**Landscapes of the Sacred** Belden C. Lane, 2002 This substantially expanded edition of Belden C Lane's Landscapes of the Sacred includes a new introductory chapter that offers three new interpretive models for understanding American sacred space Lane maintains his approach of interspersing shorter and more personal pieces among full length essays that explore how Native American early French and Spanish Puritan New England and Catholic Worker traditions have each expressed the connection between spirituality and place A new section at the end of the book includes three chapters that address methodological issues in the study of spirituality the symbol making process of religious experience and the

tension between place and placelessness in Christian spirituality      *Hermanitos Comanchitos* Enrique R. Lamadrid, 2003

One of the great festival traditions shared by Pueblo and Hispano across New Mexico is the celebration Los Comanches. In this series of winter festivals communities come alive with colorful processions, boisterous ceremonial dance, allegorical nativity plays, and a folk drama on horseback which portrays the 1779 defeat of famed war chief Cuerno Verde. In a mixture of defiance and emulation, these events honor the historic relations of war and peace with the Comanches, the feared and admired warriors and traders of the south plains who once held the fate of all New Mexico in their hands. Lamadrid and Gandert provide historic poetic and photographic documentation of one of the richest legacies of the upper Rio Grande, a cultural crossroads known for its mestizo traditions and transcultural exchanges. A CD anthology of Comanche music accompanies a stunning selection of Gandert's photographs.
