*The Guide to Nature*, 1926      *The Book World Today* John Hampden, 2025-09-24 Originally published in 1957 *The Book World Today* was the most comprehensive survey yet attempted of the making and distribution of books in Britain at the time. All the main aspects and problems of this complicated process are expounded by men of high standing in their own fields who wrote from expert knowledge. Anyone who earned their living from books was likely to find here facts and ideas which were new to them. The book has been edited mainly from the publisher's point of view and publishing is given particularly full treatment. But the author, the agent, the booksellers, the librarians and the other contributors state their cases freely, often expressing views which clash sometimes violently with those of the publishers. It is this clash of opinion which gives the book its great importance. It would have been challenging, stimulating and of practical value to those inside the trade at the time, while others would find in it much of interest. Today it can be read in its historical context.

**The Zoo Book** Enid Blyton, 2022-08-16 *Enid Blyton's The Zoo Book* invites readers into a delightful world where the charm of animal life is vividly brought to life through engaging prose and whimsical illustrations. Set against the backdrop of a bustling zoo, the narrative captures the essence of childhood curiosity as it introduces various animals, from playful monkeys to majestic elephants. Blyton's literary style is characterized by her ability to meld simple language with enchanting storytelling, making complex themes of nature and companionship accessible to young readers. This work fits seamlessly within the rich tapestry of children's literature in the mid-20th century, reflecting a post-war fascination with exploration and the natural world. Enid Blyton, an iconic figure in children's literature, authored over 700 books, often drawing from her own adventures and experiences to create captivating tales. Vividly influenced by her love of nature and her desire to inspire youthful imaginations, Blyton's storytelling reflects an era where the innocence of childhood was paramount. Her experiences as a teacher also informed her understanding of how to engage young minds, making her works both entertaining and educational. For parents and educators seeking to instill a love of reading in children, *The Zoo Book* serves as an excellent introduction to vibrant narratives and animal awareness. Blyton's remarkable ability to blend fun with learning makes this book a cherished addition to any child's library, perfect for

Journeys with Emperors

Gerald L. Kooyman,Jim Mastro,2023-11-29 With stunning photographs from the ice edge this firsthand account of a researcher's time in Antarctica and of the perilous journeys of the world's largest penguin species the iconic emperor Nearly all emperor penguin colonies are extremely remote of the sixty six known fewer than thirty have been visited by humans and even fewer have been the subject of successful research programs

One of the largest known emperor penguin colonies is found on a narrow band of sea ice attached to the Antarctic continent. In *Journeys with Emperors*, Gerald L. Kooyman and Jim Mastro take us to this far-flung colony in the Ross Sea, revealing how scientists gained access to it and what they learned while living among the penguins as they raised their chicks. The Ross Sea colony is close to the ice edge, which spares the penguins the long, energy-draining march for which other colonies are well known. But life at this colony is not without movement. The proximity of the ice edge to the birds allowed researchers to observe the penguins as they came and went on their foraging journeys, including their interactions with leopard seals and killer whales. What the scientists witnessed revealed important aspects of emperor penguin behavior and physiology. For instance, they discovered that in the course of hunting for food, some of the penguins dive to depths of greater than five hundred meters, a third of a mile deeper than any other diving bird. And crucially, most of the emperor's life is actually spent at sea, with fledged chicks and adults making separate perilous journeys across icy water to mature or to feed before they must fast while they molt. When chick nurturing is complete, the fledglings abandon the colony in large groups, heading north to the Southern Ocean. The adults leave at the same time, traveling one thousand kilometers eastward across the Ross Sea to a sea ice sanctuary for molting. During this journey, they must gain enough weight to survive the month-long molt, when every feather is replaced and the birds cannot enter the water to feed. After the molt, many if not most return to the colony to breed once again. For the males, this means another fast, this time for 120 days, as they incubate their eggs. Featuring original color photographs and complemented with online videos, *Journeys with Emperors* is both an eye-opening overview of the emperor penguin's life and a thrilling tale of scientific discovery in one of the most remote, harsh, and beautiful places on Earth.

**Standardising English** Linda Pillière,Wilfrid Andrieu,Valérie Kerfelec,Diana Lewis,2018-03-15 This path breaking study of the standardisation of English goes well beyond the traditional prescriptivism versus descriptivism debate It argues that the way norms are established and enforced is the result of a complex network of social factors and cannot be explained simply by appeals to power and hegemony It brings together insights from leading researchers to re centre the discussion on linguistic communities and language users It examines the philosophy underlying the urge to standardise language and takes a closer look at both well known and lesser known historical dictionaries grammars and usage guides demonstrating that they cannot be simply labelled as prescriptivist Drawing on rich empirical data and case studies it shows how the norm continues to function in

society influencing and affecting language users even today      *The English Catalogue of Books ...: 1801-1836. Ed. and
