The International Dimensions Of Internal Conflict

**Michael E. Brown, Owen R. Cote,
Jr., Sean M. Lynn-Jones, Steven E. Miller**

The International Dimensions Of Internal Conflict:

The International Dimensions of Internal Conflict Michael Edward Brown, 1996 Internal conflicts threaten many countries and regions globally The first part of this book examines the sources of internal conflicts and the ways these may affect neighbouring states and the international community The second part covers specific problems policy instruments and key actors **The International Dimensions of Internal Conflict** Emmanuel Kwezi Aning, 1997 **Nationalism and Ethnic**

Conflict, revised edition Michael E. Brown, Owen R. Cote, Jr., Sean M. Lynn-Jones, Steven E. Miller, 2001-09-14

Understanding the roots and causes of ethnic animosity analyses of recent events in Bosnia Kosovo Rwanda Somalia and the former Soviet Union Most recent wars have been complex and bloody internal conflicts driven to a significant degree by nationalism and ethnic animosity Since the end of the Cold War dozens of wars in Bosnia Kosovo Rwanda Somalia the former Soviet Union and elsewhere have killed or displaced millions of people Understanding and controlling these wars has become one of the most important and frustrating tasks for scholars and political leaders This revised and expanded edition of **Nationalism and Ethnic Conflict** contains essays from some of the world's leading analysts of nationalism ethnic conflict and internal war The essays from the first edition have been updated and supplemented by analyses of recent conflicts and new research on the resolution of ethnic and civil wars The first part of the book addresses the roots of nationalistic and ethnic wars focusing in particular on the former Yugoslavia The second part assesses options for international action including the use of force and the deployment of peacekeeping troops The third part examines political challenges that often complicate attempts to prevent or end internal conflicts including refugee flows and the special difficulties of resolving civil wars

Internal Conflict and the International Community Roderic Alley, 2017-07-05 This insightful book debates whether conflict within states has emerged as the Achilles Heel of the international community It covers a wide range of issues including the roots of internal conflict small arms supplies intervention human rights and international humanitarian law refugees and post conflict reconstruction **Internal Conflict and the International Community** provides supplementary reading for third level undergraduates post graduates and scholars of international relations comparative politics development studies international law and security and defence studies *The Prevention and Intervention of Genocide* Samuel Totten, 2008-03-31 This volume is comprised of over 2 300 annotations on a wide array of issues and topics germane to the subject of preventing the atrocities of genocide and managing these conflicts when they do arise Samuel Totten brings together in one comprehensive collection the research and findings in various fields such as political science sociology history and psychology to enable specialists in genocide studies peace studies and conflict resolution to benefit from the insights of a diverse range of scholars and foster an understanding of how the various components of genocide studies connect Among the topics included are key conventions international treaties and covenants genocide early warning signals and forecasting risk data bases sanctions peacekeeping missions conflict resolution the International Criminal Court realpolitik vis vis the issue of genocide prevention

and intervention key non governmental agencies key governmental and UN bodies working on these important issues In addition to the annotations Totten frames the bibliography with a major essay that introduces the reader to the subject of prevention and intervention of genocide raising a host of critical issues regarding the strengths weaknesses and limitations of various approaches germane to issues of managing these conflicts *The Shadow of the Past* Gregory D.

Miller,2012-02-17 In *The Shadow of the Past* Gregory D Miller examines the role that reputation plays in international politics emphasizing the importance of reliability confidence that based on past political actions a country will make good on its promises in the formation of military alliances Challenging recent scholarship that focuses on the importance of credibility a state s reputation for following through on its threats Miller finds that reliable states have much greater freedom in forming alliances than those that invest resources in building military force but then use it inconsistently To explore the formation and maintenance of alliances based on reputation Miller draws on insights from both political science and business theory to track the evolution of great power relations before the First World War He starts with the British decision to abandon splendid isolation in 1900 and examines three crises the First Moroccan Crisis 1905 6 the Bosnia Herzegovina Crisis 1908 9 and the Agadir Crisis 1911 leading up to the war He determines that states with a reputation for being a reliable ally have an easier time finding other reliable allies and have greater autonomy within their alliances than do states with a reputation for unreliability Further a history of reliability carries long term benefits as states tend not to lose allies even when their reputation declines

Conflict Resolution and Status Céline Francis,2011 The dispute between Georgia and Abkhazia is not a conflict of equals In international conflicts adversaries may differ de facto on the ground in terms of population territory and capability among other things As internationally recognized states however they have equal de jure status and fears that inviting the other side to the negotiating table might be construed as recognition for example rarely intrude The question of status does pose problems however when a conflict is being fought between a recognized state and an unrecognized entity and these problems may contribute to increase the intractability of such conflicts This study explores how and to what extent the difference in status between a sovereign state and an unrecognized entity hinders conflict resolution activities Based on intensive fieldwork and unedited negotiation material the book provides an in depth analysis of the negotiations informal dialogues and grassroots activities that took place in Abkhazia and Georgia between 1989 and 2008

Identity and Territorial Autonomy in Plural Societies Ramón Máiz,Safran William,2014-01-14 Focusing on autonomy in countries whose societies are marked by ethnic diversity this work examines the effects of territorial solutions to the safeguarding of cultural identities Contributors distinguish among types of autonomy and their impact on pluralism democracy and unity of the state Internal Conflicts in Nepal V R Raghavan,2011-07-07 Neglect of socio economic needs inequality and injustice in Nepali society attributed to the genesis of the Maoist insurgency in Nepal In early 1990 a mass upsurge Jana Andolan paved way for multi party of governance in Nepal The opening up of the polity increased the

awareness of inequality which helped Maoist insurgency to grow dramatically However in November 2005 a Comprehensive Peace Agreement was reached between the Communist Party of Nepal CPN UML and other main stream political parties Monarchy was abolished Election to the Constituent Assembly was held and a coalition government was been put in place Inadequate steps to address the ethnic economic and political aspirations of multi ethnic groups have caused further unrest and created conditions for newer conflicts Nepal shares border with India particularly with Bihar and Uttar Pradesh there is free movement across the borders This facilitates movement of mafia groups drug trafficking and political activities Control of cross border activities remains difficult and led to serious cross border implications

America's Achilles' Heel Richard A Falkenrath, Robert D Newman, Bradley A. Thayer, 1998-07-08 Nuclear biological and chemical NBC weapons delivered covertly by terrorists or hostile governments pose a significant and growing threat to the United States and other countries Although the threat of NBC attack is widely recognized as a central national security issue most analysts have assumed that the primary danger is military use by states in war with traditional military means of delivery The threat of covert attack has been imprudently neglected Covert attack is hard to deter or prevent and NBC weapons suitable for covert attack are available to a growing range of states and groups hostile to the United States At the same time constraints on their use appear to be eroding This volume analyzes the nature and limits of the covert NBC threat and proposes a measured set of policy responses focused on improving intelligence and consequence management capabilities to reduce U S vulnerability About the authors Richard A Falkenrath is Assistant Professor of Public Policy at Harvard s Kennedy School of Government He served as Executive Director of the Belfer Center for Science and International Affairs BCSIA and before that as a Research Fellow He is the author and co author of *Shaping Europe s Military Order* 1995 *Avoiding Nuclear Anarchy* 1996 *America s Achilles Heel Nuclear Biological Chemical Terrorism and Covert Attack* 1998 and numerous journal articles and chapters of edited volumes Falkenrath has been a Visiting Research Fellow at the German Society of Foreign Affairs DGAP in Bonn He holds a PhD from the Department of War Studies King s College London where he was a British Marshall Scholar and is a summa cum laude graduate of Occidental College Los Angeles with degrees in economics and international relations He is on leave in 2001 2002 and is currently serving as Director for Counterproliferation and Homeland Defense at the National Security Council Bradley A Thayer is Assistant Professor of Political Science at the University of Minnesota Duluth
