

**INTERGOVERNMENTAL OCEANOGRAPHIC COMMISSION
(of UNESCO)**

**Nineteenth Session of the Assembly
Paris, 2-18 July 1997**

**DRAFT BIENNIAL REPORT OF THE COMMISSION
1995-1996**

General overview

1. During 1995 and 1996 significant developments occurred for IOC within UNESCO, following preparatory work of DOSS and subsequently from 1993. Most significantly, a Special Account for IOC within UNESCO was established and the related Financial Regulations adopted by the Executive Board. Member States are invited to make use of this Special Account so as to provide dependable resources for IOC programme implementation.

2. Of equal significance was the decision of the 28th General Conference to provide a protected or incompressible budget for the IOC. This should go a long way towards achieving dependable resources for IOC since the amount of the UNESCO contribution is now well known and incompressible. It is therefore reasonable to expect a commensurable contribution from IOC Member States non-Members of UNESCO. The resources provided from UNESCO can now also be better related to the size of the IOC programme and the requirements for an adequate rate of its implementation.

3. The Action Plan reviewed by the Assembly at its Eighteenth Session, June 1995, shows the ratio of available dependable resources to implementation requirements to be about 1/3-1/2. A major task for Governing Bodies is an agreement on priorities.

4. The General Conference adopted the Medium Term Strategy of UNESCO for 1996-2001. This is a profound step, implying a wide range of adjustments of UNESCO and its programmes. For the IOC it opens up and supports the intersectorality, policy shaping, and issue-oriented approach; the Action plan presented to the Assembly in 1995 relates the IOC programmes to major issues of society.

5. Another very important development within UNESCO is the establishment of the interdisciplinary project on coastal zones and small islands and the associated management structure. The base funding for the project originates from the part of the integrated IOC/MRI programme referred to as MRI, before 1991 essentially the Division of Marine Sciences.

6. The special unit established in the Secretariat responsible for the implementation of the project corresponds to the MRI part of IOC/MRI. This part is now under the direct authority of the Assistant Director-General for Science (ADG/SC). This development is related to the Joint

Supranationalism in the New World Order Paul Close,Emiko Ohki-Close,1999-03-25 Supranationalism in the New World Order argues that in the post Cold War distribution of global power and configuration of global players the European Union is just one among a growing number of regional regimes that are acquiring prominent roles in the process of global governance to some extent through the operation of differentiated zones of geo political management The EU is currently the most advanced and influential example of a regional regime by virtue of having the novel European Community at its core the EC uniquely being constructed around supranational institutions decision making and laws But the EU s uniqueness is unlikely to last The evident competitive advantages of supranational regional regimes in conjunction with the realism generally adopted by the various global players is conducive to the consolidation and proliferation of SRRs in a manner consistent with the neo functionalist perspective on the progress of the EU Other prospective SRRs include the Association of Southeast Asian Nations the East Asian Economic Caucus the South Asian Society for Regional Cooperation the North American Free Trade Area and the Andean Community It is argued that the emerging character of the global system will increasingly depend on SRRs the relationships among such organizations and accordingly the doctrine of supranationalism The book offers a distinctive way of representing the global system global processes and global developments with the help of a set of freshly articulated concepts The result is a novel but highly contentious treatise

Amsterdam Karlheinz Neunreither,Antje Wiener,2000 European integration is at a turning point with implications for all member states The Amsterdam treaty marks a shift towards constitutional issues A group of scholars argue that these issues are rooted in those on the European level and shifting models of political and economic organization **Anthropology of Policy** Cris Shore,Susan Wright,2003-12-16 Arguing that policy has become an increasingly central concept and instrument in the organisation of contemporary societies and that it now impinges on all areas of life so that it is virtually impossible to ignore or escape its influence this book argues that the study of policy leads straight into issues at the heart of anthropology

A Wider Europe Michael J. Baun, 2000-08-02 This clear and engaging text examines the process and politics of the European Union's enlargement beginning with its initial response to the 1989 revolution up through the Helsinki summit decisions of December 1999 Michael Baun explores such topics as the EU's original decision to enlarge the pre-accession strategy for prospective members the key political decisions on launching and expanding the accession negotiations and the actual progress of the negotiations He also examines the EU's efforts to reform its policies and institutions in advance of enlargement Throughout Baun weaves in understandable explanations of the complex multilevel process of EU decisionmaking He concludes by considering the limits of enlargement and its consequences for the EU's future development *Reforming the European Union* G.Wyn Rees, N. (Department Of Law, University Of Leicester) Neuwahl, P. (Department Of Politics, University Of Leicester) Lynch, 2014-05-12 Analyses the likely future of the EU following next year's Intergovernmental Conference IGC which is likely to be even more significant for the future of Europe than the Maastricht Treaty Since Maastricht it has become clear that future developments are less certain with regard to the EU and integration The IGC will have to try and resolve tensions such as widening Europe to include former communist countries whilst also trying to deepen Europe with increased political and economic integration providing a framework which is acceptable to a core of countries Benelux Germany France who favour more integration and an early move to monetary union with countries such as the UK which does not The Developing Immigration and Asylum Policies of the European Union Elspeth Guild, Jan Niessen, 2023-08-07 Just as free movement and equal treatment were of crucial importance for the development of the European Community so common policies on immigration and asylum are indispensable for the deepening of the European Union This book summarizes against the backdrop of the developing overall goals of the European Community and the European Union the outcome of European policy making in these fields Furthermore the book contains the important texts concluded by the Member States in the field of immigration and asylum both intergovernmentally and within the Third Pillar of the Maastricht Treaty The commentary analyses the contents of each document in turn by reference to the existing international human rights obligations of the Member States Reforming the Treaty on European Union Alfred E. Kellermann, Bruno de Witte, Deirdre M. Curtin, Jan A. Winter, 2023-07-10 The studies collected in this work are the updated and revised versions of the reports and commentaries presented at an international conference on European Law held in September 1995 The aim of the conference was to stimulate informed reflection and debate on a number of fundamental issues relating to the impending revision of the Treaty on European Union and to discuss the sort of sensible legal options and realistic avenues of thought that could assist those involved with the work of the actual Intergovernmental Council IGC The contributions are grouped around three major themes an exploration of the framework of the revision debate general institutional questions the general architecture of the Union and the scope of the powers of the Community and the Union Questions that are addressed in this work are among others Is it possible in the near future to

simplify the procedure for amending the Treaty on European Union Is the objective of the European Union in the long term to become a European superstate a constitutional order of States or merely an advanced type of international organization What are the chances and pitfalls of allowing increased differentiated integration The book concludes with a comprehensive summing up and annexed are the Reflection Group s Report of 5 December 1995 as well as an extensive table of legal provisions and a table of cases
