Should Woman Obey? ,1900 **Human Rights Law in Africa** Christof Heyns,1996

Introduction **International Human Rights Law in Africa** Christof Heyns,Morne van der Linde,2022-11-07 Contrary to popular belief there is a vast body of law dealing with human rights in Africa in existence today The first priority at the moment is consequently not the adoption of new norms or the creation of even more structures the most immediate challenge lies in making the existing structures work and ensuring compliance with the norms already accepted by African societies Access to the relevant material constitutes a necessary precondition for any other gains in this field The aim of this reference work is therefore to make African human rights law accessible to all those involved in or interested in human rights law on the continent in order to strengthen its impact Primary documents are introduced and reproduced and presented in a coherent framework The main institutions public and private dealing with human rights in Africa are identified and discussed Comprehensive overviews of the international human rights legal regimes applicable to Africa as well as country reports are provided Access to this body of law will enable judges practicing lawyers academics and other researchers as well as law reformers NGOs activists and students to both ascertain and assert these rights It will also serve to ensure the development of a stronger indigenous African human rights jurisprudence rooted in local experience history culture and practices This book consequently tries to contribute towards documenting systemising and anchoring the African human rights system This publication replaces and updates the earlier Human Rights Law in Africa Series which appeared on an annual basis from 1996 to 1999 In order to make the publication accessible in Africa the Centre for Human Rights and the Raoul Wallenberg Institute in Sweden have undertaken a targeted distribution campaign on the continent The print edition is available as a set of two volumes 9789004138810

The Methodology of Constitutional Theory Dimitrios Kyritsis, Stuart Lakin, 2022-02-24 What sort of methods are best suited to understanding constitutional doctrines and practices Should we look to lawyers and legal methods alone or should we draw upon other disciplines such as history sociology political theory and moral philosophy Should we study constitutions in isolation or in a comparative context To what extent must constitutional methods be sensitive to empirical data about the functioning of legal practice Can ideal theory aid our understanding of real constitutions This volume brings together constitutional experts from around the world to address these types of questions through topical events and challenges such as Brexit administrative law reforms and the increasing polarisations in law politics and constitutional scholarship Importantly it investigates the ways in which we can ensure that constitutional scholars do not talk past each other despite their persistent and often fierce disagreements In so doing it aims systematically to re examine the methodology of constitutional theory **Railway Age Gazette** ,1913 **The College Courant** ,1869 The Annalist ,1924
