Proctor, 2011-12-20 We are all one with God We are all one with each other But how can we embrace these simple truths in our everyday lives Many Indian teachers as well as Jesus have offered this insight and encouraged us to open up to our own potential Charlene M Proctor PhD unites spiritual wisdom from the East and West to help you experience Christ consciousness in the here and now She combines the Oneness teachings of India with a fresh look at the New Testament for profound practical advice on releasing your emotional suffering shifting personal disorder to order and embracing the present moment Through ancient and contemporary wisdom and personal stories you'll expand your heart and mind and awaken to your eternal nature The teachings apply to all religions and creeds they show that everyone is already part of the divine unity Above all The Oneness Gospel guides you toward higher self awareness and a more authentic experience of your own nature **California Eclectic Medical Journal** ,1914 *Worship and Sin* Karel Kurst-Swanger, 2008 *Worship and Sin* Religion Related Crime in the United States raises provocative questions about the role of religion in crime and criminal behavior Arguing that religion related crime should be classified as a distinct subset of crime worthy of continued investigation by scholars this book brings together for the first time the disparate scholarly research related to various types of religion related crime presents numerous examples and considers the practical and legal issues facing practitioners of various disciplines This ground breaking work takes great care to present a comprehensive overview of the phenomenon and illustrates the complex and multidimensional nature of this crime category A three pronged typology is presented as a conceptual framework to distinguish the unique features of different types of religion related crime and to highlight the

dynamic historical psychological social and cultural forces involved in each The author opens the text with several introductory chapters which serve to define religion related crime explore the role of religion in society and to provide an overview of legal and policy issues The remaining chapters provide detailed examples of three different types of religion related crime theologically based crimes which are those which are a result of a particular religious custom practice or belief while reactive defensive crimes are those which come about more as a result of social or political tensions between the religious member or group and the broader secular community The third type of religion related crime identified is the abuse of religious authority This category explores crimes committed by clergy who have taken advantage of their social political and religious status To further broaden an understanding of religion related crime the author provides chapters which explore crimes against women and children the use of illicit drugs in religious practice or to reach desired states of spiritual awareness the nature and function of destructive religious groups violence against reproductive health providers hate crime and crimes committed by clergy

Perversion of Power Mary Gail Frawley-O'Dea, 2007 Since 2002 the Roman Catholic Church has been in crisis over the sexual abuse of minors by priests and the cover up of those crimes by bishops Over 11 000 alleged victims have reported their experiences to the Church and more than 4 700 priests since 1950 have been credibly accused of sexually victimizing minors The Church has paid over one billion dollars to adults who claim to have been sexually abused by priests and there is no end in sight to these lawsuits Celibacy homosexuality in the priesthood the infiltration into the priesthood of secular moral relativism too much liberalism in the Church since Vatican II damaging rollback of Vatican II reforms by conservative prelates all have been suggested as causes for the crisis This book however begins with the premise that because the pattern of abuse and cover up was so similar across the world there is something fundamentally awry with Church traditions and power structures in relationship to sexuality and sexual abuse Specifically in chapters on suffering and sadomasochism bodies and gender desire and sexuality celibacy and homosexuality the author concludes that aspects of the Catholic theology of sexuality set the stage for the abuse of minors and its cover up Frawley O Dea also analyzes the American bishops lack of pastoral care and tendency towards clerical narcissism the belief that the needs of the hierarchy represent the needs of the wider Church as central factors in the scandal She balances this criticism with a discussion of the backgrounds of the bishops presiding over the crisis and the challenges they faced in their relationships with the Pope and Vatican officials Drawing on twenty years of clinical experience she imagines the dynamics of sexual abuse both from the victim s point of view and from the priest s and she probes why the Church hierarchy fellow priests and lay people were silent for so long Finally Frawley O Dea examines factors internal to the Church and outside of it that drew this scandal into the public square and kept it there
