Erdem Aytaç, Susan C. Stokes, 2019-01-10 Why do vote suppression efforts sometimes fail Why does police repression of demonstrators sometimes turn localized protests into massive national movements How do politicians and activists manipulate people s emotions to get them involved The authors of Why Bother offer a new theory of why people take part in collective action in politics and test it in the contexts of voting and protesting They develop the idea that just as there are costs of participation in politics there are also costs of abstention intrinsic and psychological but no less real That abstention can be psychically costly helps explain real world patterns that

are anomalies for existing theories such as that sometimes increases in costs of participation are followed by more participation not less The book draws on a wealth of survey data interviews and experimental results from a range of countries including the United States Britain Brazil Sweden and Turkey
