*Shooting to Kill* Seumas Miller,2016 Terrorism the use of military force in Afghanistan Iraq and Syria and the fatal police shootings of unarmed persons have all contributed to renewed interest in the ethics of police and military use of lethal force and its moral justification In this book philosopher Seumas Miller analyzes the various moral justifications and moral responsibilities involved in the use of lethal force by police and military combatants relying on a distinctive normative teleological account of institutional roles His conception constitutes a novel alternative to prevailing reductive individualist and collectivist accounts As Miller argues police and military uses of lethal force are morally justified in part by recourse to fundamental natural moral rights and obligations especially the right to personal self defense and the moral obligation to defend the lives of innocent others Yet the moral justification for police and military use of lethal force is to some extent role specific Both police officers and military combatants evidently have an institutionally based moral duty to put themselves in harm s way to protect others Under some circumstances however police have an institutionally based moral duty to use lethal force to uphold the law and military combatants have an institutionally based moral duty to use lethal force to win wars Two key notions in play are joint action and the natural right to self defense Miller uses a relational individualist theory of joint actions to construct the notion of multi layered structures of joint action in order to explicate organizational action He also provides a novel theory of justifiable killing in self defense Over the course of his book Miller covers a variety of urgent topics such as police shootings of armed offenders police shooting of suicide bombers targeted killing autonomous weapons humanitarian armed

**President's Kill List** Luca Trenta,2024-05-31 From Fidel Castro to Qassem Soleimani the US government has been involved in an array of assassinations and assassination attempts against foreign leaders and officials The President s Kill List reveals how the US government has relied on a variety of methods from the use of poison to the delivery of sniper rifles and from employing hitmen to simply laying the groundwork for local actors to do the deed themselves It shows not only how policymakers decided on assassination but also the level of Presidential control over these decisions Tracing the history of the US government s approach to assassination the book analyses the evolution of assassination policies and for the first time reveals how successive administrations through private justifications and public legitimations ensured assassination remained an available tool

**Libyan-sponsored Terrorism** United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Security and Terrorism,1986      Drones and Targeted Killing in the Middle East and Africa , Christine Sixta Rinehart,2016-12-06 The United States has repeatedly used drones to kill terrorists in Afghanistan Iraq Libya Pakistan Somalia Syria and Yemen in an effort to decrease terrorism and the vitality of terrorist groups Targeted killing through the use of drones has become a foreign policy weapon to keep the United States safe from further terrorist attacks However it is suspected that these killings has actually led to an increase in terrorist group recruitment terrorist attacks and empathy for the terrorist group from the local population in addition to several other unwanted repercussions The two part research question this book attempts to answer is What is the effect of drone targeted killing on Afghanistan Iraq Libya Pakistan Somalia Syria and Yemen And is it a successful method in the War on Terror      **When Doctors Kill** Joshua A.

Perper, Stephen J. Cina, 2010-08-12 It would come as no surprise that many readers may be shocked and intrigued by the title of our book Some especially our medical colleagues may wonder why it is even worthwhile to raise the issue of killing by doctors Killing is clearly antithetical to the Art and Science of Medicine which is geared toward easing pain and suffering and to saving lives rather than smothering them Doctors should be a source of comfort rather than a cause for alarm Nevertheless although they often don't want to admit it doctors are people too Physicians have the same genetic library of both endearing qualities and character defects as the rest of us but their vocation places them in a position to intimately interject themselves into the lives of other people In most cases fortunately the positive traits are dominant and doctors do more good than harm While physicists and mathematicians paved the road to the stars and deciphered the mysteries of the atom they simultaneously unleashed destructive powers that may one day bring about the annihilation of our planet Concurrently doctors and allied scientists have delved into the deep secrets of the body and mind mastering the anatomy and physiology of the human body even mapping the very molecules that make us who we are But make no mistake a person is not simply an elegant biological machine to be marveled at then dissected Killing the Arab Spring Hasan Afif el-Hasan, 2019-05-01 Killing the Arab Spring tells the stories of the Arab Spring uprising in 15 Middle East states from the point of view of a secular Middle Eastern political analyst familiar with the politics the culture of the people and the history of the area Dr Hasan views the vast majority of the Arab rulers deriving their absolute authority from inheritance or military coups or in the case of the Saudis from conquest not at the pleasure of the governed Arab leaders do not believe that government is a trust on behalf of the people They believe that if there is democracy and their societies are composed of equal and competing individuals there will be a tendency towards anarchy People involved in the Arab Spring uprisings demanded inclusive and equitable democracy social justice and economic development There were no civil society institutions strong enough to challenge the weapons of authoritarianism that included ideology repression payoffs and the solidarity of the crony capitalists The author argues that Saddam Hussein's 1980 war on Iran was the spark that started a chain of bloody wars and events which eventually led to the US invasion of Iraq and the Arab Spring uprisings The revolts and the counter revolts took different forms in each country based on its history the type of government and the economy The author argues that the Arab Spring is a step of a long process toward democracy rather than an aberration between periods of authoritarian regimes To understand the Arab Spring causes and its aftermath the book provides the reader with a review of the Middle East common culture that includes the history of Islamic religion Islamic sects and Arab tribalism and brief history of each country There are few activities more controversial than writing history of a nation involved in a conflict Even while witnessing history unfolding in a country different historians provide different narratives different causes and different conclusions This becomes more obvious when the history of the conflicts is viewed through the prism of the politics of sectarianism ethnicity and tribalism The author strives for an objective view but he does not hide his strong support to

liberal democracy and human rights      **Insight Turkey 2020/04 - The Future of The Libyan Crisis** ,2020-12-01 Libya is one of the most important regional actors in the Middle East and North Africa region in terms of its geographical location and geostrategic importance In 2011 Qaddafi was ousted from power raising the hopes of the Libyan people for a democratic regime Unfortunately Libya one of the most interesting fronts of the Arab insurgencies and revolutions has disintegrated into a severe civil war and a regional crisis The reasons behind this are both internal and external While the clash between the state non state and armed actors within Libya have threatened the internal stability the intervention of some regional and global actors has incited the conflict further Authoritarian regimes and pro status quo states such as the United Arab Emirates UAE Saudi Arabia and Egypt have been against the Arab uprisings as they did not want the will of the people to be reflected in the Middle East and Arab countries administrations Within this context these states did not allow the emergence of an encompassing and pluralist political structure in Libya Furthermore most international and regional powers such as France Russia and the United States have also been supporting this authoritarian coalition Haftar who had little influence during the revolution and lived outside of Libya for a long time attempted a military coup in 2014 by rejecting the authorities of legitimate political actors in the country with the support of these states The Government of National Accord GNA which is recognized as the only legitimate representative of the Libyan state and people by many international institutions most notably the United Nations suppressed Haftar s coup attempt However the abovementioned states continue to invest in Haftar s forces After having amassed enough armed forces with the support of a large coalition of states Haftar launched a comprehensive military attack to take over the capital city of Tripoli in April 2019 to offset up another autocratic regime in Libya While everyone saw the capital Tripoli passing into the hands of Haftar as inevitable and only a matter of time turning a blind eye to the situation Turkey stepped in and upset all the calculations As a result Turkey increased its presence in Libya after two memorandums of understanding MoUs were signed with the GNA in November 2019 With these two memorandums Turkey has determined and declared its sea border in the Eastern Mediterranean and made a commitment to the GNA Accordingly when needed and requested by GNA Turkey is ready to provide all kinds of military support Especially since January 2020 Turkey has supported the GNA militarily and financially in its struggle against Haftar The GNA forces supported by Turkey defeated the Haftar troops and forced them to withdraw from a large area in the Western part of the country Turkey which has altered the whole balance of power in Libya within a short time with the new dynamics has changed the course of the crisis and the civil war in the country Haftar and his supporters who preferred only military methods had to declare a unilateral ceasefire and to sit down at the diplomatic negotiation table At the same time Turkey persuaded some countries that are flirting with both sides to strengthen their relationship with the GNA Developments in Libya directly influence Turkey since Libya is a very important country for Turkey in the context of both the history of bilateral relations as well as the regional balance of power Therefore since the first days of the revolution Turkey has been in

close relations with the legitimate actors in order to protect the territorial integrity and political independence of the Libyan state. With its support both in the conflict area and at the negotiating table, Turkey ensured that the GNA remains an effective actor. Thus, Turkey has prevented the persons and groups which are under the control of the anti-Turkish coalition during the post-Arab Spring period. On the other hand, Turkey has negated all anti-Turkey moves, formations and processes within the newly emerged strategic regional equation. In this sense, the legitimate Libyan government came to the fore as a regional actor that it can work with. After signing a ceasefire agreement in October 2020 in Geneva, the political peace talks started under the auspices of the United Nations acting envoy to Libya, Stephanie Williams, and the warring sides have reached a preliminary agreement to a roadmap for elections. The two rival sides have agreed to hold both parliamentary and presidential elections in December 2021. If the process is completed successfully, the future of the country will be determined after these elections, hopefully with an end to the discord in the country. The Libyan issue is a complex crisis with which many local, regional and global actors have become involved. Therefore, the resolution of the crisis will only be possible with international consensus. In order to solve the crisis, a negotiation process must begin after securing a sustainable ceasefire agreement; all segments of the Libyan society must be included, and the two sides must reconcile on civil and democratic principles. Only then can a reconstruction of the state and a reform process in political, economic and security spheres be initiated. This issue of *Insight Turkey* focuses on underscoring both promises of internal reconstruction and challenges fueled by different external actors intervening in the Libyan crisis. This latest issue includes five commentaries and three insightful research articles that explore the Libyan conflict from different perspectives. While some pieces focus on the role of different actors in the crisis, others analyze the reconstruction efforts. While the civil war has pitted Libyans against each other, foreign interventions have hindered the resolution of the civil war. In this regard, Yahia H. Zoubir's commentary presents a coherent framework of the foreign powers involved in the Libyan conflict and their interests. Zoubir argues that unless those foreign powers have achieved their goals in Libya, an end to the civil war anytime soon remains unlikely. Talha K. Se and Bilgehan Z. T. rk provide a rigorous analysis of the external interventions in Libya and the logic behind each intervention, between offensive, defensive, opportunistic or ideological. Understanding the full picture in Libya requires us to fully grasp the Turkish role and motivation for the Libyan conflict. To do so, Smail Numan Telci underlines the factors and challenges that made it difficult for Turkey to implement its peaceful plans in Libya and argues that Turkey will continue to be an active supporter of peace and stability in the country. Tarek Megerisi briefly analyzes Europe's relations with post-revolutionary Libya and European policies on Libya to conclude by stating that a continuing struggle between the EU member states over how to handle the new world that is emerging in the wake of the *pax Americana* is also exposed in European policy on Libya. Ali Bakir's article aims to discuss the United Arab Emirates' interventions in Libya in terms of their nature, extent, motives, goals and repercussions. Bakir tries to answer the questions of why Abu Dhabi has been able to act with impunity in Libya despite being

the top foreign player fueling the war there for many years and whether it will be able to achieve its goals and continue its interventions in Libya or not France while actively allying with the UAE Egypt and Saudi Arabia has aggressively confronted Turkey and undermined the internationally recognized Libyan Government of National Accord On this basis Timothy Reid seeks to examine the premises of the French policy toward Libya and its real intentions behind these actions Guma el Gamaty highlights the strong foundations and drivers for the Turkish Libyan strategic alliance which allowed Turkey eventually to provide timely and decisive support for the legitimate Government of National Accord He argues that the Turkish strategic relationship and cooperation with Libya over the coming decades will contribute to lasting peace as well as institution and state building Based on empirical evidence Shatha Sbeta and Mohamed Abufalgha advocate for a comprehensive framework to address the political economic and social challenges facing Libya Their proposal draws a clear roadmap that begins with establishing trust and extending the authority of the government across the Libyan territory Murat Aslan focusing on state non state and armed actors analyses Libya s post Qaddafi fragile state structure and struggles to build the internal order He argues that these actors pose a repeating and paradoxical dilemma in which the root causes can be scrutinized by investigating the security culture inherited from Qaddafi s regime Four off topic manuscripts conclude this issue of Insight Turkey This issue places a special emphasis on the insurmountable deadlock that tackled the Armenia Azerbaijan conflict resolution process Farid Shafiyev and Vasif Huseynov in their off topic commentary assert that this deadlock is due to the failure of the peace negotiations brokered by different actors to deliver any progress as well as the constant provocations of Armenian military and political leaders which eventually led to the outbreak of an almost full scale war on September 27 2020 As the COVID 19 pandemic continues refugees are in constant danger because they live in highly congested environments Within this context Mahmood Monshipouri Burcu Akan Ellis and Cassidy Renee Yip call for a new approach to cope with the pandemic while arguing that helping refugees to curb the spread of the current coronavirus cannot be divorced from social contexts Luk Tich Jan Maza and Zbyn k Dubsk present a modified concept of the EU actorness in energy relations and deals with the identification of its criteria Based on a predefined methodology the article also analyses dimensions of actorness in the external energy relations with Algeria Written by Shamkhal Abilov Ceyhun Mahmudlu and Natig Abdullayev the last research article focuses on the dispute between Turkmenistan and Azerbaijan over the delimitation of the Caspian Sea This article aims to find out whether the new Convention of 2018 on the status of the Caspian Sea resolved the long standing dispute and to assess the potential of implementing the Trans Caspian Pipeline under the new conditions With one more year coming to an end we are pleased to present to our readers yet another insightful issue of Insight Turkey that aims to bring the Libyan crisis to the attention of the politicians intellectuals and academicians With the hope that you will find this issue informative and interesting we are looking forward to providing you with more next year
