Sacrifice, Cult, and Atonement in Early Judaism and Christianity Henrietta L. Wiley,Christian A. Eberhart,2017-09-28 Critical and creative studies that offer fresh perspectives on ancient ideas and practices The contributions to this volume deal in various ways with the cult at the Jerusalem Temple that epitomized the religious cultural and socio political identity of Judaism for many centuries Some essays examine ancient constitutive practices and concepts such as purification rituals sacrifices atonement or sacred authorities at the temple with the goal of interpreting their meanings for modern readers Other essays explore alternatives to ancient cultic meaning and practice Essays critique established traditions attempt to

renegotiate them or use metaphor and spiritualization to expand the potential of these phenomena to serve as terminological and ideological resources. Thus they examine and affirm the continuing relevance of ancient Jewish cultic notions long after the destruction of the Second Temple in 70 CE. An international group of scholars representing different fields and diverse religious backgrounds. A thorough examination of traditions as through the lens of contemporaneous interpretive traditions such as Jewish prophecy, the Dead Sea Scrolls, and Early Christian literature. Examination of topics such as purification, sacrifice, and atonement, and the depiction and development of sacred authority throughout the Bible.

Holiness Hannah K. Harrington, 2002-08-26. An in-depth exploration of holiness in the context of rabbinic Judaism, providing a much-needed comparative view during a key period in the development of the Jewish religion.

The Sacred and Its Scholars Thomas A. Idinopulos, Edward A. Yonan, 1996. This volume of essays is devoted to a careful examination of the importance of methodology in the study of primary religious data. The essays focus on the Sacred as an ultimate object of descriptive analysis and critical scrutiny on the part of a select number of North American and European methodologists in the study and teaching of the history of religions and its allied disciplines. The central question to which the contributors respond are these: What is the Sacred? Is it a being or a concept of a being? Is it a mental state or an objective reality or something else entirely? Can the Sacred be described as an empirical fact or as a formal rule for religious inquiry? If the Sacred is a valid category in the study and teaching of religion, then what can be said about the antithesis of the sacred, namely the profane or the secular? This volume probes these questions with great care in order to justify a number of ways the Sacred can be construed as an indispensable notion for the study and teaching of religion.

Animal Theology Andrew Linzey, 1995. Animal rights is animal theology. The author argues that historical theology creatively defined must reject humanocentricity. He questions the assumption that if theology is to speak on this issue, it must only do so on the side of the oppressors. His theological query investigates not only the abstractions of theory but also the realities of hunting, animal experimentation, and genetic engineering. He is an important pioneering Christian voice speaking for those who cannot speak for themselves.

Christian Eschatology and the Physical Universe David Wilkinson, 2010-07-29. This book argues that the Christian understanding of new creation speaks powerfully to both theologians and scientists.

Spirituality Kees Waaijman, 2002. This textbook is a systematic guide to the extensive field of spirituality. Kees Waaijman charts the multiform phenomenon of spirituality: the spirituality of ordinary people, the great spiritual traditions, and the force of counter-movements. From the foundation of this survey, he answers questions like: What exactly is spirituality? What forms can a scholarly approach take? Finally, the book provides methodic access to the study of spirituality, focusing on the following questions: Which are the different forms of spirituality, and how can we describe them? How can spiritual texts be given a reliable reading? Which themes can be distinguished in the field of spirituality, and what would be a meaningful way to address them? What do we mean by spiritual guidance, and what can we learn from it? This textbook has no equal. It is indispensable to scholars wishing to study the

subject but also to others who want to learn about spirituality **Preaching God's Transforming Justice** Ronald J. Allen, Dale P. Andrews, Dawn Ottoni-Wilhelm, 2013-08-16 This is the final volume in a unique new commentary series that helps the preacher identify and reflect on the social implications of the biblical readings in the Revised Common Lectionary. The essays concentrate on the themes of social justice in the weekly texts and how those themes can be teachable moments for preaching social justice in the church. In addition to the lectionary days there are essays for twenty-two Holy Days of Justice including Martin Luther King Day, Earth Day, World AIDS Day, and Children's Sabbath. These days are intended to enlarge the church's awareness of God's call for justice and of the many ways that call comes to the church and world today.
