The Life Of Arthur Young 1741 18:

Washington at the Plow Bruce A. Ragsdale, 2021-10-12 A fresh original look at George Washington as an innovative land manager whose singular passion for farming would unexpectedly lead him to reject slavery George Washington spent more of his working life farming than he did at war or in political office For over forty years he devoted himself to the improvement of agriculture which he saw as the means by which the American people would attain the respectability importance which we ought to hold in the world Washington at the Plow depicts the first farmer of America as a leading practitioner of the New Husbandry a transatlantic movement that spearheaded advancements in crop rotation A tireless experimentalist Washington pulled up his tobacco and switched to wheat production leading the way for the rest of the country He filled his library with the latest agricultural treatises and pioneered land management techniques that he hoped would guide small farmers strengthen agrarian society and ensure the prosperity of the nation Slavery was a key part of Washington's pursuits He saw enslaved field workers and artisans as means of agricultural development and tried repeatedly to adapt slave labor to new kinds of farming To this end he devised an original and exacting system of slave supervision But Washington eventually found that forced labor could not achieve the productivity he desired His inability to reconcile ideals of scientific farming and rural order with race based slavery led him to reconsider the traditional foundations of the Virginia plantation As Bruce Ragsdale shows it was the inefficacy of chattel slavery as much as moral revulsion at the practice that informed Washington's famous decision to free his slaves after his death

The Non-Representation of the Agricultural Labourers in 18th and 19th Century English Paintings Penelope McElwee, 2016-02-08 The life of the poor rural worker appears to have been one of unmitigated toil within an unequal society a reality seldom endorsed in paintings of the eighteenth and early nineteenth centuries The contemporary viewer who constituted less than three per cent of the population wished to see visions of the idyllic golden landscapes of Merrie England peopled by happy contented workers or alternatively images of the Big House a feature and phenomenon now marching over the countryside fed by a new building frenzy This particular element would soon evolve into an all consuming preoccupation for the wealthy throughout the period Members of the upper echelons of society with their families all attired in fine silks and satins look out at their audience from ornately framed canvases as individuals Yet the rural poor the rabble at the gates the unseen workforce who toiled at the behest of the Master are virtually unknown They have left few records Enclosure came at a price The Poorhouse beckoned And still the agricultural labourer did virtually nothing for most of the eighteenth century to protest or rebel against the inequalities of his downtrodden existence Only the dreaded behemoth of the nineteenth century the threshing machine would stir him into action How would it end

The Rise of Economic Societies in the Eighteenth Century K. Stapelbroek, J. Marjanen, 2012-08-30 This collection of essays explores the emergence of economic societies in the British Isles and their development into a European American and global reform movement in the eighteenth century Its fourteen contributions demonstrate the intellectual horizons and international

networks of this widespread and influential phenomenon **The Library of Literary Criticism of English and American**

Authors: 1785-1824 Charles Wells Moulton,1902 *The First Fleet Piano: Volume One* Geoffrey Lancaster,2015-11-03

During the late eighteenth century a musical cultural phenomenon swept the globe The English square piano invented in the early 1760s by an entrepreneurial German guitar maker in London not only became an indispensable part of social life but also inspired the creation of an expressive and scintillating repertoire Square pianos reinforced music as life's counterpoint and were played by royalty by musicians of the highest calibre and by aspiring amateurs alike On Sunday 13 May 1787 a square piano departed from Portsmouth on board the Sirius the flagship of the First Fleet bound for Botany Bay Who made the First Fleet piano and when was it made Who owned it Who played it and who listened What music did the instrument sound out and within what contexts was its voice heard What became of the First Fleet piano after its arrival on antipodean soil and who played a part in the instrument's subsequent history Two extant instruments contend for the title First Fleet piano which of these made the epic journey to Botany Bay in 1787-88 The First Fleet Piano A Musician's View answers these questions and provides tantalising glimpses of social and cultural life both in Georgian England and in the early colony at Sydney Cove The First Fleet piano is placed within the musical and social contexts for which it was created and narratives of the individuals whose lives have been touched by the instrument are woven together into an account of the First Fleet piano's conjunction with the forces of history View The First Fleet Piano Volume Two Appendices Note Volume 1 and 2 are sold as a set 180 for both and cannot be purchased separately **Travel and the British country house** Jon Stobart,2017-11-06

Travel and the British country house explores the ways in which travel by owners visitors and material objects shaped country houses during the long eighteenth century It provides a richer and more nuanced understanding of this relationship and how it varied according to the identity of the traveller and the geography of their journeys The essays explore how travel on the Grand Tour and further afield formed an inspiration to build or remodel houses and gardens the importance of country house visiting in shaping taste amongst British and European elites and the practical aspects of travel including the expenditure involved Suitable for a scholarly audience including postgraduate and undergraduate students but also accessible to the general reader Travel and the British country house offers a series of fascinating studies of the country house that serve to animate the country house with flows of people goods and ideas [The Invention of Sustainability](#) Paul Warde,2018-07-12 The issue of sustainability and the idea that economic growth and development might destroy its own foundations is one of the defining political problems of our era This groundbreaking study traces the emergence of this idea and demonstrates how sustainability was closely linked to hopes for growth and the destiny of expanding European states from the sixteenth century Weaving together aspirations for power for economic development and agricultural improvement and ideas about forestry climate the sciences of the soil and of life itself this book sets out how new knowledge and metrics led people to imagine both new horizons for progress but also the possibility of collapse In the nineteenth century anxieties

about sustainability often driven by science proliferated in debates about contemporary and historical empires and the American frontier The fear of progress undoing itself confronted society with finding ways to live with and manage nature

Bibliography,1980 *Edmund Burke, Volume II* F. P. Lock,1998 This volume explores the years from 1784 to 1797 and covers the most interesting years of Burke s life the leading themes being India and the French Revolution Burke was a key figure in shaping long term British attitudes to both Materials and Expertise in Early Modern Europe Ursula Klein,Emma C. Spary,2010-04-15 It is often assumed that natural philosophy was the forerunner of early modern natural sciences But where did these sciences systematic observation and experimentation get their starts In Materials and Expertise in Early Modern Europe the laboratories workshops and marketplaces emerge as arenas where hands on experience united with higher learning In an age when chemistry mineralogy geology and botany intersected with mining metallurgy pharmacy and gardening materials were objects that crossed disciplines Here the contributors tell the stories of metals clay gunpowder pigments and foods and thereby demonstrate the innovative practices of technical experts the development of the consumer market and the formation of the observational and experimental sciences in the early modern period Materials and Expertise in Early Modern Europe showcases a broad variety of forms of knowledge from ineffable bodily skills and technical competence to articulated know how and connoisseurship from methods of measuring data gathering and classification to analytical and theoretical knowledge By exploring the hybrid expertise involved in the making consumption and promotion of various materials and the fluid boundaries they traversed the book offers an original perspective on important issues in the history of science medicine and technology The Letters of Sarah Harriet Burney Sarah Harriet Burney,1997 This scholarly edition presents for the first time all of the known surviving letters of British novelist Sarah Harriet Burney 1772 1884 The overwhelming majority of these letters more than ninety percent have never before been published Burney s accomplishments says Lorna J Clark have been unjustly overlooked She published five works of fiction between 1796 and 1839 all of which met with reasonable success including Traits of Nature 1812 which sold out within three months These letters position Burney among her fellow women writers and shed light on her relations with her publisher and her ambivalence toward her own work and her readership Her lively observation of the literary scene evinces the range and scope of her reading as well as her awareness of literary trends and developments Burney was for example remarkably prescient in recognizing and praising from the first the talent of Jane Austen and met several of the authors of her day A challenging new perspective on family matters also emerges in the letters The youngest child of the second marriage of Charles Burney and the only daughter to remain unmarried Sarah Harriet had the unenviable task of caring for her father in his later years Her letters reveal a darker side of Dr Burney and also help to round out our image of a more favored daughter

Sarah Harriet's half sister and fellow novelist Frances Burney As literature Clark observes Burney's letters are arguably her best work Thoroughly versed in the epistolary arts she sought always to amuse and entertain her correspondents Burney ultimately emerges as a quiet but heroic single woman relegated to the margins of society where she struggled for independence and self respect Displaying literary qualities and a lively sense of humor the letters provide a fascinating insight into the literary political and social life of the day *The Enclosure of Knowledge* James D. Fisher, 2022-07-21 The rise of agrarian capitalism in Britain is usually told as a story about markets land and wages This study reveals that it was also about books knowledge and expertise challenging the dominant narrative of an agricultural enlightenment and showing how farming books appropriated traditional knowledge in pre industrial Britain **Dictionary of National Biography** Leslie Stephen, 1899 *Dictionary of National Biography* Sir Leslie Stephen, Sir Sidney Lee, 1900 *The Popular History of England: From the war of 1793, to the material progress of British India, 1826* Charles Knight, 1878 **A Catalog of Books Belonging to the Lower Hall of the Central Department, in the Classes of History, Biography, and Travel** Boston Public Library, 1873 *Charter, By-laws and Library Rules of the Mercantile Library Company of Philadelphia* Mercantile Library of Philadelphia, 1886 **The Memoirs of René Vicomte de Chateaubriand sometime Ambassador to England** Francois René Chateaubriand, 2019-09-25 Reproduction of the original *The Memoirs of Ren Vicomte de Chateaubriand sometime Ambassador to England* by Francois Ren Chateaubriand *A Catalogue of the Mercantile Library Company of Philadelphia* Mercantile Library of Philadelphia, 1850
