

"The collaborators in this volume have focused on how real/actual presidents have been depicted in motion pictures and how those portraits have contributed to the historical reputation and image of the office holders. There is no end to the study of and interest in the presidency in film. Every possible perspective on the topic of the presidency is of value these days as the chief executive's power increases beyond traditional boundaries."

— Peter C. Rollins, Oklahoma State University and winner of the 2011 Oklahoma Humanities Award

"In its exploration of the murky borderlands between history and fiction, politics and entertainment, Morgan and company offer a thoughtful and fascinating exploration of the complex relationship between Hollywood and the American presidency. In so doing, *Presidents in the Movies* reminds us that films shape, as well as reflect, the spirit of their times."

— Daniel Frick, Franklin and Marshall College and author of *Reinventing Richard Nixon: A Cultural History of an American Obsession*

Focusing on cinematic depictions of real U.S. presidents from Abraham Lincoln to George W. Bush, this volume explores Hollywood's representation of American history and politics on screen. Morgan and his contributors show how films blend myth and reality to present a positive message about presidents as the epitome of America's values and idealism until unpopular foreign wars in Vietnam and Iraq led to a darker portrayal of the imperial presidency, operated by Richard Nixon and George W. Bush. This exciting new collection further considers how Hollywood has continually reinterpreted historically significant presidents, notably Abraham Lincoln, Theodore Roosevelt, and Franklin D. Roosevelt, to fit the times in which movies about them were made.

IWAN W. MORGAN is Professor of U.S. Studies and Director of the United States Presidency Centre at the Institute for the Study of the Americas. He has written widely on the presidency, including *Nixon* (2002). His most recent book, *The Age of Deficits: Presidents and Unbalanced Budgets from Jimmy Carter to George W. Bush* (2009), won the American Politics Group's Richard E. Neustadt Prize.

The Presidents vs. the Press Harold

Holzer, 2021-08-24 An award winning presidential historian offers an authoritative account of American presidents attacks on our freedom of the press including a new foreword chronicling the end of the Trump presidency The FAKE NEWS media Donald Trump has tweeted is not my enemy it is the enemy of the American People Has our free press ever faced as great a threat Perhaps not but the tension between presidents and journalists is as old as the republic itself Every president has been convinced of his own honesty and transparency every reporter who has covered the White House beat has believed with equal fervency that his or her journalistic rigor protects the country from danger Our first president George Washington was also the first to grouse about his treatment in the newspapers although he kept his complaints private Subsequent chiefs like John Adams Abraham Lincoln Woodrow Wilson and Barack Obama were not so reticent going so far as to wield executive power to overturn press freedoms and even to prosecute journalists Theodore Roosevelt was the first president to actively manage the stable of reporters who followed him doling out information steering coverage and squashing stories that interfered with his agenda It was a strategy that galvanized TR s public support but the lesson was lost on Woodrow Wilson who never accepted reporters into his inner circle Franklin Roosevelt transformed media relations forever holding more than a thousand presidential press conferences and harnessing the new power of radio at times bypassing the press altogether John F Kennedy excelled on television and charmed reporters to hide his personal life while Richard Nixon was the first to cast the press as a public enemy From the days of newsprint and pamphlets to the rise of Facebook and Twitter each president has harnessed the media whether intentional or not to imprint his own character on the office In this remarkable new history acclaimed scholar Harold Holzer examines the dual rise of the American presidency and the media that shaped it From Washington to Trump he chronicles the disputes and distrust between these core institutions that define the United States of America revealing that the essence of their confrontation is built into the fabric of the nation
