The Law, an Act of Love Georgina Chan Perdomo, 2003-01-01 **The Law of Love** Charles St. Morris, 1908 *The Law of Love and Love as a Law* Mark Hopkins, 1871 **The laws of Human nature Unity of Universal love**, 2023-12-22

Introduction A life of Healing a life of Health A life worth living is a life of Wealth I have practiced over 25 years as a chiropractor and I have learned that most people come to me to treat their pain I m sure that most doctors and therapists have the same experience people want to receive a treatment that will cure their illness As I treat my patients I m also analyzing how their problem was created I m looking at various factors like diet lack of exercise injurious repetitive movements or anything else that could provoke the problem I m trying to get the patient to take responsibility for their problem and help me with their treatment It appears that I m treating their physical illness but over the years I have come to a new realization that a person s emotional mental and spiritual side can also affect their health The reality of the situation is that we can t separate an illness into a physical emotional mental or spiritual ailment because everything works together I now understand that attitudes play an essential role in our health and wellbeing Attitudes have characteristics that are physical emotional mental and spiritual In psychology attitudes are labeled as behavioral physical affective emotional and cognitive mental In this book attitudes have a spiritual side as well attitudes will have a positive spiritual value or a negative spiritual value Attitudes that bring people together and unite them has an energy with a positive spiritual value and attitudes that are divisive and cause separation has a negative value If we have attitudes with a negative spiritual energy then they will cause illness physical illness mental illness and emotional illness We need to adopt attitudes with a positive spiritual energy if we want to stay healthy and grow spiritually Spiritual growth is there for all of us but we have to make the effort no one can make us grow spiritually Looking for someone to cure our ills is a short term proposition the long term cure is when we discover what is causing us harm and create a healthy lifestyle The 7 Laws of Human Nature is a scientific philosophical study into the human consciousness the 7 chakras and the human aura We use theories to make sense about what we are observing in life to explain ideas and interpret facts The 1st chapter is the Theory of the Oneness of Universal Love which will present 7 hypotheses These hypotheses will present facts and suppositions of facts which will be followed up by a theory This is all happening on four energy levels physical emotional mental and spiritual Life on Earth has to have a reason our lives aren t an accident and this book presents a logical theory on the how and why of life This is a book on love and how love works in our lives With Love and Devotion to All **The Law of Love and Love as a Law, Or, Christian Ethics** Mark Hopkins, 1877 **All's Love Yet All's Law** James Logan Gordon, 1914 Lest We Lose Love Scherto Gill, 2023-04-18 Few are aware that since antiquity there has always been the philosophy of love at the core of Western culture It articulates what makes life meaningful and worthwhile and how we can live a good life together through an ethic of love This book fills this significant gap not only reconnecting the reader with such important wisdom and more crucially also reorienting our socio

economic institutions and collective actions towards more loving and caring and more concerned with the qualities of our lived experiences By rediscovering the gifts of love we may challenge the existing systemic dehumanisation and draw from knowledge and understanding already present in our culture This is timely because the global crises we are facing are catastrophic especially when it comes to climate change Therefore we must respond from a place of love rather than fear Whether it is reducing the use of fossil fuels lowering greenhouse emission choosing the right food to eat or advocating for structural transformation our concerted endeavours start with an appropriate appreciation of the nature of our well being which includes the planet's well ness This book highlights a clear pathway forward to ensure collective healing and co flourishing with nature we must practise the art of loving The Complete Works of Thomas Manton, D.D. Manton, William G. Harris, 1874 **Love's Trial** Love, 1846 **The Philosophy of Law** Christopher Berry Gray, 1999 This encyclopedia offers systematic and sustained coverage of the many dimensions of legal thought and gives expression to the breadth and depth of the philosophy of law *Duns Scotus on Divine Love* A. Vos, H. Veldhuis, E. Dekker, N.W. den Bok, A.J. Beck, 2017-09-08 The medieval philosopher and theologian John Duns Scotus 1266 1308 was one of the great thinkers of Western intellectual culture exerting a considerable influence over many centuries He had a genius for original and subtle philosophical analysis with the motive behind his philosophical method being his faith His texts are famous not only for their complexity but also for their brilliance their systematic precision and the profound faith revealed The texts presented in this new commentary show that Scotus thought is not moved by a love for the abstract or technical but that a high level of abstraction and technicality was needed for his precise conceptual analysis of Christian faith Presenting a selection of nine fundamental theological texts of Duns Scotus some translated into English for the first time this book provides detailed commentary on each text to reveal Scotus conception of divine goodness and the nature of the human response to that goodness Following an introduction which includes an overview of Scotus life and works the editors highlight Scotus theological insights many of which are explored here for the first time and shed new light on topics which were and still are hotly discussed Scotus is seen to be the first theologian in the history of Christian thought who succeeds in developing a consistent conceptual framework for the conviction that both God and human beings are essentially free Offering unique insights into Scotus theological writings and faith and a particular contribution to contemporary debate on Scotus ethics this book contributes to a clearer understanding of the whole of Scotus thought *The Theory of Morals* Paul Janet, 1898

Hill, 1843 *Works of Love in a World of Violence* Deidre Nicole Green, 2016-11-10 As she constructively engages feminist critiques of Christianity's complicity in violence Deidre Nicole Green challenges traditional beliefs that self sacrifice amounts to love and that suffering is inherently redemptive by arguing for a Kierkegaardian conception of Christian love that limits self sacrifice Back cover The Baptist Library : A Republication of Standard Baptist Works
