Reproduction of the original *The Shepherd of Salisbury Plain and Other Tales* by Hannah More **The Language of
Natural Description in Eighteenth-Century Poetry** John Arthos,2020-01-08 Originally published in 1949 this title was
written in order to help establish a better understanding of the stock diction of eighteenth century English poetry and in
particular of the diction commonly used in the description of nature The language characteristic of so much of the poetry of
this period had been severely criticized for a long time But in the twenty or thirty years prior to publication some effort had
been made to review the subject and the problem However several questions still remained unanswered and more exhaustive
analysis needed to be undertaken This volume was an effort to provide answers for some of these questions and to begin the
analysis that was required Tenements of Clay Jon Thurley,1989 **Stories for persons in the middle ranks. Tales
