The Hungry Stream Essays On Emigration And Famine:

The Hungry Stream E. Margaret Crawford, 1997 *Trauma and the Memory of Politics* Jenny Edkins, 2003-07-31 In this interesting study Jenny Edkins explores how we remember traumatic events such as wars famines genocides and terrorism and questions the assumed role of commemorations as simply reinforcing state and nationhood Taking examples from the World Wars Vietnam the Holocaust Kosovo and September 11th Edkins offers a thorough discussion of practices of memory such as memorials museums remembrance ceremonies the diagnosis of post traumatic stress and the act of bearing witness She examines the implications of these commemorations in terms of language political power sovereignty and nationalism She argues that some forms of remembering do not ignore the horror of what happened but rather use memory to promote change and to challenge the political systems that produced the violence of wars and genocides in the first place This wide ranging study embraces literature history politics and international relations and makes a significant contribution to the study of memory *Literature and the Irish Famine 1845-1919* Melissa Fegan, 2002-08-08 The impact of the Irish famine of 1845 1852 was unparalleled in both political and psychological terms The effects of famine related mortality and emigration were devastating in the field of literature no less than in other areas In this incisive new study Melissa Fegan explores the famine s legacy to literature tracing it in the work of contemporary writers and their successors down to 1919 Dr Fegan examines both fiction and non fiction including journalism travel narratives and the Irish novels of Anthony Trollope She argues that an examination of famine literature that simply categorizes it as minor or views it only as a silence or an absence misses the very real contribution that it makes to our understanding of the period This is an important contribution to the study of Irish history and literature sharply illuminating contemporary Irish mentalities **The Great Famine** Ciarán Ó Murchadha, 2011-06-02 Over one million people died in the Great Famine and more than one million more emigrated on the coffin ships to America and beyond Drawing on contemporary eyewitness accounts and diaries the book charts the arrival of the potato blight in 1845 and the total destruction of the harvests in 1846 which brought a sense of numbing shock to the populace Far from meeting the relief needs of the poor the Liberal public works programme was a first example of how relief policies would themselves lead to mortality Workhouses were swamped with thousands who had subsisted on public works and soup kitchens earlier and who now gathered in ragged crowds Unable to cope workhouse staff were forced to witness hundreds die where they lay outside the walls The next phase of degradation was the clearances or exterminations in popular parlance which took place on a colossal scale From late 1847 an exodus had begun The Famine slowly came to an end from late 1849 but the longer term consequences were to reverberate through future decades **The Hidden Famine** Prof. Christine Kinealy, Gerard Mac Atasney, 2000-09-20 Between 1845 and 1852 Ireland was devastated by the Great Hunger the most severe famine in modern European history The view widely held by historians is that the impact of the Famine on the northern province of Ulster in particular the largely Protestant city of Belfast was minimal In the first book on the Famine to

focus specifically on Belfast Christine Kinealy one of Ireland's leading historians of the period and Gerard MacAtasney challenge this view and offer a new interpretation Drawing on a wealth of original research Kinealy and MacAtasney begin with an examination of society and social behaviour in Belfast prior to 1845 They then assess the official response to the crisis by the British government the response by the Church in both England and Ireland and the part played by the local administration in Ulster The authors examine the impact of the cholera epidemic on Belfast in 1849-50 the city's recovery after the Famine and the beginnings of open sectarianism among the business and landed classes of the province *Place, Culture and Community* Johanne Devlin Trew, 2009-10-02 The Ottawa Valley is a region of Canada straddling the Ottawa River in Ontario and Quebec that is well known for its rich singing storytelling fiddling and step dancing traditions Settled largely by the Irish Scots and the French over the past two hundred years it had largest concentration of people of Irish origin in Canada by the late 19th century Travelling through the Valley one gets the sense of coming face to face with the past While its dramatic history is filled with incidents of extreme hardship and tragedy the overriding impression is of a triumphant survivalism associated with its strong men of the past the voyageurs the coureurs du bois and the lumbermen The legacy of this unique heritage from fiddling and step dancing to tales of priests lumberman and Orange and Green rivalries is explored in this book through the voices of Valley people themselves The author reveals the importance of place and history in the transmission of this vibrant regional culture down to the present day Commemorating the Irish Famine Emily Mark-FitzGerald, 2015-02-05 Commemorating the Irish Famine Memory and the Monument explores the history of the 1840s Irish Famine in visual representation commemoration and collective memory from the 19th century until the present across Ireland and the nations of its diaspora explaining why since the 1990s the Famine past has come to matter so much in our present Irish Nationalism and the British State Brian Jenkins, 2006-05-12 No detailed description available for Irish Nationalism and the British State The Famine Irish Ciaran Reilly, 2016-04-04 From a range of leading academics and historians this collection of essays examines Irish emigration during the Great Famine of the 1840s From the mechanics of how this was arranged to the fate of the men women and children who landed on the shores of the nations of the world this work provides a remarkable insight into one of the most traumatic and transformative periods of Ireland's history More importantly this collection of essays demonstrates how the Famine Irish influenced and shaped the worlds in which they settled while also examining some of the difficulties they faced in doing so **The Oxford Handbook of Modern Irish History** Alvin Jackson, 2014-03-27 The study of Irish history once riven and constricted has recently enjoyed a resurgence with new practitioners new approaches and new methods of investigation The Oxford Handbook of Modern Irish History represents the diversity of this emerging talent and achievement by bringing together 36 leading scholars of modern Ireland and embracing 400 years of Irish history uniting early and late modernists as well as contemporary historians The Handbook offers a set of scholarly perspectives drawn from numerous disciplines including history political science literature

geography and the Irish language It looks at the Irish at home as well as in their migrant and diasporic communities The Handbook combines sets of wide thematic and interpretative essays with more detailed investigations of particular periods Each of the contributors offers a summation of the state of scholarship within their subject area linking their own research insights with assessments of future directions within the discipline In its breadth and depth and diversity The Oxford Handbook of Modern Irish History offers an authoritative and vibrant portrayal of the history of modern Ireland
