The Liberating Power of Symbols Jürgen Habermas, 2001 Habermas engages with a wide range of twentieth century thinkers including theologian Johann Baptist Metz and Finnish philosopher Georg Henrik von Wright **Solidarity** Hauke Brunkhorst, 2005 A political sociologist examines the concept of universal egalitarian citizenship and assesses the prospects for developing democratic solidarity at the global level **Nomadic Education** , 2008-01-01 This comprehensive and thoughtful volume is the first book to investigate assess and apply a philosophy of education drawn from the great French philosopher Gilles Deleuze It contains powerful and beautiful essays by some of the most influential Deleuze and Guattari commentators the chapters by Bogue Colebrook May and Semetsky and Genosko are particularly rewarding The book provides very useful situations within the philosophy of education and some interesting experimental developments of Deleuze s work notably in terms of new technologies and original methods This is then an indispensable work on Deleuze and education It covers the historical background and begins shaping debates for future research in this exciting and growing area Professor James Williams Professor of European Philosophy School of Humanities University of Dundee author of Gilles Deleuze s Difference and Repetition A Critical Introduction and Guide and The Transversal Thought of Gilles Deleuze Encounters and Influences Deleuze always said that education was an erotic voluptuous experience perhaps the most important experience we can have This collection captures that excitement and challenges what we think about how Deleuze should be taught and just as importantly what he taught Ian Buchanan Centre for Critical and Cultural Theory Cardiff University author of Deleuze and Guattari s Anti Oedipus and founding editor of Deleuze Studies Here are thirteen encounters with Deleuze s work that not only testify of the creativity and newness of Deleuze s own writing but that by taking these ideas into the field of education raise new questions signal new problems and provide genuinely new ways of educational thinking and being A rich source of inspiration for anyone who believes that education should not be about the reproduction of what already exists but should be committed to what is to become Gert Biesta University of Stirling author of Beyond Learning Democratic Education for a Human Future co editor of Derrida Education **Reflexive Democracy** Kevin Olson, 2006-04-28 An argument for justifying the welfare state politically rather than economically based on an ideal of democratic equality **Gadamer's Century** Jeff Malpas, Ulrich Arnswald, Jens Kertscher, 2002-01-18 Philosopher Hans Georg Gadamer has made major contributions to aesthetic theory Plato and Hegel studies humanistic studies and the philosophy of history A student of Martin Heidegger Gadamer took up and developed a number of central Heideggerian insights He also had productive public debates with contemporaries such as Emilio Betti and Jürgen Habermas The shape of contemporary hermeneutics is due almost entirely to Gadamer s influence and his magnum opus Truth and Method is considered one of the great philosophical works of the twentieth century This book is dedicated to Gadamer in honor of his hundredth birthday in 2000 The essays provide a measure of the classical character of Gadamer s work by showing the

breadth of engagement his ideas have provoked As in Gadamer s own life and work dialogue and conversation figure as important themes in all of the essays While they encompass a diversity of philosophical perspectives interests and styles the essays also suggest the ever present possibility of dialogue across language and tradition and of the formation of new modes of discourse and philosophizing **The Journal of Philosophy**, 2001 The Postnational Constellation Jurgen Habermas, 2001-02-02 translated edited and with an introduction by Max Pensky Does a global economy render the traditional nation state obsolete Does globalization threaten democratic life or offer it new forms of expression What are the implications of globalization for our understanding of politics and of national and cultural identities In The Postnational Constellation J rgen Habermas addresses these and other questions He explores the historical and political origins of national identity the achievements and catastrophes of the twentieth century the future of democracy in the wake of the era of the nation state the political and moral challenges facing the European Union and the status of global human rights in the ongoing debate on the sources of cultural identity In their scope critical insight and clarity the essays present a powerful vision of the contemporary political scene and the opportunities and challenges facing us Those new to Habermas s work will find in this book a lucid and engaging introduction to one of the twentieth century s most influential thinkers Those familiar with Habermas s writings will appreciate the application of his social and political theories to current political realities

Global Justice and Transnational Politics Pablo De Greiff, Ciaran Cronin, Ciaran P. Cronin, 2002 Essays exploring the prospects for transnational democracy in a world of increasing globalization **Re-Presenting the Good Society** Maeve Cooke, 2006-04-07 A proposal for negotiating the tension between an anti authoritarian impulse and a guiding idea of context transcending validity in critical social theory Contemporary critical social theories face the question of how to justify the ideas of the good society that guide their critical analyses Traditionally these more or less determinate ideas of the good society were held to be independent of their specific sociocultural context and historical epoch Today such a concept of context transcending validity is not easy to defend the linguistic turn of Western philosophy signals the widespread acceptance of the view that ideas of knowledge and validity are always mediated linguistically and that language is conditioned by history and context In Re Presenting the Good Society Maeve Cooke addresses the justificatory dilemma facing critical social theories how to maintain an idea of context transcending validity without violating anti authoritarian impulses In doing so she not only clarifies the issues and positions taken by other theorists including Richard Rorty J rgen Habermas Axel Honneth and Judith Butler but also offers her own original and thought provoking analysis of context transcending validity Because the tension between an anti authoritarian impulse and a guiding idea of context transcending validity is today an integral part of critical social theory Cooke argues that it should be negotiated rather than eliminated Her proposal for a concept of context transcending validity has as its central claim that we should conceive of the good society as

re presented in particular constitutively inadequate representations of it These re presentations are Cooke argues provocatively regulative ideas that have an imaginary fictive character

Democracy across Borders James Bohman, 2010-01-22 An innovative conception of democracy for an era of globalization and delegation of authority beyond the nation state rule by peoples across borders rather than by the people within a fixed jurisdiction Today democracy is both exalted as the best means to realize human rights and seen as weakened because of globalization and delegation of authority beyond the nation state In this provocative book James Bohman argues that democracies face a period of renewal and transformation and that democracy itself needs redefinition according to a new transnational ideal Democracy he writes should be rethought in the plural it should no longer be understood as rule by the people d mos singular with a specific territorial identification and connotation but as rule by peoples d moi across national boundaries Bohman shows that this new conception of transnational democracy requires reexamination of such fundamental ideas as the people the public citizenship human rights and federalism and he argues that it offers a feasible approach to realizing democracy in a globalized world In his account Bohman establishes the conceptual foundations of transnational democracy by examining in detail current theories of democracy beyond the nation state including those proposed by Rawls Habermas Held and Dryzek and offers a deliberative alternative He considers the importance of communicative freedom in the transnational public sphere including networked communication over the Internet human rights as the normative basis of transnational democracy and the European Union as a transnational polity Finally he examines the relationship between peace and democracy concluding that peace requires democratization on interacting state and suprastate levels

Cogent Science in Context William Rehg, 2011-08-19 A proposal for an interdisciplinary context sensitive framework for assessing the strength of scientific arguments that melds J rgen Habermas s discourse theory and sociological contextualism Recent years have seen a series of intense increasingly acrimonious debates over the status and legitimacy of the natural sciences These science wars take place in the public arena with current battles over evolution and global warming and in academia where assumptions about scientific objectivity have been called into question Given these hostilities what makes a scientific claim merit our consideration In Cogent Science in Context William Rehg examines what makes scientific arguments cogent that is strong and convincing and how we should assess that cogency Drawing on the tools of argumentation theory Rehg proposes a multidimensional context sensitive framework both for understanding the cogency of scientific arguments and for conducting cooperative interdisciplinary assessments of the cogency of actual scientific arguments Rehg closely examines J rgen Habermas s argumentation theory and its implications for understanding cogency applying it to a case from high energy physics A series of problems however beset Habermas s approach In response Rehg outlines his own critical contextualist approach which uses argumentation theory categories in a new and more context sensitive way inspired by ethnography of
