Changing a Leopard's Spots Alex van den Heever, 2023-03-01 Alex and Renias are what we need in these times of racial mistrust and lack of cohesion I found this book compelling and unputdownable as it goes beyond wildlife to life love trust and community It is about generosity of spirit It serves as a reminder that humanity needs to respect love and appreciate nature SELLO HATANG Chief Executive of the Nelson Mandela Foundation World renowned wildlife trackers Alex van den Heever and Renias Mhlongo have spent three decades working together tracking leopards and lions at Londolozi jaguars in South America and grizzly bears in the United States In Changing a Leopard's Spots Alex shares stories from his life with Renias including the successes failures dramas laughter disappointments and highlights As they experience numerous adventures Alex and Renias learn to trust and rely on one another both in order to stay alive in a literal sense because of the sometimes dangerous environments in which they work but also to develop a deep and meaningful relationship By challenging each other and learning from one another they break down social cultural racial and personal boundaries and obstacles that often divide South Africans and in the process the two men forge an unbreakable bond

Robin P. Currie, 2019-08-30 Lies are everywhere but we can see the truth if we try really hard Following up on the success of her first philosophical book Pray without Ceasing Robin P Currie leads readers on a humorous adventure into the grey area between truth lies and manipulations She seeks to answer questions such as What happens when we live outside of our core truths and values What secrets do we keep tucked away deep inside ourselves What benefits can we realize by converting to a more fluid way of approaching life's ups and downs The author's purpose is to dispel and refute limiting beliefs but she also questions whether limiting beliefs are real at all Are we told we have limiting beliefs when in fact we have none Could the entire concept be a profound untruth that when believed places upon us a predestined measure of suffering Join the author as she exposes ridiculous deceptions hilarious lies and the irony of our own beliefs in A Leopard Can't Change Its Spots

Early American Proverbs and Proverbial Phrases Bartlett Jere Whiting, 1977 p B J Whiting savors proverbial expressions and has devoted much of his lifetime to studying and collecting them no one knows more about British and American proverbs than he The present volume based upon writings in British North America from the earliest settlements to approximately 1820 complements his and Archer Taylor's Dictionary of American Proverbs and Proverbial Phrases 1820-1880 It differs from that work and from other standard collections however in that its sources are primarily not literary but instead workaday writings letters diaries histories travel books political pamphlets and the like The authors represent a wide cross section of the populace from scholars and statesmen to farmers shopkeepers sailors and hunters Mr Whiting has combed all the obvious

sources and hundreds of out of the way publications of local journals and historical societies This body of material because it covers territory that has not been extracted and compiled in a scholarly way before can justly be said to be the most valuable of all those that Whiting has brought together according to Albert B Friedman What makes the work important is Whiting's authority a proverb or proverbial phrase is what BJW thinks is a proverb or proverbial phrase There is no objective operative definition of any value no divining rod his tact feel experience determine what's the real thing and what is spurious     **A**
