The Interest of America in Sea Power, Present and Future Alfred Thayer Mahan, 1897 **God and Sea Power** Suzanne Geissler Bowles, 2015-10-15 Gallons of ink have been used analyzing Adm Alfred Thayer Mahan's thoughts his naval theories and his contribution to sea power One vital aspect of his life however has been ignored or misunderstood by many scholars his religious faith Mahan was a professing Christian who took his faith with the utmost seriousness and as a result his worldview was inherently Christian He wrote and spoke extensively on religious issues a point frequently ignored by many historians This is a fundamental mistake for a deeper and more accurate understanding of Mahan as a person and as a naval theorist can be gained by a meaningful examination of his religious beliefs **God and Sea Power** is the first work to examine in a detailed and contextual way how Mahan's faith influenced his views on war politics and foreign relations

Department of Bibliography, 1978 *Library of Congress Catalogs* Library of Congress, 1976 *The National Union Catalogs, 1963- , 1964* □□□□□□□□ , 1977 **National Union Catalog** , 1968 Includes entries for maps and atlases **Library of Congress Catalog** Library of Congress, 1970 A cumulative list of works represented by Library of Congress printed cards **Asia Looks Seaward** Toshi Yoshihara, James R. Holmes, 2007-11-30 Asia is headed toward an uncertain and potentially volatile future in the maritime arena The two rising Asian powers China and India dependent as they are on seaborne commerce for their economic well being have clearly set their eyes on the high seas Yoshihara and Holmes offer a stark warning that many strategists in Beijing and New Delhi appear spellbound by the more militant visions of sea power Indeed both powers appear poised to develop the capacity to control the sea lanes through which the bulk of their commerce flows If they enter the nautical environment with such a martial mindset Asia could very well fall victim to regional rivalries that give rise to a vicious cycle of competition Yoshihara and Holmes provide the first examination of the simultaneous rise of two naval powers and the potential impact that such an oceanic reconfiguration of power in Asia could have on long term regional stability Their study analyzes the maritime interests and strategies of the littoral states in Asia as they prepare for the expected reordering of nautical affairs This long overdue assessment revisits underlying assumptions that have prevailed among strategy makers and provides a concrete policy framework for reducing the risk of confrontation in Asian waters
