Gender and Generation on the Far Western Frontier Cynthia Culver Prescott, 2022-05-10 As her family traveled the Oregon Trail in 1852 Mary Ellen Todd taught herself to crack the ox whip Though gender roles often blurred on the trail families quickly tried to re establish separate roles for men and women once they had staked their claims For Mary Ellen Todd who found a secret joy in having the power to set things moving this meant trading in the ox whip for the more feminine butter churn In *Gender and Generation on the Far Western Frontier* Cynthia Culver Prescott expertly explores the shifting gender roles and ideologies that countless Anglo American settlers struggled with in Oregon's Willamette Valley between 1845 and 1900 Drawing on traditional social history sources as well as divorce records married women's property records period photographs and material culture Prescott reveals that Oregon settlers pursued a moving target of middle class identity in the second half of the nineteenth century Prescott traces long term ideological changes arguing that favorable farming conditions enabled Oregon families to progress from accepting flexible frontier roles to participating in a national consumer culture in only one generation As settlers children came of age participation in this new culture of consumption and refined leisure became the marker of the middle class Middle class culture shifted from the first generation's emphasis on genteel behavior to a newer genteel consumption This absorbing volume reveals the shifting boundaries of traditional women's spheres the complicated relationships between fathers and sons and the second generation's struggle to balance their parents ideology with a changing national sense of class consciousness Founding the Far West David Alan Johnson, 2023-12-22 *Founding the Far West* is an ambitious and vividly written narrative of the early years of statehood and statesmanship in three pivotal western territories Johnson offers a model example of a new approach to history that is transforming our ideas of how America moved west one that breaks the mold of regional and frontier histories to show why Western history is also American history Johnson explores the conquest immigration and settlement of the first three states of the western region He also investigates the building of local political customs habits and institutions as well as the socioeconomic development of the region While momentous changes marked the Far West in the later nineteenth century distinctive local political cultures persisted These were a legacy of the pre Civil War conquest and settlement of the regions but no less a reflection of the struggles for political definition that took place during constitutional conventions in each of the three states At the center of the book are the men who wrote the original constitutions of these states and shaped distinctive political cultures out of the common materials of antebellum American culture *Founding the Far West* maintains a focus on the individual experience of the constitution writers on their motives and ambitions as pioneers their ideological intentions as authors of constitutions and the successes and failures after statehood of their attempts to give meaning to the constitutions they had produced *Founding the Far West* is an ambitious and vividly written narrative of the early years of statehood and

Army Regulars on the Western Frontier, 1848-1861 Durwood Ball, 2001 Unlike previous histories this book argues that the politics of slavery profoundly influenced the western mission of the regular army affecting the hearts and minds of officers and enlisted men both as the nation plummeted toward civil war BOOK JACKET

A Country in the Mind John L. Thomas, 2013-09-27 In this beautifully written account John Thomas details an intimate portrait of the intellectual friendship between two commanding figures of western letters and the early environmental movement Wallace Stegner and Bernard DeVoto The authors of enormously popular works Stegner most well known for his novels *The Big Rock Candy Mountain* and the Pulitzer Prize winning *Angle of Repose* and DeVoto for his classic history of western exploration *The Course of Empire* they also played important roles in the efforts to stop government and private interests from carving up the vanishing West Part of the fractious group of public intellectuals at Harvard that included Edmund Wilson Mary McCarthy and Arthur Schlesinger Sr they saw no contradiction between their literary and political selves and entered the public debate with conviction and passion Drawing on their writings personal correspondence and dozens of articles from the pages of *Harper's* where DeVoto was a columnist for years this illuminating account demonstrates how their concerns for the western environment continue to resonate today

Plateau Indians and the Quest for Spiritual Power, 1700-1850 Larry Cebula, 2003 Fusing myriad primary and secondary sources historian Larry Cebula offers a compelling master narrative of the impact of Christianity on the Columbian Plateau peoples in the Pacific Northwest from 1700 to 1850 For the Native peoples of the Columbian Plateau the arrival of whites was understood primarily as a spiritual event calling for religious explanations Between 1700 and 1806 Native peoples of the Columbian Plateau experienced the presence of whites indirectly through the arrival of horses some trade goods by long distance exchange and epidemic diseases that decimated their population and shook their faith in their religious beliefs Many responded by participating in the Prophet Dance movement to restore their frayed links to the spirit world When whites arrived in the early nineteenth century the Native peoples of the Columbian Plateau were more concerned with learning about white people's religious beliefs and spiritual power than with acquiring their trade goods trading posts were seen as windows into another world rather than sources of goods The whites strange appearance and seeming immunity to disease and the unique qualities of their goods and technologies suggested great spiritual power to the Native peoples But disillusionment awaited Catholic and Protestant missionaries came to teach the Native peoples about Christianity yet these white spiritual practices failed to protect them from a new round of epidemic disease By 1850 with their world devastatingly altered most Plateau Indians had rejected Christianity

Pioneer Photographers of the Far West Peter E. Palmquist, Thomas R. Kailbourn, 2000 This extraordinarily comprehensive well documented biographical dictionary of some 1 500 photographers and workers engaged in photographically related pursuits active in western North America before

1865 is enriched by some 250 illustrations. Far from being simply a reference tool, the book provides a rich trove of fascinating narratives that cover both the professional and personal lives of a colorful cast of characters. *Growing Up with the Country* Elliott West, 1989-09.
