The Healing Process Rudolf Steiner, 2000

Michael and the Two-horned Beast Bernard Nesfield-Cookson, 1998 In our materialistic and skeptical age it can be difficult to take seriously the existence of real spiritual beings Nevertheless countless individuals from the historic founders of religions to those who have been through near death experiences have spoken of beings of Light such as Angels and Archangels and evil beings spirits of darkness The author basing his work on Rudolf Steiner's teachings presents an epic picture of the forces of good and evil a battle of cosmic dimensions in which we are all intimately involved He clarifies the pivotal role of the Archangel Michael the Guardian of Cosmic Intelligence who fights to hold the balance between the key powers of evil in our time Lucifer and Ahriman and describes other members of the evil hierarchies He also discusses the biblical Apocalypse of St John the Mexican Mysteries and much else This book is an

essential guide to meeting the challenge of evil at the new millennium

Metaphysics as Christology Jonael

Schickler, Fraser Watts, 2017-03-02 In *Metaphysics as Christology* Jonael Schickler presents a major contribution to both philosophy and theology. First he examines the key philosophical problems with which Kant and Hegel grappled and finds in the work of Rudolf Steiner the essence of a solution to them; he claims that Steiner returned to Hegel's philosophical problems but was better able to solve them. Schickler uses these philosophical debates about knowledge and truth to understand the significance of Christ. Building on the work of Hegel, Schickler argues that Christ has made possible the developments in human consciousness that restore humanity's relationship to the surrounding world. This is a bold and rigorous work that opens up new directions in both philosophy and theology. Fraser Watts contributes the Foreword and George Pattison an extensive Preface.

Signs of the Times Ray Grasse, 2002-04-01 A unique and extremely interesting examination of both history and the unfolding present as seen through the prism of astrological significance. John Anthony West, author of *Serpent in the Sky*: We may live in astonishing times but they are not incomprehensible when you know how to read the signs. Everybody says we're entering the Age of Aquarius but when does it start and how will we know what it looks and feels like? Ray Grasse deciphers the signs and correspondences of our nearing Aquarian future using the tools of astrology, synchronicity, and mythology. He draws richly from contemporary religion, art, politics, science, even current movies to show how the cultural signs of Aquarius and our likely future are already apparent and changing our world. The Aquarian Age will be marked by its intensely mental quality when information will be the driving force of society and the biggest challenges we face will be those of the mind. Decentralization will be the order of business: either the empowered individual will reign supreme or the collective interests of globalized society will predominate. It could be both. We are all participants in the global drama and all aspects of our inner and outer lives are bound up with the new Aquarian themes. *Signs of the Times* is the authoritative travel guide for the trip into our future; don't leave the present without it. An attempt firmly anchored in the age-old tradition of spiritual symbology to make sense of what often strikes us as utterly chaotic, arbitrary, and senseless.

A Phenomenology of the Alien Aaron B. Daniels, 2025-05-22

Phenomenology of the Alien: Encounters with the Weird and Inscrutable Other considers both literal and figurative experiences of the alien from a psychological, psychoanalytic, and philosophical perspective. Throughout the book, the authors wrestle with the unexplained, ineffable, unspeakable, sublime, uncanny, abject, and Mi-ville's abecanny. This collection provides phenomenologies of encounters with the inscrutably alien: from lights in the sky, dark corners of weird fictional landscapes, architecture, technology, or the clinical symptom. The chapters examine fictional and nonfictional encounters with what exceeds the capacity to make sense, taking a new approach to the topic of alterity and inviting the reader to examine how these encounters reflect our contemporary condition: culturally, individually, clinically, theologically, and philosophically. Bridging cultural, psychoanalytic, literary, clinical, media, and religious studies, the novel approaches in this volume will be of
