The Hellenistic Age Peter Green, 2008-05-13 The Hellenistic Age chronicles the years 336 to 30 BCE a period that witnessed the overlap of two of antiquity's great civilizations the Greek and the Roman Peter Green's remarkably far ranging study covers the prevalent themes and events of those centuries the Hellenization by Alexander's conquests of an immense swath of the known world the lengthy and chaotic partition of this empire by rival Macedonian bands the decline of the city state as the predominant political institution and finally Rome's moment of transition from republican to imperial rule It is a story of war and power politics and of the developing fortunes of art science and statecraft spun by an accomplished classicist with an uncanny knack for infusing life into the distant past and applying fresh insights that make ancient history seem alarmingly relevant to our own times Spectacular filled with Mr Green's critical acumen The Wall Street Journal Green draws upon a lifetime of scholarship to brilliantly sum up the three hundred year Hellenistic age Happily this book's brevity admirable in itself and in its concision elegance and authority isn't achieved at the expense of subtlety and complexity The Atlantic Monthly An interesting and well written overview Students of world history are in Green's debt The Philadelphia Inquirer Marvelous splendid a brilliant introduction to this crucial transitional period Publishers Weekly starred review

Resilience Steven W. Sanders, 2023-12-05 Struggle is a real world phenomenon particularly if we want to make a difference in our lives and the lives of others The struggles we face can be as routine as dealing with the traffic to get to our place of work on time We may also struggle with physical or mental illness a family dynamic that is not improving or a difficult job In extreme cases some must live through oppression and life threatening events brought on by an oppressive regime Struggle is an effort to gain freedom from constraints to withstand or overcome obstacles or to work against competing forces in order to make a meaningful change or difference Whether we encounter frequent struggles or only a few we all must face them not necessarily by choice We are aware of the pain and difficulties associated with struggles as well as the feeling of gratification and relief when we withstand outlast or overcome them We learn from struggles together with building strength of character and resilience the next time we encounter similar challenges How we engage and overcome struggles shapes our attitudes and perspectives regarding our lives and our ability to make a difference in the lives of others Nietzsche and Modern Times Laurence Lampert, 1993-01-01 This major work by Laurence Lampert provides a new interpretation of modern philosophy by developing Nietzsche's view that genuine philosophers set out to determine the direction of culture through their ideas and that they conceal the radical nature of their thought by their esoteric style From this Nietzschean perspective Francis Bacon and Ren Descartes can be considered the founders of modernity Lampert argues that Bacon's positive claims for science aimed to destroy the dominance of Christianity Descartes continued Bacon's radical program while providing it with the mathematical physics required for its success Far from being solely an epistemological and metaphysical thinker says Lampert Descartes was a master writer whose comic ridicule helped bring down the Church to which he paid lip service Both Bacon and Descartes used the Platonic art of dissimulation to achieve their ends by making their revolutionary aims

appear compatible with Christianity Once we recognize Bacon and Descartes as legislators of modern times in a specifically Nietzschean sense we can also see Nietzsche in a new way as the first thinker to have understood modern times and transcended it in a postmodern worldview According to Lampert Nietzsche provides a new foundation for culture a joyous science that reveals the grandeur and purposeless play of the cosmic whole and yet avoids enervating despair or destructive dogmatic belief **Global Past Volume 1 and Mapping the Global Past Volume 1** Fields Newman,Lanny B.

Fields,Russell J Barber,Cheryl A Riggs,1997-09-15 Moving beyond Eurocentric paradigms The Global Past provides a new and better model for teaching world history with extensive and integrated treatment of Africa Asia and Latin America To provide students with a coherent framework it places key historical themes within a chronological structure that helps students make comparisons and see connections across time and place **Art History For Dummies** Jesse Bryant

Rhetoric Casper de Jonge,2008-10-31 The Greek rhetorician Dionysius of Halicarnassus was active in Augustan Rome For a long time modern scholars have regarded him as a rather mediocre critic whose works were only interesting because of the references to earlier scholars and the citations of literary fragments By interpreting Dionysius views within the context of his rhetorical programme this book shows that Dionysius was in fact an intelligent scholar who combined theories and methods from various language disciplines and used them for his own practical purposes His rhetorical writings not only inform us about the linguistic knowledge of intellectuals at the end of the first century BC but also demonstrate the close connections between philology technical grammar philosophy music studies and rhetoric
