## **The Hellenistic Age Aspects Of Hellenistic Civilization:**

**The Hellenistic Age** J. B. Bury, E.A. Barber, Edwyn Bevan, W.W. Tarn, 2019-03-14 The Hellenistic Age covers all significant aspects of the Hellenistic civilization. Authors' intention was to provide a comprehensive review of the historical period in which Greek cultural influence and power was at its peak in Europe, North Africa, and Western Asia. The book deals with art, exploration, literature, theatre, architecture, music, mathematics, philosophy, science, and the most important social questions of the period between the conquest of Alexander the Great and the emergence of the Roman Empire. The Hellenistic period covers the period of Mediterranean history between the conquest of Alexander the Great and the emergence of the Roman Empire. At that time, Greek cultural influence and power was at its peak in Europe, North Africa, and Western Asia. This book covers all the significant aspects of the Hellenistic civilization, including the arts, exploration, literature, theatre, architecture, music, mathematics, philosophy, and science. Contents: The Hellenistic Age and the History of Civilization, Alexandrian Literature, Hellenistic Popular Philosophy, The Social Question in the Third Century. **The Hellenistic Age ; Aspects of Hellenistic Civilization, Treated by J. B. Bury [and Others]**, 1968 The Hellenistic Age, 1923 The Hellenistic Age J. B. Bury, 2015-07-04 Excerpt from *The Hellenistic Age Aspects of Hellenistic Civilization Treated*. It is at least arguable in the case of able men whether the three years which follow graduation be not as important as the three years which precede it. For those pursuing an academic career this can hardly be in question. Few go far in that career who can not point back to some kind of inspiration, personal or impersonal, which at this critical period turned their energies to work which provoked their powers. A series of informal discussions of the Hellenistic Age conducted by experts and open to the classical and historical scholars of Corpus and other colleges was but a logical development of the employment of the Lewis Collection as a stimulus to graduate work. How suitable was the choice at this moment of this period, how instant its problems, how romantic this vast new sea of history which still remains inadequately charted, can best be told by the distinguished mariners who with at present but few others have sailed often and far upon it and brought back their argosies. To them not merely conventional gratitude is due. All scholars might not have been so prodigal of their unpublished results, but their generosity made the course of lectures as it now makes this book. No attempt has been made to rewrite the three addresses for publication. Their charm and freshness when first delivered suggested the desirability of preservation in permanent shape, and the value of an additional essay by Professor Bury requires no comment.
