The Intentions Of Intentionality And Other New Models For Modalities:

The Intentions of Intentionality and Other New Models for Modalities Jaakko Hintikka, 1975 *THE INTENTIONS OF INTENTIONALITY AND OTHER NEW MODELS FOR MODALITIES. BY JAAKKO HINTIKKA.* Jaakko Hintikka, 1975 **The Intentions of Intentionality and Other New Models for Modalities** Jaakko Hintikka, 1975-12-14 The leisure to do the thinking whose results are gathered here has largely been provided by the Academy of Finland whose support has also made possible the help and co operation of a group of younger logicians and philosophers Less tangible support and help is unfortunately harder to record and to thank for Once again in working on the many themes I have tried to weave together in this book I have incurred more intellectual and moral debts I can in so many words acknowledge here Let me only say that the closer to home I get the greater they become I have especially in mind my colleagues and students at Stanford my colleagues in Helsinki the past and present members of my research group in Helsinki and incom parably more than anybody else my wife Soili Helsinki April 1975 JAAKKO HINTIKKA INTRODUCTION A literal minded reader might easily object to the sub title of this volume What is to be found here he might allege are neither models nor modalities stricto sensu nor yet any completely new applications of modal logic Even though the purpose of the title is only to signal the con tinuity between the present volume and its predecessor Models for Modalities D Reidel Publishing Co Dordrecht 1969 the objection is sufficiently well taken to serve as an excuse for an attempt to put my enterprise in a wider perspective **The Logic of Epistemology and the Epistemology of Logic** Jaakko Hintikka, Merrill B.P. Hintikka, 2012-12-06 Somewhat like Henkin s nonstandard interpretation of higher order logics while the right semantics or logical modalities is an analogue to the standard of type theory in Henkin s sense interpretation Another possibility would be to follow W V Quine s advice to give up logi cal modalities as being beyond repair Or we could also try to develop a logic of conceptual possibility restricting the range of our possible worlds to those compatible with the transcendental presuppositions of our own conceptual sys tem This looks in fact like one of the most interesting possible theories I have dreamt of developing but undoubtedly never will Its kinship with Kant s way of thinking should be obvious Besides putting the entire enterprise of possible worlds semantics into a perspective we can also see that the actual history of possible worlds seman tics is more complicated than it might first appear to be For the standard in terpretation of modal logics has reared its beautiful head repeatedly in the writings of Stig Kanger Richard Montague the pre Montague semantics theorist and Nino Cocchiarella Rudolf Carnap, Logical Empiricist Jaakko Hintikka, 2014-11-14 *Modality and Meaning* W.G. Lycan, 2012-12-06 Part I of this book presents a theory of modal metaphysics in the possible worlds tradition Worlds themselves are understood as structured sets of properties this Ersatzist view is defended against its most vigorous competitors Meinongianism and David Lewis theory of existent concrete worlds Related issues of essentialism and linguistic reference are explored Part II takes up the question of lexical meaning in the context of possible world semantics There are skeptical analyses of analyticity and the notion of a logical constant and an

infinite polysemy thesis is defended The book will be of particular interest to metaphysicians possible world semanticists philosophers of language and linguists concerned with lexical semantics **Husserl Or Frege?** Claire Ortiz Hill,Guillermo E. Rosado Haddock,2000 Most areas of philosopher Edmund Husserl s thought have been explored but his views on logic mathematics and semantics have been largely ignored These essays offer an alternative to discussions of the philosophy of contemporary mathematics The book covers areas of disagreement between Husserl and Gottlob Frege the father of analytical philosophy and explores new perspectives seen in their work Essays in Honour of Jaakko Hintikka Esa. Saarinen,I. Niiniluoto,R. Hilpinen,M. Provence,2012-12-06 Jaakko Hintikka was born on January 12th 1929 He received his doctorate from the University of Helsinki under the supervision of Professor G H von Wright at the age of 24 in 1953 Hintikka was appointed Professor of philosophy at the University of Helsinki in 1959 Since the late 50s he has shared his time between Finland and the U S A He was appointed Professor of philosophy at Stanford University in 1964 As from 1970 Hintikka has been permanent research professor of the Academy of Finland He has published 13 books and about 200 articles not to mention the various editorial and organizational activities he has played an active role in The present collection of essays has been edited to honour Jaakko Hintikka on the occasion of his fiftieth birthday By dedicating a Festschrift to Jaakko Hintikka the contributors wish to pay homage to this remarkable man whom they see not only as a scholar of prodigious energy and insight but as a friend colleague and former teacher The contributors hope the essays collected here will bring pleasure to the man they are intended to honour All of the essays touch upon topics Hintikka has taken an direct or indirect interest in ranging from technical problems of mathematical logic and applications of formal methods through philosophical logic philosophy of language epistemology and history of philosophy to philosophical aesthetics Judgement and Justification William G. Lycan,1988-02-26 *A Historical Introduction to Phenomenology* Seppo Sajama,Matti Kamppinen,2013-10-08 This book offers a concise exposition of the content theory of intentionality which lies at the root of Husserl s phenomenology for student and scholar Originally published in 1982 The first part traces the history of phenomenology from its beginnings in Aristotle and Aquinas through Hume Reid and the Brentano school to its first clear formulation in Frege and Husserl Part two analyses some special problems involved in two important types of mental phenomena perception and emotion without abandoning the historical approach Husserl s theory of perception is extensively discussed and a Husserlian analysis of so called de re acts is attempted
