Seth Pringle Pattison William Mitchell John Watson and the Welshman Henry Jones who found his spiritual home in Glasgow comprised a formidable force and dominated the philosophical professoriate in Britain Australia and Canada from the late nineteenth century to the years leading up to the First World War Its main centres were St Andrews Glasgow and Edinburgh in Scotland Cardiff in Wales and Oxford in England This collection of readings the first of its kind has been chosen with a view to displaying the variety richness and strength of the Scottish Idealist tradition beginning with an essay from the famous *Essays in Philosophical Criticism* 1883 a book that set out the future direction of enquiry for this group of thinkers who shared a common purpose or tendency Scottish Idealism was immensely spiritual in character and recognized no hard and fast distinctions between philosophy religion poetry and science It was a formidable force in social and educational reform

Sell, 2006-09-01 There is now renewed and growing interest in post Hegelian idealism which was in its heyday at the end of the nineteenth century This book is concerned with the religious and socio ethical aspects in the writings of selected idealists It addresses the question was post Hegelian philosophical idealism in its friendliest guise more a help than a hindrance to the expression of Christian convictions and the

articulation of Christian doctrines In pursuit of an answer the author discusses the writings of seven British idealists who if not in every case entirely doctrinally orthodox were by no means unkindly disposed towards the Christian faith T H Green Edward Caird J R Illingworth Henry Jones A S Pringle Pattison C C J Webb and A E Taylor The book opens with an account of the formative intellectual influences upon the seven idealists and their consequent philosophical positions There follow chapters on God ethics and society and Christian doctrine The conclusion passes some positive and negative judgments upon post Hegelian idealism in so far as it bears upon or expresses Christian belief It also broaches the underlying question of the method of Christian thought vis vis the general intellectual environment *The British Ethical Societies* I. D.

MacKillop,1986-02-27 A 1986 study of the British ethical societies in the nineteenth and early twentieth centuries Dr Mackillop s comprehensive account explores these societies which became havens of discussion rallying points for progressive campaigns and places of secular worship along with the significant events and personalities in the history of the ethical movement British Idealism: A Guide for the Perplexed David Boucher,Andrew Vincent,2012-02-02 A concise introduction to the ideas and writings of the British Idealists Mind ,1909 A quarterly review of philosophy *Scottish Philosophical Theology* David Fergusson,2012-10-05 This volume concentrates on the period from the beginning of the 18th century to the latter part of the 20th It is impossible to depict a single school of philosophical theology in Scotland across three centuries yet several strains have been identified that suggest some recurrent themes or intellectual habits These include the following the mutually beneficial cross fertilisation of the disciplines of philosophy and theology the tendency to eschew powerful philosophical systems that might threaten to imprison theological ideas a stress on both the providential limitations and reliability of human reason a suspicion of reductive theories of a materialist inclination and a determination to inspect critically the proposals of theology and to place these in positive relation to other disciplines American Classicist Victoria Houseman,2023-10-03 A biography of the remarkable woman whose bestselling *Mythology* has introduced millions of readers to the classical world Edith Hamilton 1867 1963 didn t publish her first book until she was sixty two But over the next three decades this former headmistress would become the twentieth century s most famous interpreter of the classical world Today Hamilton s *Mythology* 1942 remains the standard version of ancient tales and sells tens of thousands of copies a year During the Cold War her influence even extended to politics as she argued that postwar America could learn from the fate of Athens after its victory in the Persian Wars In *American Classicist* Victoria Houseman tells the fascinating life story of a remarkable classicist whose ideas were shaped by and aspired to shape her times Hamilton studied Latin and Greek from an early age earned a BA and MA at Bryn Mawr College and ran a girls prep school for twenty six years After retiring she turned to writing and began a relationship with the pianist and stockbroker Doris Fielding Reid The two women were partners for more than forty years and entertained journalists diplomats and politicians in their Washington D C house Hamilton traveled extensively around the world formed friendships with Gertrude Stein and Ezra Pound and was made an

honorary citizen of Athens While Hamilton believed that the ancient Greeks represented the peak of world civilization Houseman shows that this suffragist pacifist and anti imperialist was far from an apologist for Western triumphalism An absorbing narrative of an eventful life American Classicist reveals how Hamilton s Greek and Roman worlds held up a mirror to midcentury America even as she strived to convey a timeless beauty that continues to enthrall readers Re-inventing the Ship Don Leggett,2016-04-08 Ships have histories that are interwoven with the human fabric of the maritime world In the long nineteenth century these histories revolved around the re invention of these once familiar objects in a period in which Britain became a major maritime power This multi disciplinary volume deploys different historical geographical cultural and literary perspectives to examine this transformation and to offer a series of interconnected considerations of maritime technology and culture in a period of significant and lasting change Its ten authors reveal the processes involved through the eyes and hands of a range of actors including naval architects dockyard workers commercial shipowners and Navy officers By locating the ship s re invention within the contexts of builders owners and users they illustrate the ways in which material elements as well as scientific artisan and seafaring ideas and practices were bound together in the construction of ships complex identities Texts in Context David Boucher,2012-12-06 The methodology of the study of the history of political thought is an area of study which has occupied my interests for nearly a decade I was introduced to the subject in University College Swansea My teachers there provided me with an excellent grounding in political studies I am particularly indebted to Bruce Haddock Peter Nicholson and W H Greenleaf Professor Greenleaf was kind enough to supply me with a copy of his bibliography and copies of two of his unpublished papers I continued to pursue my interest in methodology at the London School of Economics and Political Science I am indebted to Ken Minogue and Robert Orr who taught me there My greatest debt is to Dr Joseph Femia of the University of Liverpool who devoted a great deal of time to considering the arguments presented here His criticisms and suggestions for improvement proved to be invaluable I would also like to thank Alan Ryan for his general comments and encouraging advice It would be remiss of me if I neglected to express my gratitude to Dewi Beynon who was my first teacher of politics The research for this project was carried out in the following places The British Library of Political Science London The Sidney Jones Library University of Liverpool The National Library of Scotland Edinburgh The Main Library University of Edinburgh The Arts and Social Science Library University College Cardiff and the Bodleian Library Oxford
