The Hurricane:

The Hurricane Ivan Ray Tannehill,1934 In the Hurricane's Eye Raymond VERNON, Raymond Vernon,2009-06-30 The world's multinational enterprises face a spell of rough weather political economist Ray Vernon argues not only from the host countries in which they have established their subsidiaries but also from their home countries Such enterprises a few thousand in number including Microsoft Toyota IBM Siemens Samsung and others now generate about half of the world's industrial output and half of the world's foreign trade so any change in the relatively benign climate in which they have operated over the past decade will create serious tensions in international economic relations The warnings of such a change are already here In the United States interests such as labor are increasingly hostile to what they see as the costs and uncertainties of an open economy In Europe those who want to preserve the social safety net and those who feel that the net must be dismantled are increasingly at odds In Japan the talk of hollowing out takes on a new urgency as the country's lifetime employment practices are threatened and as public and private institutions are subjected to unaccustomed stress The tendency of multinationals in different countries to find common cause in open markets strong patents and trademarks and international technical standards has been viewed as a loss of national sovereignty and a weakening of the nation state system producing hostile reactions in home countries The challenge for policy makers Vernon argues is to bridge the quite different regimes of the multinational enterprise and the nation state Both have a major role to play and yet must make basic changes in their practices and policies to accommodate each other In the Hurricane's Eye Nathaniel Philbrick,2019-06-04 NEW YORK TIMES BESTSELLER Nathaniel Philbrick is a masterly storyteller Here he seeks to elevate the naval battles between the French and British to a central place in the history of the American Revolution He succeeds marvelously The New York Times Book Review The thrilling story of the year that won the Revolutionary War from the New York Times bestselling author of *In the Heart of the Sea* and *Mayflower* In the concluding volume of his acclaimed American Revolution series Nathaniel Philbrick tells the thrilling story of the year that won the Revolutionary War In the fall of 1780 after five frustrating years of war George Washington had come to realize that the only way to defeat the British Empire was with the help of the French navy But coordinating his army's movements with those of a fleet of warships based thousands of miles away was next to impossible And then on September 5 1781 the impossible happened Recognized today as one of the most important naval engagements in the history of the world the Battle of the Chesapeake fought without a single American ship made the subsequent victory of the Americans at Yorktown a virtual inevitability A riveting and wide ranging story full of dramatic unexpected turns In *The Hurricane's Eye* reveals that the fate of the American Revolution depended in the end on Washington and the sea **The Night of the Hurricane's Fury** Candice Ransom,2009-01-01 It's the summer of 1900 and 10 year old Robert Pettibone is bored His parents have sent him to stay with his Aunt Maudie in Galveston Texas She doesn't let him do anything by himself When a storm comes up he rushes to the beach to take a closer look But this is no ordinary
