Prostitution, Polygamy, and Power Jeffrey D. Nichols,2002 The controversy waned when the Church of Jesus Christ of Latter day Saints began to move away from polygamy in the 1890s but resurfaced with the rise of the anti Mormon American Party that sponsored the Stockade prostitution district Nichols traces the interplay of prostitution and reform through World War I when Mormon and gentile moral codes converged at the expense of prostitutes He also considers how polygamy and religious conflict distinguished Salt Lake City from other cities struggling to abolish prostitution in the Progressive Era Jacket

Utah Since Statehood Noble Warrum,1919 **The Sentimental Life of International Law** Gerry Simpson,2021-11-11
The Sentimental Life of International Law is about our age old longing for a decent international society and the ways of seeing being and speaking that might help us achieve that aim This book asks how international lawyers might engage in a professional practice that has become to adapt a title of Janet Malcolm s both difficult and impossible It suggests that international lawyers are disabled by the governing idioms of international lawyering and proposes that they may be re enabled by speaking different sorts of international law or by speaking international law in different sorts of ways In this methodologically diverse and unusually personal account Gerry Simpson brings to the surface international law s hidden literary prose and offers a critical and redemptive account of the field He does so in a series of chapters on international law s bathetic underpinnings its friendly relations the neurotic foundations of its underlying social order its screened off comic dispositions its anti method and the life worlds of its practitioners Finally the book closes with a chapter in which international law is re envisioned through the practice of gardening All of this is put forward as a contribution to the project of making international law again a compelling language for our times *Justice for the Poor* Debra S.

Emmelman,2018-05-08 This title was first published in 2003 In this study the author examines the behavior of one group of court appointed defence attorneys and reaches the conclusion that although in contrast to popular opinion these attorneys maintain an adversarial stance against the prosecutors and behave in a legally ethical or procedurally just manner case outcomes are unduly shaped by social class and are therefore substantively unjust This occurs because poor defendants typically lack cultural rhetoric that favourably influences those who construct and operate the criminal court system Ironically this indicates that in many cases the process of plea bargaining may be more substantively just than trials A major contribution of the study is the detailed analysis of the manner by which oppression and substantive injustice occur in the

adjudication of many cases and how the cultural practices of the powerful can frequently misconstrue exclude and mute the voices of the poor **History of Kentucky** William Elsey Connelley, Ellis Merton Coulter, 1912 *History of Carroll County, Indiana* John Curtis Odell, 1916 Everyday Practices and Trouble Cases Austin Sarat, 1998 Everyday Practices and Trouble Cases asks how law helps to constitute the worlds in which we live every day and how law responds to disruptions and disputes that arise in various realms Leading scholars explore the dichotomy between everyday practices and trouble cases and the way various kinds of research have addressed that dichotomy illuminating the pervasive role of law in social life as well as the capacity of law to respond to social conflict **The Income Tax and the Progressive Era** John D. Buenker, 2018-06-28 This book first published in 1985 investigates the enactment of the federal income tax as a case study of an important Progressive Era reform It was a critical issue that likely divided people along socioeconomic lines thus helping to provide insight into the debate over the class origins of the reformist movement *Fractional Freedoms* Michelle A. McKinley, 2016-10-14 Fractional Freedoms examines paths to liberty forged in the slaveowning household and legal claims brought by slaves in colonial Lima Daniels v. Canada Nathalie Kermoal, Chris Andersen, 2021-04-23 In Daniels v Canada the Supreme Court determined that M tis and non status Indians were Indians under section 91 24 of the Constitution Act 1867 one of a number of court victories that has powerfully shaped M tis relationships with the federal government However the decision and the case continues to reverberate far beyond its immediate policy implications Bringing together scholars and practitioners from a wide array of professional contexts this volume demonstrates the power of Supreme Court of Canada cases to directly and indirectly shape our conversations about and conceptions of what Indigeneity is what its boundaries are and what Canadians believe Indigenous peoples are owed Attention to Daniels v Canada s variegated impacts also demonstrates the extent to which the power of the courts extend and refract far deeper and into a much wider array of social arenas than we often give them credit for This volume demonstrates the importance of understanding law beyond its jurisprudential manifestations but it also points to the central importance of respecting the power of court cases in how law is carried out in a liberal nation state such as Canada *The Latter-Day Saints' Millennial Star*, 1902 **The ^ACivil Sphere** Jeffrey C. Alexander, 2006-08-03 What binds societies together and how can these social orders be structured in a fair way Jeffrey C Alexander s masterful work The Civil Sphere addresses this central paradox of modern life Feelings for others the solidarity that is ignored or underplayed by theories of power or self interest are at the heart of this novel inquiry into the meeting place between normative theories of what we think we should do and empirical studies of who we actually are Solidarity Alexander demonstrates creates inclusive and exclusive social structures and shows how they can be repaired It is not perfect it is not absolute and the horrors which occur in its lapses have been seen all too frequently in the forms of discrimination genocide and war Despite its worldly flaws and contradictions however solidarity and the project of civil society remain our best hope the antidote to every divisive institution every unfair distribution every abusive and dominating

hierarchy This grand sweeping statement and rigorous empirical investigation is a major contribution to our thinking about the real but ideal world in which we all reside **The Emergence of Historical Forensic Expertise** Vladimir

Petrović, 2016-10-26 This book scrutinizes the emergence of historians participating as expert witnesses in historical forensic contribution in some of the most important national and international legal ventures of the last century It aims to advance the debate from discussions on whether historians should testify or not toward nuanced understanding of the history of the practice and making the best out of its performance in the future Lives in the Law Austin Sarat, Lawrence

Douglas, Martha Umphrey, 2009-03-06 The essays look at the consequences that legal practice has on the lives of its practitioners as well as on the individual legal subject and on the shape of shared identities These essays challenge liberal and communitarian notions of what it means to live the law In the first of the essays Pnina Lahav presents a study of the Chicago Seven Trial to paint a picture of the law's power to serve as a site for the definition of a collective group identity In contrast Sarah Gordon focuses on the experience of an individual legal subject namely the defendant in the Hester Vaughn trial a notorious nineteenth century case of infanticide Frank Munger looks at how law constructs the identity of women and explores the strategies by which poor women resist the law's construction of their dependency In the fourth essay Vicki Schultz offers a moral vision of equality that straddles the liberal and communitarian positions with her articulation of the concept of a life's work Lastly Annette Wieviorka examines the recent trial of Maurice Papon for complicity in crimes against humanity to reveal how the very identity of a nation in this case France can be defined through juridical and legal acts Austin Sarat is William Nelson Cromwell Professor of Jurisprudence and Political Science and Professor of Law Jurisprudence and Social Thought Amherst College Lawrence Douglas is Associate Professor of Law Jurisprudence and Social Thought Amherst College Martha Umphrey is Assistant Professor of Law Jurisprudence and Social Thought Amherst College
