Winning Tennis with the Tactical Point Control System John Ruder,2019-01-18 Tennis is not a game for the faint of heart It is one of the few sports

where a player must not only keep score but also act as both umpire and referee A tennis match has no time clock no halftime no timeouts no substitutions and can last anywhere from thirty minutes to four hours During that time players may run over five miles and hit well over a thousand shots In the end both the thrill of victory and the agony of defeat rest solely upon the players shoulders So what can a player do today to win more games than not John Ruder relies on thirty five years of coaching and teaching tennis to share a Tactical Point Control System that breaks the tennis point into four distinct phases teaches competitors how to play in each phase provides a checkpoint system that allows players to discover why they are winning or losing each point and shares guidance on how to develop a game plan that enables players to better compete against opponents of all levels Winning Tennis with the Tactical Point Control System shares a simple and effective game plan that allows tennis players to excel in the game and score points against their toughest opponents
