Temporary Work The Gendered Rise Of A Precarious Employment Relationship:

Temporary Work Leah F. Vosko, 2000-01-01 It explores how and to what extent temporary work is becoming the norm for a diverse group of workers in the labour market taking gender as the central lens of analysis **Gender and the Contours of Precarious Employment** Leah F. Vosko, Martha MacDonald, Iain Campbell, 2009-09-10 Precarious employment presents a challenge to the social economic and political stability of labour markets in industrialized societies and there is widespread consensus that its growth is contributing to a series of common social inequalities especially along the lines of gender and citizenship This collection aims to yield new ways of understanding the forces driving labour market insecurity

Gendering Israel's Outsourcing Orly Benjamin, 2016-11-23 This book presents an institutional ethnography of budgeting processes of commissioning contracts within welfare education and health ministries as case studies With the historical surge in the power position of economic globalization organizations and their impact on public sectors withdrawal from the role of primary women s employers a gap between care worker employees and public sector administrators with respect to skill recognition has emerged in Israel The book examines precisely how this gap is produced enacted and turned into a force that shapes the experiences of women in service and caring jobs Increasingly more researchers are interested in the unexpected consequences of outsourcing this account enters the Israel studies researchers debate over the extent to which the neo liberalization of Israel had restructured its welfare orientation Exposing the operation of service delivery in the gendering of women s work may thus be intriguing for those participating in this debate The analysis of the data presented here enables a portrayal of the negotiating and budgeting processes at work which in turn sheds light on the salience of deskilling and de professionalization to women s disenfranchisement Temporary Work, Agencies and Unfree Labour Judy Fudge, Kendra Strauss, 2013-08-29 Unfree labor has not disappeared from advanced capitalist economies In this sense the debates among and between Marxist and orthodox economic historians about the incompatibility of capitalism and unfree labor are moot the International Labour Organisation has identified forced coerced and unfree labor as a contemporary issue of global concern Previously hidden forms of unfree labor have emerged in parallel with several other well documented trends affecting labor conditions rights and modes of regulation These evolving types of unfree labor include the increasing normalization of contingent work and by extension the undermining of the standard contract of employment and an increase in labor intermediation The normative political and numerical rise of temporary employment agencies in many countries in the last three decades is indicative of these trends It is in the context of this rapidly changing landscape that this book consolidates and expands on research designed to understand new institutions for work in the global era This edited collection provides a theoretical and empirical exploration of the links between unfree labor intermediation and modes of regulation with particular focus on the evolving institutional forms and political economic contexts that have been implicated in and shaped by the ascendancy of temp agencies What is distinctive about this collection is this bi focal lens it makes a

substantial theoretical contribution by linking disparate literatures on and debates about the co evolution of contingent work and unfree labor new forms of labor intermediation and different regulatory approaches but it further lays the foundation for this theory in a series of empirically rich and geographically diverse case studies This integrative approach is grounded in a cross national comparative framework using this approach as the basis for assessing how and to what extent temporary agency work can be considered unfree wage labor *Neoliberalism and Everyday Life* Susan Braedley, Meg

Luxton, 2010-03-19 A penetrating analysis and critique of the neoliberal policies that prompted the global economic crisis of 2008 **Work and Labour in Canada, Fourth Edition** Mark P. King, Andrew Jackson, 2025-05-30 Over the last several decades the workplace in Canada has experienced profound changes Work has become increasingly insecure for a growing number of workers and income inequality has deepened New technologies have reshaped labour processes and have enhanced elements of employer control over work and workers Entry into the labour market is itself a difficult process as young workers struggle to match qualifications and credentials with jobs while for many older workers retirement with a secure income is a diminishing prospect The demographic composition of the labour market is transforming yet this change is conditioned by longstanding patterns of inequality in terms of gender race disability and immigration status Work and Labour in Canada explores the changing world of work mapping out major trends and patterns that define working life and identifying the economic social and political factors that shape the contemporary workplace Evaluating working conditions and the quality of jobs from a critical perspective this text presents an analysis of recent trends in employment and unemployment as well as outlines the role and impact of unions and other workers organizations The fourth edition includes a new chapter on work and technology updated statistical data and additional content on the basic income debate labour and climate change and COVID 19 This thoroughly revised and updated edition is essential for teachers researchers labour activists and students of labour studies sociology political science political economy and economic geography programs

Work in Tumultuous Times Vivian Shalla, Wallace Clement, 2007-03-12 Using a progressive approach to political economy contributors propose alternative policies and practices that might secure more decent livelihoods for workers and their families *New Perspectives on the Public-Private Divide* Law Commission of Canada, 2003 The separation between public and private spheres has structured much of our thinking about human organizations This collection of essays explores how the public private divide influences challenges and interacts with law and law reform **Sociology of Work** Vicki

Smith, 2013-05-16 The simple act of going to work every day is an integral part of all societies across the globe It is an ingrained social contract we all work to survive But it goes beyond physical survival Psychologists have equated losing a job with the trauma of divorce or a family death and enormous issues arise from financial panic to sinking self esteem Through work we build our self identity our lifestyle and our aspirations How did it come about that work dominates so many parts of our lives and our psyche This multi disciplinary encyclopedia covers curricular subjects that seek to address that question

ranging from business and management to anthropology sociology social history psychology politics economics and health Features Benefits International and comparative coverage 335 signed entries A to Z fill 2 volumes in print and electronic formats Cross References and Suggestions for Further Readings guide readers to additional resources A Chronology provides students with historical perspective of the sociology of work In the electronic version the comprehensive Index combines with the Cross References and thematic Reader s Guide themes to provide robust search and browse capabilities **Looking for Work in Post-Socialist China** Feng Xu,2012-03-15 Unemployment is one of the most politically explosive issues in China and has gained further prominence as a result of the present global financial crisis The novelty urgency and complexity of Chinese unemployment have compelled the government to experiment with policy initiatives that originate in the West This book argues that although China is not a liberal democracy it has turned to neo liberal forms of governance to deal with unemployment which now function alongside pre existing Chinese modes of governance This book examines the initiatives which represent China s attempt to institutionalize and humanize its approach to governance these initiatives include training programmes counselling a web based national labour market information network insurance and using community shequ organizations as the base for new mechanisms of governance and informal job generation Based on extensive original research including semi structured interviews the book discusses the ways in which the government combines the new techniques with old campaign style policy techniques The author argues that these multiple modes of governance make the state s power visible in the new Chinese labour market and at the same time run the risk of policy incoherence or even failure
