The Influence Of Neoplatonism In Christianity:

The Flight From Humanity R. J. Rushdoony, 2014-02-18 The greatest threats to Christianity are those that are most unknown to the average Christian The most difficult threats to discern are those that are blended into our very worldview the ones that we think are true The Scripture warns If therefore the light that is in thee be darkness how great is that darkness Mt 6 23 i e the worst kind of darkness is the darkness we think is light One of the most neglected but pervasive threats to the Christian world and life view is that of neoplatonism This leftover of ancient Greek philosophy is grounded upon a dual aspect to reality It views that which is form or spirit such as mind as good and that which is physical flesh as evil Neoplatonism is a dialectical philosophy that tries to reconcile two basically hostile concepts and retain both within its system Neoplatonism presents man's dilemma as a metaphysical one whereas Scripture presents it as a moral problem Basing Christianity on this false neoplatonic idea will always shift the faith away from the Biblical perspective Modern ideas of spirituality have developed into a form of over against the Biblical model where the Spirit of God is active in the world and in the person to work out the will of God Too many Christians believe they can escape sin if they can escape the material world But Scripture says all of man fell into sin not just his flesh *Flight From Humanity* is a revealing look into the nature and effect of neoplatonism on contemporary Christian thought and it offers sound Biblical solutions for the believer who desires to fully serve God

Neoplatonism in Relation to Christianity Charles Elsee,2014-05-29 Originally published in 1908 this book discusses the relationship between Neoplatonism Christianity and the Roman world **Neoplatonism in Relation to Christianity** Charles Elsee,1908 **Neoplatonism: A Note on the Philosophical School** Pons Malleus,2025-07-07 This book is an invitation to enter the profound and often mystical world of Neoplatonism a philosophical tradition that flourished in late antiquity and shaped the spiritual and intellectual landscape of the Western world for centuries Born in the third century CE Neoplatonism is more than a mere continuation of Plato s philosophy it is a richly textured system that seeks to articulate the structure of reality the nature of the soul and the path to spiritual ascent It weaves together metaphysics ethics cosmology and mystical theology in a unified vision that sees all existence as an emanation from a singular ineffable source the One The central figures of Neoplatonism Plotinus Porphyry Iamblichus Proclus Damascius and others did not see themselves as innovators but as interpreters and preservers of Plato s genuine intentions Yet in interpreting Plato they constructed a

systematic worldview that was distinctly their own Plotinus the acknowledged founder of the school described reality as a great chain of being emanating from the One through Nous divine intellect and Soul down into the material world This metaphysical cascade was not merely theoretical for the Neoplatonists it had deep ethical and spiritual significance The goal of philosophy was not just understanding but union henosis with the divine source Neoplatonism emerged in a time of cultural synthesis as Hellenistic philosophy interacted with the religious traditions of the Roman Empire including pagan mystery cults early Christianity Gnosticism and later Islam As such it became a bridge between the classical and medieval worlds influencing Christian theologians like Augustine Pseudo Dionysius and Aquinas as well as Muslim and Jewish philosophers such as Al Farabi Avicenna and Maimonides Its metaphysical frameworks were adapted to suit new theological needs but its spirit of contemplative ascent and its vision of the universe as a living ordered whole remained vital This book does not aim to provide a definitive or exhaustive account of Neoplatonism such a task would be beyond the scope of a single volume Instead it offers a guided exploration of its central doctrines historical development and enduring legacy We will examine the core metaphysical principles of emanation the hierarchy of being and the nature of evil and matter We will explore the Neoplatonic understanding of the soul s journey the practice of contemplation and the relationship between philosophy and theurgy Along the way we will situate Neoplatonism within its historical contexts and trace its transformation through later religious and philosophical traditions The relevance of Neoplatonism today lies not only in its historical influence but in its vision of reality as intrinsically meaningful and structured toward unity At a time when the fragmentation of knowledge society and even personal identity often dominates modern discourse the Neoplatonic call to inwardness intellectual illumination and spiritual unity speaks with renewed power It reminds us that philosophy at its best is a way of life a transformative path that leads the soul from multiplicity to the One This book is written for readers with an interest in philosophy spirituality and the history of ideas While it assumes no specialized background it does not shy away from the conceptual rigor required to engage with Neoplatonism on its own terms Where necessary technical terms are explained and key texts are closely read Each chapter builds upon the last aiming to provide both an accessible introduction and a substantive engagement with the tradition

The Christian Roots of Individualism Maureen P. Heath, 2019-11-28 The modern West has made the focus on individuality individual freedom and self identity central to its self definition and these concepts have been crucially shaped by Christianity This book surveys how the birth of the Christian worldview affected the evolution of individualism in Western culture as a cultural meme Applying a biological metaphor and Richard Dawkins definition of a meme this work argues the advent of individualism was not a sudden innovation of the Renaissance or the Enlightenment but a long evolution with characteristic traits This evolution can be mapped using profiles of individuals in different historical eras who contributed to the modern notion of individualism Utilizing excerpts from original works from Augustine to Nietzsche a compelling narrative arises from the slow but steady evolution of the modern self The central

argument is that Christianity with its characteristic inwardness was fundamental in the development of a sense of self as it affirmed the importance of the everyday man and everyday life
