables discontinuidades y violentas rupturas, el proceso de modernización de la sociedad española fue irreversible y afectó a todos los niveles de la vida pública y privada. Como consecuencia, los distintos indicadores han ido convergiendo con los parámetros vigentes en los países europeos de nuestro entorno.

Cultura española, 1908. La Guerra de la Independencia en la cultura española. Joaquín Álvarez Barrientos, 2009-12-01. Este libro es el relato fragmentario y crítico en forma de mosaico de las interpretaciones y representaciones que desde muy pronto se hicieron de la Guerra de la Independencia. Desde 1808 hasta el presente, o existe una continuidad en su consideración como momento histórico de máxima relevancia como episodio que cambió nuestra historia y sirvió para aglutinar y dar visibilidad a tendencias y fenómenos políticos e ideológicos que estaban latentes al menos desde los años ochenta del siglo XVIII. Por ello se ha querido atender más a cómo se pensó, interpretó y utilizó la guerra que a cuestiones estrictamente contemporáneas de ella o con ella relacionadas, sin dejar por ello de lado determinados elementos internos o inmediatamente posteriores a los hechos bélicos. Así tienen cabida en estas páginas cuestiones como la relación entre la disputa ideológica y la construcción de la ciudadanía, la trayectoria del mito colectivo o la figura del pueblo como agente o sujeto histórico y político. El objetivo perseguido no es hacer una historia de la Guerra de la Independencia ni de su interpretación, sino favorecer acercamientos diferentes y parciales que propicien análisis novedosos y se centren en disciplinas, aspectos y ámbitos concretos y variados de modo que se pueda reflexionar sobre cómo los hechos del pasado, en este caso los relativos al conflicto armado, cambian de significado según el contexto en que se piensa sobre ellos, según quiénes lo hagan, qué valores defiendan o quieran promocionar y en función del público al que se dirigen.
