Drawing the Past, Volume 2 Dorian L. Alexander, Michael Goodrum, Philip Smith, 2022-01-04 Contributions by Dorian L Alexander Chris Bishop David Budgen Lewis Call Lillian C spedes Gonz lez Dominic Davies Sean Eedy Adam Fotos Michael Goodrum Simon Gough David Hitchcock Robert Hutton Iain A MacInnes Ma gorzata Olsza Philip Smith Edward Still and Jing Zhang In *Drawing the Past Volume 2 Comics and the Historical Imagination in the World* contributors seek to examine the many ways in which history worldwide has been explored and re represented through comics and how history is a complex construction of imagination reality and manipulation Through a close analysis of such works as *V for Vendetta* *Maus* and *Persepolis* this volume contends that comics are a form of mediation between sources both primary and secondary and the reader Historical comics are not drawn from memory but offer a nonliteral interpretation of an object re constructed in the creator s mind Indeed when it comes to history stretching the limits of the imagination only serves to aid in our understanding of the past and through that understanding shape ourselves and our futures This volume the second in a two volume series is divided into three sections History and Form Historical Trauma and Mythic Histories The first section considers the relationship between history and the comic book form The second section engages academic scholarship on comics that has recurring interest in the representation of war and trauma The final section looks at mythic histories that consciously play with events that did not occur but nonetheless inflect our understanding of history Contributors to the volume also explore questions of diversity and relationality addressing differences between nations and the cultural historical and economic threads that bind them together however loosely and however much those bonds might chafe Together both volumes bring together a range of different approaches to diverse material and feature remarkable scholars from all over the world

The Greater Second World War Andrew N. Buchanan, Ruth Lawlor, 2025-04-15 The Greater Second World War challenges the traditional temporal and geographic frameworks of World War II expanding the timeline to include a series of regional conflicts and revolutions that began in 1931 and continued into the mid 1950s These conflicts bookended a central paroxysm defined by the intervention of the United States into every theater of the war rendering it genuinely global The essays within this volume bring top level accounts of US European and Axis strategic maneuvering into conversation with social histories of bottom up agency in ways that destabilize conventional narratives Working with novel and overlapping scales of time and space and attuned to ongoing and lively debates about the place of the nation state in global history after 1945 the scholars featured in *The Greater Second World War* seek to not only describe the war s beginnings in Asia and Africa rather than in Europe but also trace its ends to the shatter zones of the Soviet frontier the struggles for sovereignty in contested spaces and the long reaches of US imperialism well into the late twentieth century Together their contributions reveal how the cascading imperial and economic crises of the mid twentieth century triggered a series of discrete local and regional struggles that took on the character of a singular unified world war after the entry of the United States into every

theater and almost every corner of the world Contributors Marco Maria Aterrano Th W Bottelier Pablo del Hierro Alexandre Fortes Kelly A Hammond Ashley Jackson Naina Manjrekar David Motadel Tejasvi Nagaraja Martin Thomas *Unexpected State* Carly Beckerman,2020-03-03 Cutting through assumptions about Britain s support for a national home for the Jewish people in the creation of British Palestine Carly Beckerman explores why and how elite political battles in London inadvertently laid the foundations for the establishment of the State of Israel Drawing on foreign policy analysis and previously unused archival sources *Unexpected State* considers the strategic interests the high stakes international diplomacy and the tangle of political maneuvering in Westminster that determined the future of Palestine Contrary to established literature Beckerman argues that British policy toward the territory was dominated by seemingly unrelated domestic and international political battles that left little room for considerations of Zionist or Palestinian interests and arguments Beckerman instead shows how the policy process was aimed at resolving issues such as coalition feuds party leadership battles spending cuts and riots in India Considering detailed analysis of four major policy making episodes between 1920 and 1948 *Unexpected State* interrogates key Israeli and Palestinian narratives and provides fresh insight into the motives and decisions behind policies that would have global implications for decades to come
