Tending The Garden Essays On The Gospel And The Earth:

Tending the Garden Wesley Granberg-Michaelson, 1987 Readings from the Perspective of Earth Norman C. Habel, 2000-08-01 This volume introduces the hermeneutical approach and ecojustice principles developed by the Earth Bible project team Following this approach biblical scholars illustrate how a reading of the biblical text from the perspective of Earth yields fresh insights Though the text may seem anthropocentric these studies are able to retrieve evidence of the living voice and intrinsic value of Earth It is an approach that can be harmonized with other recognized critical approaches to the Bible from historical criticism to ecofeminist criticism The texts chosen are from many parts of the Bible Psalms Prophets Gospels Romans Revelation and the intertestamental literature Tobit and Wisdom of Solomon Ecologies of Grace Willis Jenkins, 2013-02-12 Christianity struggles to show how living on earth matters for living with God While people of faith increasingly seek practical ways to respond to the environmental crisis theology has had difficulty contextualizing the crisis and interpreting the responses In *Ecologies of Grace* Willis Jenkins presents a field shaping introduction to Christian environmental ethics that offers resources for renewing theology Observing how religious environmental practices often draw on concepts of grace Jenkins maps the way Christian environmental strategies draw from traditions of salvation as they engage the problems of environmental ethics He then uses this new map to explore afresh the ecological dimensions of Christian theology Jenkins first shows how Christian ethics uniquely frames environmental issues and then how those approaches both challenge and reinhabit theological traditions He identifies three major strategies for making environmental problems intelligible to Christian moral experience Each one draws on a distinct pattern of grace as it adapts a secular approach to environmental ethics The strategies of ecojustice stewardship and ecological spirituality make environments matter for Christian experience by drawing on patterns of sanctification redemption and deification He then confronts the problems of each of these strategies through critical reappraisals of Thomas Aquinas Karl Barth and Sergei Bulgakov Each represents a soteriological tradition which Jenkins explores as an ecology of grace letting environmental questions guide investigation into how nature becomes significant for Christian experience By being particularly sensitive to the ways in which environmental problems are made intelligible to Christian moral experience Jenkins guides his readers toward a fuller understanding of Christianity and ecology He not only makes sense of the variety of Christian environmental ethics but by showing how environmental issues come to the heart of Christian experience prepares fertile ground for theological renewal

Economics, Ecology, and the Roots of Western Faith Robert R. Gottfried, 1995 Environmentalists have turned to Eastern religion Deep Ecology and Native American religion for alternatives to the Western view that humans should dominate nature In *Economics Ecology and the Roots of Western Faith* Robert R Gottfried persuasively demonstrates that the ancient Hebrew worldview found in the Torah and the New Testament is remarkably green Drawing on these insights from ancient Western thought and economic understanding of ecosystems and natural processes Gottfried analyzes the

prerequisites for maintaining or improving human welfare and ecological vitality in terms of land economics and management *Dusty Earthlings* John Mustol, 2018-01-01 The Lord God formed a man from the dust of the ground Genesis 2:7 Made of dust we humans are thoroughly physical beings We are dusty earthlings As such we are also ecological beings or rather eco physical beings firmly embedded in and dependent upon God's earthly ecosystems which support and provide for us and constitute our earthly home Today we are living in ways that are damaging our home As Christian dusty earthlings we are called to oversee God's earthly creation and to follow Jesus Christ God incarnated as a dusty earthling How do we do this in the face of the array of ecological problems we face today How can we obey the ecological principles and limits that govern all of life on God's good earth Mustol argues that the virtues of humility voluntary self limitation and the principles of kenosis and justice will help as we seek to follow Jesus as dusty earthlings in today's world *Encyclopedia of Religion and Nature* Bron Taylor, Jeffrey Kaplan, 2005-01-01 No Marketing Blurb **Diversity and Dominion** Kyle S. Van Houtan, Michael S. Northcott, 2010-02-15 This book records a set of dialogues between scientists theologians and philosophers on what can be done to prevent a global slide into ecological collapse It is a uniquely multidisciplinary book that exemplifies the kinds of cultural and scholarly dialogue urgently needed to address the threat to the earth represented by our super industrial civilization The authors debate the conventional account of nature conservation as protection from human activity In contrast to standard accounts they argue what is needed is a new relationship between human beings and the earth that recovers a primal respect for all things This approach seeks to recover forgotten resources in ancient cultures and in the foundational narratives of Western civilization contained in the Bible and in the culture of classical Greece

Leviticus (Brazos Theological Commentary on the Bible) Ephraim Radner, 2008-06-01 This volume like each in the Brazos Theological Commentary on the Bible is designed to serve the church through aid in preaching teaching study groups and so forth and demonstrate the continuing intellectual and practical viability of theological interpretation of the Bible *After Nature's Revolt* Dieter T. Hessel, 2003-03-27 Living with the consequences of modern Western abuse of the environment has alerted many to the need to change not simply their habits but also their worldview A true faith centered eco justice ethic assert the contributors to this volume will recognize the intrinsic links between social justice questions and environmental ones It will also demand reassessment of fundamental assumptions many of them from Christian theology that stand behind Western social economic and technological patterns Introduced by Hessel's illuminating assessment of specific environmental challenges the theologians in this volume rethink aspects of Christian doctrines lifestyle and spirituality They tackle key environmental issues And together they pioneer a theological perspective that moves beyond anthropocentrism to a new center in creation itself **Christianity and Earthkeeping** Ernst Marais Conradie, 2011-04-01 Why should Christians engage in earthkeeping as Christians and from within Christian communities What is the underlying theological rationale for that In this book some 19 reasons why Christians may be encouraged to engage in earthkeeping are identified

juxtaposed and assessed in order to call for clarity to invite discussion and to elicit creative tensions No single position is advocated it would be helpful if Christians could engage in earthkeeping on the basis of any of these motivations
