Mildorf,Hans Ulrich Seeber,Martin Windisch,2006 In our scientifically and technologically orientated society magic has not vanished on the contrary Literature pictures film music and other art forms using magical themes and images are more popular than ever The four parts of this collection Magical Renaissance Cultural Transformations Scientific Perspectives and Media Differences illuminate the interface between magic science technology and literature from Antiquity to the present day providing theoretical frameworks on the one hand and case studies on the other Taking into account wider socio historical and cultural contexts these contributions map out a complex field of artistic scientific philosophical religious historical and social discourses about magic *Magical Transformations on the Early Modern English Stage* Lisa Hopkins,Helen Ostovich,2016-05-13 *Magical Transformations on the Early Modern Stage* furthers the debate about the cultural work performed by representations of magic on the early modern English stage It considers the ways in which performances of magic reflect and feed into a sense of national identity both in the form of magic contests and in its recurrent linkage to national defence the extent to which magic can trope other concerns and what these might be and how magic is staged and what the representational strategies and techniques might mean The essays range widely over both canonical plays Macbeth The Tempest The Winter s Tale The Merry Wives of Windsor Doctor Faustus Bartholomew Fair and notably less canonical ones such as The Birth of Merlin Fedele and Fortunio The Merry Devil of Edmonton The Devil is an Ass The Late Lancashire Witches and The Witch of Edmonton putting the two groups into dialogue with each other and also exploring ways in which they can be profitably related to contemporary cases or accusations of witchcraft Attending to the representational strategies and self conscious intertextuality of the plays as well as to their treatment of their subject matter the essays reveal the plays they discuss as actively intervening in contemporary debates about witchcraft and magic in ways which themselves effect transformation rather than simply discussing it At the heart of all the essays lies an interest in the transformative power of magic but collectively they show that the idea of transformation applies not only to the objects or

even to the subjects of magic but that the plays themselves can be seen as working to bring about change in the ways that they challenge contemporary assumptions and stereotypes

Alchemy and Exemplary Poetry in Middle English Literature Curtis Runstedler, 2023-03-27 This book explores the different functions and metaphorical concepts of alchemy in fourteenth and fifteenth century Middle English poetry and bridges them together with the exempla tradition in late medieval English literature Such poetic narratives function as exemplary models which directly address the ambiguity of medieval English alchemical practice This book examines the foundation of this relationship between alchemical narrative and exemplum in the poetry of Gower and Chaucer in the fourteenth century before exploring its diffusion in lesser known anonymous poems and recipes in the fifteenth century namely alchemical dialogues between Morienus and Merlin Albertus Magnus and the Queen of Elves and an alchemical version of John Lydgate's poem The Churl and the Bird It investigates how this exemplarity can be read as inherent to understanding poetic narratives containing alchemy as well as enabling the reader to reassess the understanding and expectations of science and narrative within medieval English poetry

The Duchamp Book Gavin Parkinson, 2008-05 Marcel Duchamp 1887-1968 was without doubt one of the most controversial artists of the twentieth century Associated with cubism Dada and Surrealism his invention of the readymade led him to produce some of the most iconic works of his era While he is often cited as the most influential artist of his generation and is seen by many to be the progenitor of much of the conceptual and postmodern art of today the writing published to date on Duchamp is often obscure and mired in theory Extensively illustrated and featuring Duchamp's own writings The Duchamp Book provides a much needed accessible introduction to the artist

**Catalogue of the Literature and History of the British Islands ...** Bernard Quaritch (Firm), 1899      **The Concise Oxford Companion to English Literature** Dinah Birch, Katy Hooper, 2012-06-14 This book provides a compact guide to all aspects of English literature For this edition existing entries have been updated and new entries have been added on contemporary writers such as Jim Crace and Pat Barker      **Darke Hieroglyphicks** Stanton J. Linden, 2014-07-11 The literary influence of alchemy and hermeticism in the work of most medieval and early modern authors has been overlooked Stanton Linden now provides the first comprehensive examination of this influence on English literature from the late Middle Ages through the sixteenth and seventeenth centuries Drawing extensively on alchemical allusions as well as on the practical and theoretical background of the art and its pictorial tradition Linden demonstrates the pervasiveness of interest in alchemy during this three hundred year period Most writers including Langland Gower Barclay Erasmus Sidney Greene Lyly and Shakespeare were familiar with alchemy and references to it appear in a wide range of genres Yet the purposes it served in literature from Chaucer through Jonson were narrowly satirical In literature of the seventeenth century especially in the poetry of Donne Herbert Vaughan and Milton the functions of alchemy changed Focusing on Bacon Donne Herbert Vaughan and Milton in addition to Jonson and Butler Linden demonstrates the emergence of new attitudes and innovative themes motifs images and ideas The use of alchemy to suggest spiritual growth and change purification regeneration and millenarian ideas reflected important new emphases in alchemical medical and occultist writing This new tradition did not continue however and Butler's return to satire was contextualized in the antagonism of the Royal Society and religious Latitudinarians to philosophical enthusiasm and the occult Butler like Shadwell and Swift expanded the range of satirical victims to include experimental scientists as well as occult charlatans The literary uses of alchemy thus reveal the changing intellectual milieus of three centuries      *The Modern Eclectic Dictionary of the English Language* Robert Hunter, Charles Morris, 1905
