Sport Tourism Heather J. Gibson, 2013-09-13 The study of sport tourism is on the cusp of moving from a descriptive phase of research into an analytical phase Consequently many academics and graduate students are searching for theories upon which to ground their work This book draws upon theories and concepts from sociology and anthropology the socio cultural perspective sport and tourism studies and business studies One of the dangers of a new area of study is that the body of knowledge is built on a range of seemingly unrelated studies By grounding work in a theoretical perspective future work can be linked to and contribute to building a cohesive understanding of various aspects of sport tourism This book is an edited collection written by some of the top scholars working in a particular domain throughout the world providing a compendium of theories and concepts that can be used to frame research on various aspects of sport tourism This volume was previously published as a special issue of the journal Sport in Society

Heyneke Meyer Marco Botha, 2014-10-01 Brilliant advice and insights from Springbok coach Heyneke Meyer This ebook is drawn from Marco Botha's recently published book Coach At 34 Heyneke Meyer was fired as head coach of a Super Rugby team for the second time But when on 19 May 2007 his Bulls side became the first South African team to capture the Super title the dark years at Loftus Versfeld were suddenly forgotten And Meyer was regarded as the coach among coaches Because it is there on the playing field that coaches and players are judged And yet the scoreboard never tells the full story of how people achieved success overnight In Meyer's case it was an arduous journey of more than seven years during which he defined and changed professional rugby This is leadership And leadership is what Heyneke Meyer is about someone who has fundamentally changed a sport an industry a way of thinking and ultimately lives Marco Botha specialist reporter at Die Burger in Cape Town sat in conversation with Heyneke Meyer and interpreted his success story in his engrossing narrative writing style

The New Geopolitics of Sport in East Asia William Kelly, J.A. Mangan, 2015-09-07 The global geopolitics of sport is being transformed in and by East Asia Sport in recent decades has been avidly embraced by East Asian nations with implications both for their image on the international stage and their domestic national identities The three post war East Asian Olympic Games the glittering Guangzhou Asian Games in 2010 and the march of Asia into the global sport market illustrate the fact that a new global sports order has emerged This collection uniquely discerns the tectonic shift of global power in the geopolitical economic cultural and social dynamics of sport from West to East It also reveals that the global empire of commerce is similarly shifting eastwards The chapters written by leading authorities on East Asia widens the focus advances the knowledge and sharpens the appreciation of both global sport and regional current transformation in the making and in doing so contributes to an understanding of profound changes in global sport This book was originally published as a special issue of The International Journal of the History of Sport
