## **The Leicester Royal Infirmary 1771-1971:**

**The Story of Leicester** Siobhan Begley, 2013-11-01 The Story of Leicester traces the evolution of this remarkable city. When the Romans arrived they developed an existing settlement into Ratae, an administrative capital. During the Tudor, Stuart and Georgian periods the town lost status but remained an important market town. Industrialisation and population growth radically changed Leicester during Victorian times and it became prosperous, its economy underpinned by the hosiery, boot and shoe and engineering industries, the basis of modern Leicester. This popular history brings the story of the city up to date and provides new insights that will delight both residents and visitors. **National Library of Medicine Current Catalog**

**National Library of Medicine (U.S.), 1971** First multi-year cumulation covers six years 1965-70. *To Do The Sick No Harm* John Woodward, 2025-07-15 What part did the British voluntary hospital system play in the health of the community in the eighteenth and nineteenth centuries? Did hospitals kill or cure? Originally published in 1974, this study investigates these questions through a pioneering examination of the extant hospital records ranging from admissions registers to annual reports and by an analysis of the contemporary literature. It relates the hospital system to the changing economic and social environment and is primarily concerned with the patients themselves and their experiences. The lack of medical treatment for the bulk of the population is emphasised and the influence of the reformers on the foundation of the first voluntary hospitals in the beginning of the 18th century is assessed. Staffing and administrative procedures are studied as a prelude to examining the patients, their social background and physical and surgical complaints. Important aspects of the hospitals' work and their influence on the rate of mortality are explored. They are admissions policy regarding fever cases, the nature and number of surgical cases and the incidence of sepsis. The effect of growing urbanization and industrialization on the success of the voluntary hospitals in the 19th century is also examined. **Medicine and Charity Before the Welfare State** Jonathan Barry, Colin Jones, 2002-11 This volume offers a broad perspective on the relationship between charity and medicine in Western Europe up to the advent of welfare states in the twentieth century. **Bibliography of the History of Medicine**,

**Dorothy Carey** James R. Beck, 2000-04-11 James Beck tells the profound story of the life of Dorothy Carey whose difficult journey as a missionary paved the way for women in the field of missions. Using his background in psychology, Beck gives a unique perspective to understanding the sacrifices made by Dorothy in the cause of world evangelism and how she was unjustly treated by history. *Medicine and Charity in Georgian Bath* Anne Borsay, 2019-07-09 First published in 1999, this rewarding volume offers a close and systematic analysis of the General Infirmary at Bath, which was founded in 1739 to grant lepers and cripples and other indigent strangers access to the spa waters. Four main themes are pursued in order to locate the hospital within its economic, socio-cultural and political contexts: arrangements for management and finance under the conditions of a prospering commercial economy; the rewards and restrictions experienced by the physicians and surgeons who donated their professional services free of charge; and the constructions of an integrated social and political life around

the physical and moral rehabilitation of the sick poor In this way the example of Bath a stylish resort whose visitors and residents exemplified the dynamic of fashionable philanthropy is used to open up issues of significance to our understanding of Georgian Britain as a whole      Narrative Structure and Narrative Knowing in Medicine and Science Martina King,Tom Kindt,2023-11-20 It has become a truism that we all think in the narrative mode both in everyday life and in science But what does this mean precisely Scholars tend to use the term narrative in a broad sense implying not only event sequencing but also the representation of emotions basic perceptual processes or complex analyses of data sets The volume addresses this blind spot by using clear selection criteria only non fictional texts by experts are analysed through the lens of both classical and postclassical narratology from Aristotle to quantum physics and from nineteenth century psychiatry to early childhood psychology they fall under various genres such as philosophical treatises case histories textbooks medical reports video clips and public lectures The articles of this volume examine the central but continuously shifting role that event sequencing plays within scholarly and scientific communication at various points in history and the diverse functions it serves such as eye witnessing making an argument inferencing or reasoning Thus they provide a new methodological framework for both literary scholars and historians of science and medicine      **The Art of Mary Linwood** Heidi A. Strobel,2023-11-30 The Art of Mary Linwood is the first book on Leicester textile artist Mary Linwood 1755 1845 and catalogue of her work When British textile artist and gallery owner Mary Linwood died in 1845 just shy of 90 years old her estate was worth the equivalent of 5 199 822 in today s currency As someone who made but did not sell embroidered replicas of famous artworks after artists such as Gainsborough Reynolds Stubbs and Morland how did she accumulate so much money A pioneering woman in the male dominated art world of late Georgian Britain Linwood established her own London gallery in 1798 that featured copies of well known paintings by these popular artists Featuring props and specially designed rooms for her replicas she ensured that her visitors had an entertaining educational and kinetic tour similar to what Madame Tussaud would do one generation later The gallery s focus on picturesque painters provided her London visitors with an idyllic imaginary journey through the countryside Its emphasis on quintessentially British artists provided a unifying focus for a country that had recently emerged from the threat of Napoleonic invasion This book brings to the fore Linwood s gallery guides and previously unpublished letters to her contemporaries such as Birmingham inventor Matthew Boulton and Queen Charlotte It also includes the first and only catalogue of Linwood s extant and destroyed works By examining Linwood s replicas and their accompanying objects through the lens of material culture the book provides a much needed contribution to the scholarship on women and cultural agency in the early 19th century      **The Crimean Doctors** John A. Shepherd,1991-01-01 A comprehensive medical history of the Crimean War this work assesses the role of the British doctors 6 Army navy and civilian 6 while taking account of the contemporary state of medicine and surgery as well as the limited attention paid to the Army and navy medical services by successive governments before the war      **Dugdale Society Occasional Papers** Dugdale Society,2003      *The*

*Creation of the Modern World* Roy Porter, 2000 From a critically acclaimed author comes an engagingly written and groundbreaking new work that highlights the long underestimated British role in delivering the Enlightenment to the modern world Porter reveals how the monumental transformation of thinking in Great Britain influenced wider developments elsewhere of color illustrations     Devices and Designs C. Timmermann, J. Anderson, 2006-10-31 In this volume leading scholars in the history and sociology of medicine focus their attention on the material cultures of health care They analyze how technology has become so central to medicine over the last two centuries and how we are coping with the consequences
