## **The Lie Of The Land:**

*The Lie of the Land* Don Mitchell,1996      *The Lie of the Land* Fintan O'Toole,1998-12-17 The Lie of the Land is a highly engaging study of Ireland's fractured and shifting identities by one of its most talented writers From its sometimes confused sense of place caught somewhere between Europe and America Ireland has redefined itself in the 1990s Fintan O Toole highlights the contradictions and the mythologies at work in Ireland's ever changing idea of itself      The Lie of the Land David Utley,2017-07-05 The Lie of the Land is a novel set against the background of the German colonial wars in Namibia in the early 1900s The central character is an academic in linguistics who occasionally acts as a British agent He is a cynical private individual who sees himself as a neutral observer but is eventually forced to take sides when he witnesses the atrocities of the Herero and Nama genocide and above all meets a young Nama woman who enchants him The novel explores the shifting nature of the oppressor and the oppressed Despite the unfolding tragic events the story is lightened by surprising bursts of humour and is ultimately a love story      *The Lie of the Land* John Gibbons,2025-09-04 A passionate case for reimagining Irish farming and agriculture in the age of climate change from a respected environmental journalist Ireland has tended to think of itself as a Goldilocks country not too hot not too cold and well positioned to ride out the climate emergency But this is a fantasy the effects of climate change in Ireland will be profound and at the moment we're not doing nearly enough about it That's the bad news The good news is that Ireland has the wherewithal to dramatically cut its emissions while making itself far more resilient This book shows how it can be done Above all we must reimagine the ways in which we use the land The agri-food sector accounts for 38 per cent of Ireland's greenhouse emissions and just 7 per cent of gross national income As John Gibbons shows Ireland's dramatic shift towards the most polluting food sectors driven by a small number of agribusiness giants and facilitated by the state benefits the few while imposing huge costs on the many It doesn't have to be this way and Gibbons who grew up on a mixed farm shows how we can embrace a low emissions farming model while preserving farmers' livelihoods making the countryside a better place to live and delivering something Ireland conspicuously lacks food security The Lie of the Land is a bracing critique of the bad decisions that have put Ireland into such a vulnerable position and a devastating dissection of the wishful thinking and outright dishonesty that have propped up the status quo in Irish agribusiness It also offers an inspiring vision of how through a revolution in farming development of renewable energy including our vast offshore wind resource and a dramatic acceleration of moves to decarbonize transport and housing we can prepare for the new realities of the climate crisis      **The Lie of the Land** Andrew Feld,1998      **The Lie of the Land** Fintan O'Toole,1997 From its sometimes confused sense of place caught somewhere between Europe and America Ireland has redefined itself in the 1990s In this highly engaging collection of essays Fintan O Toole reveals a country whose buried memories tourist myths and current contradictions might now be reworked to forge a truly modern Irish identity      The Lie of the Land Jonathan Ward,1996      The Land of the New Guinea Pygmies Cecil Godfrey Rawling,1913
