Garlake,1995 A survey of the rock art of the San peoples of prehistoric Zimbabwe The prehistoric rock painting of these peoples are amongst the world s greatest artistic and cultural treasures There are many thousands of paintings in the granite hills and caves most of them until recently undiscovered and unrecorded Created many hundreds of years ago by societies that have long since disappeared these paintings represent an important artistic tradition

The Hunter's Vision Peter S. Garlake,1995 **New Perspectives on Prehistoric Art** Günter Berghaus,2004-04-30 Following the discovery of Franco Caribbean cave art in the nineteenth century standard interpretations of these works usually revolved around hunting magic and fertility cults Orthodox positions such as these have weighed heavily on later generations of art historians archaeologists and anthropologists even those whose views dissented from those of their predecessors In the last few decades however new approaches to cave art often based on discoveries made in Africa Asia Australia North America and the Arctic region have produced new insights into possible meanings and functions of prehistoric paintings and sculptures This new collection of essays explores these insights gathering the observations of eight experts from a variety of disciplines and examining some of the social and spiritual functions of a variety of artistic genres ranging from 40 000 B C to 5 000 B C These insights which derive from evolutionary biology feminist scholarship ritual studies and new modes of anthropology argue collectively that prehistoric art was a culture specific form of communication that should be interpreted in the social context of early hunter gatherer societies and should not be measured with the criteria and paradigms of modern art Essential reading for anyone interested in prehistoric art or its cultural implications this volume represents a bold step forward in the research and analysis of the very first artists Zimbabwe Paul Murray,2016-09-05 Zimbabwe Travel Guide Travel tips and holiday advice including Harare hotels and restaurants Victoria Falls highlights national parks safaris and reserves Also features suggested itineraries and routes wildlife tracking Hwange National Park Lake Kariba Mana Pools Gonarezhou National Park ancient history in Great Zimbabwe and Khami **New Approach to Cave Art in Zimbabwe** Joern Stoevring,2021-02-28 The material for the book is based on the four large caves at Musambura Northeast of HARARE with a comparison material from the other large caves and boulders in Zimbabwe It reassesses half a century of research on cave art in the country and presents a new approach for the interpretation of the old images The high pic photographic material consists of 186 high pic images subjected to various imaging software The approach is based on the Cosmology of the San as expressed in the large and majestic caves It enables a more sophisticated analysis than earlier by stratification of the material into traditions and periods The Ancient San from the last Ice Age to the Humid Period The San from the End of the Humid Period until the arrival of the Early BaNtu The Late San from the arrival of the Early BaNtu until the Demise of the Late San and The Demise of the Late San The analysis discusses and revises several assumptions and interpretations of earlier cave art contributions especially professor Peter Garlake as well as the

contemporary contributions from New Animism Descola Harvey Willerslev The results of the book are used in the local conservation efforts by public authorities in Zimbabwe

The Archaeology of Rock-Art Christopher Chippindale, Paul S. C. Taçon, 1998 Pictures painted and carved in caves and on open rock surfaces are amongst our loveliest relics from prehistory This pioneering set of sparkling essays goes beyond guesses as to what the pictures mean instead exploring how we can reliably learn from rock art as a material record of distant times in short rock art as archaeology Sometimes contact period records offer some direct insight about indigenous meaning so we can learn in that informed way More often we have no direct record and instead have to use formal methods to learn from the evidence of the pictures themselves The book s eighteen papers range wide in space and time from the Palaeolithic of Europe to nineteenth century Australia Using varied approaches within the consistent framework of informed and proven methods they make key advances in using the striking and reticent evidence of rock art to archaeological benefit
