The Life And Thought Of Aurel Kolnai:

The Life and Thought of Aurel Kolnai Francis Dunlop, 2017-11-22 This title was first published in 2002 I sincerely believe that Dr Kolnai is one of the most original and stimulating thinkers in the field of political philosophy alive today Karl Popper Kolnai's moral and political thought was developed against the background of Liberal and then Bolshevik revolutions in Hungary the gradual move towards fascism in twenties and thirties Vienna and the progress of the Second World War as seen from the USA Born a Jew he became a Roman Catholic and lived successively in Hungary Austria France the USA Canada and England He remained throughout his extraordinary life a passionate believer in reason and common sense and the sworn enemy of all philosophical and political systems Study of Kolnai has been hampered by political developments his own peripatetic life and the fact that his writings appeared in five different languages yet interest in Kolnai is now growing This book offers the first comprehensive picture of Kolnai's complete works and life Dunlop presents Kolnai the man in his social and political setting and offers an accessible exploration of all his writings whether published or not including translated passages from papers and letters in Kolnai's various languages Including a selective bibliography of Kolnai's works this book presents an important study of this unique political and moral philosopher showing his relevance in contemporary philosophical thought

Aurel Kolnai's The War AGAINST the West Reconsidered Wolfgang Bialas, 2019-02-13 Aurel Kolnai's *The War against the West* remains one of the most insightful analyses of Nazi thought ever written First published in 1938 it was a revelation for many readers Quite different in tone and approach from most other analyses of Nazism available in English it was remarkable for the thoroughness with which it discussed the writings of Nazi thinkers and for the seriousness with which it took their views In this edited collection published eighty years after the original book a team of distinguished scholars reassess this classic text and also consider its continued relevance to contemporary politics They address issues such as the comparison of Nazism and communism anti-Semitism British and American perceptions of the Reich before the war and the Nazi legal theory of Carl Schmitt This book is a vital source for historians of Nazism and Fascism

Fascism, Nazism and the Holocaust Dan Stone, 2020-12-30 This book contains essays on Fascism Nazism and the Holocaust by distinguished scholar Professor Dan Stone It examines issues such as race science and the racial state Nazi race ideology slave labour concentration camps British reaction to the rise of Nazism and the Holocaust the search for missing persons in the chaos of postwar Europe and the postwar revival of fascism Though mainly focused on Nazi Germany it also makes comparisons with other fascist movements and regimes in Romania and elsewhere This book will be of great interest to scholars and students of antisemitism fascism Nazism World War II genocide studies and the Holocaust

The Holocaust, Fascism and Memory D. Stone, 2013-02-22 From interpretations of the Holocaust to fascist thought and anti-fascists' responses this book tackles topics which are rarely studied in conjunction This is a unique collection of essays on a wide variety of subjects which contributes to understanding the roots and consequences of mid

twentieth century Europe's great catastrophe **After The History of Sexuality** Scott Spector, Helmut Puff, Dagmar Herzog, 2012-07-01 Michel Foucault's seminal *The History of Sexuality* 1976 1984 has since its publication provided a context for the emergence of critical historical studies of sexuality This collection reassesses the state of the historiography on sexuality a field in which the German case has been traditionally central In many diverse ways the Foucauldian intervention has governed the formation of questions in the field as well as the assumptions about how some of these questions should be answered It can be argued however that some of these revolutionary insights have ossified into dogmas or truisms within the field Yet as these contributions meticulously reveal those very truisms when revisited with a fresh eye can lead to new unexpected insights into the history of sexuality necessitating a return to and reinterpretation of Foucault's richly complex work This volume will be necessary reading for students of historical sexuality as well as for those readers in German history and German studies generally who have an interest in the history of sexuality **The Far Reaches** Michael D Gubser, 2023-05-25 By restoring morality to phenomenology and phenomenology to East European politics Gubser has rewritten the intellectual history of the twentieth century Samuel Moyn author of *Liberalism Against Itself* When future historians chronicle the twentieth century they will see phenomenology as one of the preeminent social and ethical philosophies of its age The phenomenological movement not only produced systematic reflection on common moral concerns such as distinguishing right from wrong and explaining the status of values it also called on philosophy to renew European societies facing crisis an aim that inspired thinkers in interwar Europe as well as later communist bloc dissidents Despite this legacy phenomenology continues to be largely discounted as esoteric and solipsistic the last gasp of a Cartesian dream to base knowledge on the isolated rational mind Intellectual histories tend to cite Husserl's epistemological influence on philosophies like existentialism and deconstruction without considering his social or ethical imprint And while a few recent scholars have begun to note phenomenology's wider ethical resonance especially in French social thought its image as stubbornly academic continues to hold sway *The Far Reaches* challenges that image by tracing the first history of phenomenological ethics and social thought in Central Europe from its founders Franz Brentano and Edmund Husserl through its reception in East Central Europe by dissident thinkers such as Jan Patocka Karol Wojtyla Pope John Paul II and Vclav Havel In his fascinating and elegantly written book Michael Gubser leads us away from intellectual history's traditional stomping grounds in France Germany and the United States and focuses on the understudied Eastern bloc Edward Baring *Modern Intellectual History* **The Routledge Handbook of Phenomenology of Emotion** Thomas Szanto, Hilge Landweer, 2020-04-22 The emotions occupy a fundamental place in philosophy going back to Aristotle However the phenomenology of the emotions has until recently remained a relatively neglected topic *The Routledge Handbook of Phenomenology of Emotion* is an outstanding guide and reference source to this important and fascinating topic Comprising forty nine chapters by a team of international contributors this handbook covers the following topics historical perspectives

including Brentano Husserl Sartre Levinas and Arendt contemporary debates including existential feelings situated affectivity embodiment art morality and feminism self directed and individual emotions including happiness grief self esteem and shame social emotions including sympathy aggressive emotions collective emotions and political emotions borderline cases of emotion including solidarity trust pain forgiveness and revenge Essential reading for students and researchers in philosophy studying phenomenology ethics moral psychology and philosophy of psychology The Routledge Handbook of Phenomenology of Emotion is also suitable for those in related disciplines such as religion sociology and anthropology

The Betrayal of the Humanities Bernard M. Levinson, Robert P. Ericksen, 2022-09-06 How did the academy react to the rise dominance and ultimate fall of Germany's Third Reich Did German professors of the humanities have to tell themselves lies about their regime's activities or its victims to sleep at night Did they endorse the regime Or did they look the other way whether out of deliberate denial or out of fear for their own personal safety The Betrayal of the Humanities The University during the Third Reich is a collection of groundbreaking essays that shed light on this previously overlooked piece of history The Betrayal of the Humanities accepts the regrettable news that academics and intellectuals in Nazi Germany betrayed the humanities and explores what went wrong what occurred at the universities and what happened to the major disciplines of the humanities under National Socialism The Betrayal of the Humanities details not only how individual scholars particular departments and even entire universities collaborated with the Nazi regime but also examines the legacy of this era on higher education in Germany In particular it looks at the peculiar position of many German scholars in the post war world having to defend their own work or the work of their mentors while simultaneously not appearing to accept Nazism

Responses to Nazism in Britain, 1933-1939 D. Stone, 2003-09-09 This book examines the large and previously neglected body of literature on Nazism that was produced in the years 1933-1939 Shifting attention away from high politics or appeasement it reveals that a remarkably wide range of responses was available to the reading public From sophisticated philosophical analyses of Nazism to pro Nazi apologies the book shows how Nazism informed debates over culture and politics in Britain and how before the war and the Holocaust made Nazism anathema it was often discussed in ways that seem surprising today

The Routledge Handbook of Political Phenomenology Steffen Herrmann, Gerhard Thonhauser, Sophie Loidolt, Tobias Matzner, Nils Baratella, 2024-06-12 Phenomenology has primarily been concerned with conceptual questions about knowledge and ontology However in recent years the rise of interest and research in applied phenomenology has seen the study of political phenomenology move to a central place in the study of phenomenology generally The Routledge Handbook of Political Phenomenology is the first major collection on this important topic Comprising 35 chapters by an international team of expert contributors the handbook is organized into six clear parts each with its own introduction by the editors Founders of Phenomenology Existentialist Phenomenology Phenomenology of the Social and Political World Phenomenology of Alterity Phenomenology in Debate Contemporary Developments Full attention is

given to central figures in the phenomenological movement including Husserl Heidegger Sartre Merleau Ponty and Levinas as well as those whose contribution to political phenomenology is more distinctive such as Arendt De Beauvoir and Fanon Also included are chapters on gender race and intersectionality disability and technology Ideal for those studying phenomenology continental philosophy and political theory The Routledge Handbook of Political Phenomenology bridges an important gap between a major philosophical movement and contemporary political issues and concepts Reconstructing Karl Polanyi Gareth Dale,2016-09-20 Shortlisted for the Deutscher Memorial Prize 2017 Karl Polanyi s contribution to political economy and social science is immeasurable In Reconstructing Karl Polanyi Gareth Dale foremost scholar and biographer of Polanyi provides a sweeping survey of his contributions to the social sciences An opponent of traditional economics and a believer in economics contingency to society and culture Polanyi s work has a cross disciplinary appeal finding popularity in anthropology economic history economic sociology and political science Paradoxical formulations such as liberal socialist and cosmopolitan patriot are often used to describe Polanyi s intellectual and political vision In exploring these paradoxes Dale draws upon original writings and transcripts to reconstruct Polanyi s views on a range of topics long neglected in critical literature including the history of antiquity the evolution and dynamics of Stalin s Russia McCarthyism and Polanyi s critical dialogue with Marxism Accompanying the reconstruction of his work is Dale s analysis of Polanyi s relevance to current issues notably the clash between democracy and capitalism and the nature and trajectory of European unification This proves an indispensable critical guide to Polanyian thought **Karl Polanyi** Gareth Dale,2016-05-31 Karl Polanyi 1886 1964 was one of the twentieth century s most original interpreters of the market economy His penetrating analysis of globalization s disruptions and the Great Depression s underlying causes still serves as an effective counterargument to free market fundamentalism This biography shows how the major personal and historical events of his life transformed him from a bourgeois radical into a Christian socialist but also informed his ambivalent stance on social democracy communism the New Deal and the shifting intellectual scene of postwar America The book begins with Polanyi s childhood in the Habsburg Empire and his involvement with the Great War and Hungary s postwar revolution It connects Polanyi s idealistic radicalism to the political promise and intellectual ferment of Red Vienna and the horror of fascism The narrative revisits Polanyi s oeuvre in English German and Hungarian includes exhaustive research in five archives and features interviews with Polanyi s daughter students and colleagues clarifying the contradictory aspects of the thinker s work These personal accounts also shed light on Polanyi s connections to scholars Christians atheists journalists hot and cold warriors and socialists of all stripes Karl Polanyi A Life on the Left engages with Polanyi s biography as a reflection and condensation of extraordinary times It highlights the historical ruptures tensions and upheavals that the thinker sought to capture and comprehend and in telling his story engages with the intellectual and political history of a turbulent epoch

Ecstatic Morality and Sexual Politics Graham James McAleer,2005 This first book length treatment of Thomas Aquinas s

theory of the body presents a Catholic understanding of the body and its implications for social and political philosophy Making a fundamental contribution to antitotalitarian theory McAleer argues that a sexual politics reliant upon Aquinas's theory of the body is better because less violent than other commonly available theories He contrasts this theory with those of four other groups of thinkers the continental tradition represented by Kant Schopenhauer Merleau Ponty Nancy Levinas and Deleuze feminism in the work of Donna Haraway an alternative Catholic theory to be found in Karl Rahner and the Radical Orthodoxy of John Milbank

A History of Modern Political Thought in East Central Europe Balázs Trencsenyi, Michal Kopeček, Luka Lisjak Gabrijelčić, Maria Falina, Mónika Baár, 2018-11-10 A History of Modern Political Thought in East Central Europe is a synthetic work authored by an international team of researchers covering twenty national cultures and 250 years It goes beyond the conventional nation centered narratives and presents a novel vision especially sensitive to the cross cultural entanglement of political ideas and discourses Its principal aim is to make these cultures available for the global market of ideas and revisit some of the basic assumptions about the history of modern political thought and modernity as such The present volume is the final part of the project following Volume I Negotiating Modernity in the Long Nineteenth Century and Volume II Part I Negotiating Modernity in the Short Twentieth Century 1918-1968 OUP 2018 Its starting point is the defeat of the vision of socialism with a human face in 1968 and the political discourses produced by the various consolidation or normalization regimes It continues with mapping the exile communities and domestic dissidents critical engagement with the local democratic and anti democratic traditions as well as with global trends Rather than achieving the coveted end of history however the liberal democratic order created in East Central Europe after 1989 became increasingly contested from left and right alike Thus instead of a comfortable conclusion pointing to the European integration of most of these countries the book closes with a reflection on the fragility of democracy in this part of the world and beyond

Russell Kirk Bradley J. Birzer, 2015-11-09 Emerging from two decades of the Great Depression and the New Deal and facing the rise of radical ideologies abroad the American Right seemed beaten broken and adrift in the early 1950s Although conservative luminaries such as T S Eliot William F Buckley Jr Leo Strauss and Eric Voegelin all published important works at this time none of their writings would match the influence of Russell Kirk's 1953 masterpiece The Conservative Mind This seminal book became the intellectual touchstone for a reinvigorated movement and began a sea change in Americans attitudes toward traditionalism In Russell Kirk Bradley J Birzer investigates the life and work of the man known as the founder of postwar conservatism in America Drawing on papers and diaries that have only recently become available to the public Birzer presents a thorough exploration of Kirk's intellectual roots and development The first to examine the theorist's prolific writings on literature and culture this magisterial study illuminates Kirk's lasting influence on figures such as T S Eliot William F Buckley Jr and Senator Barry Goldwater who persuaded a reluctant Kirk to participate in his campaign for the presidency in 1964 While several books examine the evolution of postwar conservatism and

libertarianism surprisingly few works explore Kirk's life and thought in detail. This engaging biography not only offers a fresh and thorough assessment of one of America's most influential thinkers but also reasserts his humane vision in an increasingly inhumane time. **Modern Age**, 2006 **The Salisbury Review**, 2002 Theological Studies William James McGarry, John Courtney Murray, 2004 *The Scientific Origins of National Socialism* Daniel Gasman, 2017-07-12. Many studies of the origins of National Socialism claim that the Volkisch and proto-Nazi movement arose largely as a reaction to the materialistic ideas of nineteenth-century science and especially to the naturalistic philosophy of Ernst Haeckel and the German Monist League. Using hitherto unexplored material, Daniel Gasman calls this generalization into question. Arguing that the importance of science has been relatively neglected in accounts of the intellectual origins of Nazism, he attempts to show that Haeckel's scientific Darwinism and his movement, the German Monist League, were proto-Nazi in character. Contrary to popular belief, Haeckel's type of social Darwinism actually played a critical role in the formation of National Socialist ideology. In his new introduction, Gasman notes that recent research goes far to confirm Haeckel's role as an ideological progenitor of fascist ideology. This is true not only for Germany but also for the birth of fascist thought in Italy and France. In general, Gasman claims, the history of science plainly reveals how Haeckel's social Darwinism nourished the roots of fascism no less than avant-garde modernism. When *The Scientific Origins of National Socialism* initially appeared, the *Times Literary Supplement* called it a very well-argued thesis that is completely successful and leaves the reader to extract his own moral lessons. *Medical History* in its review of *The Scientific Origins of National Socialism* said, "His book is essential for understanding modern Germany. It has a general message derived from the events in Germany where scientific data were permitted to take on a mystical significance with ghastly consequences." Bruce Chatwin in the *New York Review of Books* called the book brilliant. Now available in paperback with a new introduction by the author, this seminal work will be of interest to intellectual historians as well as to the general reader. **Return of the Grasshopper** Bernard Suits, 2022-09-30. In this sequel to Bernard Suits' timeless classic philosophical work *The Grasshopper: Games, Life, and Utopia*, published in its full and unabridged form for the first time, Suits continues to explore some of our most fundamental philosophical questions, including the value of sport and games and their relationship to the good life. In *Return of the Grasshopper*, Suits puts his theoretical cards on the table, exploring the in-depth implications of his definition of utopia, assessing the merits of a gamified philosophy, and explaining how games can provide an existential balm against the fear of death. Perhaps most importantly, for the first time in print, Suits reveals his underlying worldview: that humanity is forever fated to endure a cyclical existence of privation brought on by material scarcity and boredom resulting from material plenitude. An essential companion to *The Grasshopper*, this edition includes an introductory chapter that puts Suits' life and work into context, helping the reader to understand why Suits has had such a profound influence on contemporary philosophy and how his ideas still provide powerful insight into the human condition. This book is important reading for anybody with an interest in the philosophy of sport, leisure, and play.

political philosophy ethics existentialism or utopian studies

The Life And Thought Of Aurel Kolnai Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free The Life And Thought Of Aurel Kolnai PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free The Life And Thought Of Aurel Kolnai PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal

boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of The Life And Thought Of Aurel Kolnai free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About The Life And Thought Of Aurel Kolnai Books

1. Where can I buy The Life And Thought Of Aurel Kolnai books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
