music in New York cultivated a sound that was grounded in tradition including classical jazz and Spanish Caribbean folkloric music For the first time Lapidus studies this sound in detail and in its context He offers a fresh understanding of how musicians made and formally transmitted Spanish Caribbean popular music in New York City from 1940 to 1990 Without diminishing the historical facts of segregation and racism the musicians experienced Lapidus treats music as a unifying force By giving recognition to those musicians who helped bridge the gap between cultural and musical backgrounds he recognizes the impact of entire ethnic groups who helped change music in New York The study of these individual musicians through interviews and musical transcriptions helps to characterize the specific and identifiable New York City Latin music aesthetic that has come to be emulated internationally
