*The 1920 Olympic Games* Bill Mallon,Anthony Th. Bijkerk,2015-07-11 Until this volume was compiled the results of the 1920 Olympics held in Antwerp Belgium have been far from complete The Antwerp organizing committee typed up a report of the results almost as an afterthought because it was so financially strapped after the games For some events only the medalists are listed with little if any additional information Very few copies were ever produced and those few copies were in French The seventh in a series on the early Olympics this work fills a gap in the recording of early Olympics history by providing complete results for all competitors and all events except for shooting which has only partial information available

In virtually all cases a 1920 source has been used in preference to a more modern source of information and all details have been fully researched in contemporary newspapers journals and magazines and checked for accuracy by experts on various sports from all over the world      *My Life in the Wild* Ivan Tors,1979      History of Technology Volume 33 Ian Inkster,2017-06-01 While political and social historians have made great progress in trying to understand the making of modern Greece by studying politics and power struggles little attention has been given TO the co evolution of the Greek state and the technologies that were developed during this period This volume HELPS fills this gap exploring the formation of the Greek state and the construction of modern Greece through the lens of the history of technology and industry The contributors look at the role of engineering institutions the press and of infrastructure technological networks in promoting specific technocratic ideals and legitimizing social roles for the engineers of the period The volume as a whole offers new insights into the way that engineering culture institutional reforms and infrastructures contributed to the making of modern Greece Special Issue History of Technology in Greece from the Early 19th to 21st Century Edited by Stathis Arapostathis and Aristotelis Tympas      *Library Association Record* Library Association,1972 Proceedings of the 22d 33d annual conference of the Library Association in v 1 12 proceedings of the 34th 44th 47th 57th annual conference issued as a supplement to v 13 23 new ser v 3 ser 4 v 1      *British Books in Print* ,1985      Sport and the English Middle Classes, 1870-1914 John Lowerson,1993 This book examines the phenomena which explain the boom in sport among the middle classes in late Victorian England The author focuses on the extent to which sport became an agent of the development of the middle classes and an instrument of their self definition The book does not set out to explain the making of the English middle classes rather it examines a significant part of that making
