rock In contrast mountaineers saw the whole mountain as a single unit of perc tion The ascent to them is a gestalt including the aesthetic historical personal and physical sensations Csikszentmihaly 1976 p 486 This is an example of two contrasting approaches to the same kind of landscape and of two different groups of people Interestingly in the US Europe and Japan a large segment of the early rock climbers were young mathematicians and theoretical physicists while the mountaineers were a more varied lot **Whose Learning is it Anyway?** Lynn Errey,Rudi Schollaert,2003 How can language learning in the formal context of the classroom contribute to the learners communicative competence whilst at the same time enhancing their general learning skills and preparing them for life long learning Such a challenge is complex as is catering to the needs of individual students in a group learning context This book explores ways in wich a traditional task based approach to language teaching can be extended to help students not only to become more skilful language users but to become more skillful learners in the process **Enhancing Teaching and Learning With Socratic Educational Strategies: Emerging Research and Opportunities** Giuseffi, Frank G.,2022-02-04 Traditionally understood as an ancient teaching method conceived by the philosopher Socrates scholars in education have boldly explored the definitions philosophical underpinnings assumptions and uses of Socratic dialogue in various learning situations and educational settings Despite its ancient origins the Socratic Method has an impact on contemporary leadership critical thinking skills e learning adult education and social emotional learning Enhancing Teaching and Learning With Socratic Educational Strategies Emerging Research and Opportunities presents scholarly work philosophical investigations educational claims and the latest empirical research on the process and outcome of the Socratic Method in educational contexts It delves deeply into the instructional strategy uncovering its practical impact in educational contexts and its philosophical and societal consequences in the modern world Covering topics such as female voice maieutic instruction and teacher preparation this book is an essential resource for philosophers educational administration educators researchers pre service teachers academicians and government programs 22nd European Conference on e-Learning Shawren Singh,Sarah Jane Johnston,2023-10-26 These proceedings represent the work of contributors to the 22nd European Conference on e Learning ECEL 2023 hosted by University of South Africa Pretoria South Africa on 26 27 October 2023 The Conference Co Chairs Associate Professor Sarah Jane Johnston and Associate Professor Shawren Singh both from University of South Africa Pretoria South Africa ECEL is now a well established event on the academic research calendar and now in its 22nd year the key aim remains the opportunity for participants to share ideas and meet the people who hold them The scope of papers will ensure an interesting two days The subjects covered illustrate the wide range of topics that fall into this important and ever growing area of research It is especially relevant that the conference is being hosted by UNISA this year as the university celebrates its 150th anniversary UNISA has been a pioneer in first distance and now e Learning The conference will also host the final round of the 9th e Learning Excellence Awards where innovate case histories will be presented The opening keynote presentation is
