philosophy This anthology contains all relevant comments and notes by Steiner on the theme highlighting how his thinking evolved At the same time it accentuates the differences and similarities between Western and Eastern spiritual paths and in the process reveals what is new and original about Steiner's esoteric teachings In contrast to most yoga traditions which cultivate the energy rising from the lower life centre the Western path of esoteric schooling starts in our upper centre of consciousness in thinking and the I From there the centre of experience is shifted downward from the head to the heart After development of the new heart centre as Rudolf Steiner describes it forces can be guided consciously and through specific exercises the kundalini snake can be fully awoken In his detailed introduction editor Andreas Meyer distils the perspectives and instructions from Steiner's complete works presenting a valuable synopsis for our understanding and practice of meditation today Chapters include The Meaning of Meditation and the Six Exercises Developing and Cleansing the Lotus Flowers The Snake Symbol The Kundalini Fire The Kundalini Light Developing the New Heart Organ The Reversal in Thinking and Will Specific Aspects of Kundalini Schooling Transforming Physical Love and the Division of the Sexes Breathing the Light Soul Process and the New Yoga Will The Polarity of Light and Love and Transforming the Kundalini Fire into Fraternity

Mutants & Mystics Jeffrey J. Kripal, 2011-09-30 In many ways twentieth century America was the land of superheroes and science fiction From Superman and Batman to the Fantastic Four and the X Men these pop culture juggernauts with their powers and abilities far beyond those of mortal men thrilled readers and audiences and simultaneously embodied a host of our dreams and fears about modern life and the onrushing future But that's just scratching the surface says Jeffrey Kripal In *Mutants and Mystics* Kripal offers a brilliantly insightful account of how comic book heroes have helped their creators and fans alike explore and express a wealth of paranormal experiences ignored by mainstream science Delving deeply into the work of major figures in the field from Jack Kirby's cosmic superhero sagas and Philip K Dick's futuristic head trips to Alan Moore's sex magic and Whitley Strieber's communion with visitors Kripal shows how creators turned to science fiction to convey the reality of the inexplicable and the paranormal they experienced in their lives Expanded consciousness found its language in the metaphors of sci fi incredible powers unprecedented mutations

time loops and vast intergalactic intelligences and the deeper influences of mythology and religion that these in turn drew from the wildly creative work that followed caught the imaginations of millions Moving deftly from Cold War science and Fredric Wertham's anticomics crusade to gnostic revelation and alien abduction Kripal spins out a hidden history of American culture rich with mythical themes and shot through with an awareness that there are other realities far beyond our everyday understanding A bravura performance beautifully illustrated in full color throughout and brimming over with incredible personal stories *Mutants and Mystics* is that rarest of things a book that is guaranteed to broaden and maybe even blow your mind
